Rhee "Very Happy" After Conference

May Have Agreed To Armistice in Talk With Ike's Envoy

SEOUL (AP)—South Korea's President Syngman Rhee was described as "very happy" today following a 40-minute secret conference with a special truce emissary from Washington and the top U. N. military commander.

Speculation mounted that the stubborn old statesman might accept an armistice.

No new conferences were scheduled. Most members of Rhee's Cabinet went into closed door session immediately after the session. Members of the U. N. delegation met at the U. S. embassy.

Rhee's price for accepting a truce has not been disclosed.

But high sources were quoted as saying he might agree if the U. S. gives him an iron-clad pledge to come to his aid in event of a new Red attack.

Gen. Mark Clark, the U. N. commander, flew here from Tokyo to join Assistant Secretary of State Walter S. Robertson in the critical second meeting in Rhee's hilltop presidential mansion. Clark was accompanied by Ambasssdor Robert Murphy, his political adviser, and Lt. Gen. William K. Harrison Jr., chief Allied truce negotiator.

Just before the session began a source close to Robertson said that "if things go as well as they have so far" the mission would not have to remain in Korea much longer. The party was expected to leave for Washington in two or three days with a stop-off in Tokyo.

The assistant secretary of state plans to tour the fighting front before leaving Korea.

Robertson and other high U. S. officials were scheduled to be guests of honor Saturday night at a dinner given by Rhee and his Austrian-born wife.

Saturday's crucial session began at 2:30 p. m. (12:30 a. m. Saturday EST) and broke up at 3:10.

South Korea's Prime Minister Paik Too Chin and Foreign Minister Pyun Yung Tai sat in on the session.

Robertson flew here from Washington with secret messages to Rhee from Eisenhower and Secretary of State John Foster Dulles. He met for almost three hours with the defiant statesman Friday and said afterward he was "very optimistic" that Rhee could be won over.

Rhee also expressed optimism over the outlook for an agreement.

The aging President has refused to accept a truce negotiated at Panmunjom and created a crisis when he ordered the release of 27,000 anti - Communist Korean prisoners from U. N. stockades.

Robertson emerged from Friday's meeting to tell newsmen "we hope we are making progress in removing misunderstanding" in the disagreement over armistice terms.

Two Burned In Crash of Plane At Plain City

COLUMBUS, O. (AP)—Two men burned seriously in the crash of a private plane near Columbus Friday were reported in "fair" condition in University Hospital here today.

They are Alvin Shaffer, 38, the pilot, and Wesley Hartman, 50, owner. Gene Whetnall, 27, a passenger, was burned less seriously when the four-seated plane crashed into a garage after attempting a landing at te Plain City Airport. Whetnall was treated for arm burns.

Other Driver Held

Myron Ralston, 27, Dies in Crash Of Motorcycle, Auto

Myron Edgar Ralston, 27, of 408 E. Fairground St. was killed at 1:16 this morning when the motorcycle he was riding was struck by a car driven by Walter Lee Balch, 20, of the Werley Hotel.

It was the first traffic death in Marion since last Oct. 7.

The accident occurred at the intersection of N. Main St. and George St. Balch made a left turn into a filling station on the northwest corner of George St. directly in the path of Ralston's cycle. Ralston was taken to City Hospital where he was pronounced dead on arrival.

Police Chief Thomas Coon said Balch is being held for investigation. The prosecutor's office will conduct the inquiry to determine whether to file charges.

Ralston is survived by his wife Phyllis and two children, Vicky Lynn, 8, and Penny Lee, 6.

Chief Coon said both the motorcycle and Balch's car were badly damaged. Balch's vehicle was towed away.

After being taken to City Hospital, Ralston's body was removed to the Boyd Funeral Home. Police notified Ralston's relatives.

Two women riding with Balch at the time of the accident were being questioned by police this morning. The two, Bernice Jean Fair of 386 Railroad St. and Edith Kincaid of 760 Creston Ave., agreed with statements given to police by Balch at the time of the accident. Later this morning, however, their reports conflicted when questioned by officials from the prosecutor's office and police officials. They were the only witnesses to the accident, Coon said.

Police said that Balch's car was traveling about 20 miles an hour at the time of the impact. They could give no estimate of the speed of Ralston's motorcycle.

Ralston's destination at the time of the crash was not known, though Chief Coon said he might have been going to the fire at the Farm Bureau. Balch gave no indication of where he was going.

The light on the Chamber of Commerce billboard in front of the Courthouse will switch from green to red today and remain red for three days. It will be the first time since the sign was erected in March that it has been red.

Native of Kenton

Myron Edgar Ralston was born Sept. 3, 1927, at Kenton, a son of William A. and Martha Dyer Ralston. Nov. 28, 1944, at Greenup, Ky., he married Phyllis Barnhart. He was an employe of the Robert Stanley Construction Co. at Mt. Vernon.

Surviving with his widow are his parents who live at 266 Pearl St., and daughters, Vickie Lynn and Penny Lee, and brothers, Riley Ralston of 618 Sugar St. and Melvin of 266 Pearl St.

Funeral services will be conducted Monday at 2 p.m. in the Boyd Funeral Home on W. Columbia St. Dr. L. E. Ames, pastor of First EUB Church, will officiate. Burial will be at Caledonia. Friends may call at the funeral home after 7:30 tonight.

Ike Gaining Upper Hand In Tax Fight

Showdown Vote On Extension of Excess Profits Due Monday

WASHINGTON (AP)—President Eisenhower appeared to be gaining the upper hand today as the House neared a floor showdown in his struggle to extend the excess profits tax.

Interviews with a score of leaders on both sides of the issue showed a general belief the President would win, after a fight that was certain to be bitter and could be close.

But a few had their doubts.

A hard fighting band of ways and means committee members, led by Chairman Daniel A. Reed (R-NY), girded for a hot protest against the administration move.

The closest battle, scheduled Monday, was over procedure rather than over the President's tax proposal itself.

Eisenhower has urged a six month extension of the controversial tax.

The levy dies next Tuesday, but can be extended retroactively.

For almost a century and a half, the ways and means committee has started all revenue bills through Congress. But when the 78-year-old Reed slammed the door to a vote on the Eisenhower proposal in his committee, the administration resorted to the drastic maneuver of forcing it to the floor by a 7-4 vote of the House Rules Committee. The rules committee normally clears bills to the floor only after they have been approved by legislative committees.

In the first test Monday, the House will decide whether it approves this procedure and agrees to take up the tax bill for action. Both sides concede the bill will pass if it clears this hurdle.

Reed, oldest Republican in continuous service in the House and a stout foe of the "New Deal," found himself banking chiefly on Democratic votes on the issue. He prepared to try to overturn what he called a high handed and unconstitutional procedure.

House Speaker Joseph W. Martin (R-Mass) told reporters today he believes less than 25 of the 220 Republican House members would join Reed's battle against the administration. Other Republicans close to the maneuvering thought that might be an optimistic estimate, but even foes conceded the great bulk of GOP members would follow Martin and the President.

Democratic leaders, however,

May Test New Polio Vaccine This Year

ST. PAUL, Minn. (AP) — A mass test of a new polio vaccine on as many as a half million U. S. children may be undertaken this year by the National Foundation for Infantile Paralysis.

Basil O'Connor, foundation director, voiced that possibility here Friday night in a talk at a six-state meeting of workers for the March of Dimes Campaign, which mainly supports the foundation.

Fall Back Along Wide Front

South Korean Troops Staggered by Chinese

SEOUL (AP) — Thousands of Chinese Communists sent South Korean troops reeling back along a wide front today in a grinding renewal of the Reds' two-week-old Pukhan River offensive.

At least two Chinese divisions—more than 20,000 soldiers — unleashed the assault on a 13-mile front on both sides of the Pukhan River, on the East-Central Front Friday night.

At one spot in the wild hills east of the river, the ROKs were forced back a mile and a quarter and were fighting desperately to hold. This Red gain was second only to the two-mile bulge the Communists punched in Allied lines in the same sector earlier this month.

Associated Press Correspondent Milo Farneti reported ROK soldiers on the west side of the river recaptured El Paso Hill — or Lookout Mountain — at the junction of the Kumsong and Pukhan Rivers, and another nearby height in a fierce mid - morning counterattack.

A full moon shining fitfully between cloud layers illuminated the bitter night-long fighting. At daybreak, waves of Allied fighter bombers swarmed over Red fortifications and dumped 500-pound bombs and bullets.

The U. S. Fifth Air Force said Allied Sabre jets far to the north shot down two Communist MIG jets and probably destroyed a third.

The MIG kills were credited to Lt. Henry Buttleman, Bayside, N. Y., and Flight Lt. John H. J. Lovell, Peterborough, England. It was Buttleman's third MIG and the first for Lovell, a Royal Air Force exchange pilot. The probable went to Lt. Robert A. Lysgarrd, Osage, Ia., who already has one damage claim.

While the Eastern Front shook with the roar of new battles, the Chinese hurled another division against the Imjin River defense, north of Seoul, in the west.

In a concentrated see saw battle under a hail of artillery the Reds Saturday morning forced the crack First ROK Division back from two hills it had re-captured in bitter counterattacks.

Lost heights were Outpost Bak and another nearby hill. With this new setback, the balance sheet forthe narrow but savage fight showed the Reds holding three of five hills they originally attacked two days ago.

The Red gains, however, were on a very shallow frontage and were nothing like the deep advance in the East.

Massed air and artillery strikes supported the first ROKs in their counterattacks, which were costly for both sides. Chinese bodies lit-

Fertilizer Plant Blaze Extinguished

Farm Bureau Grain Elevator Building Swept by Flames

A fire causing a possible $100,000 damage to the Farm Bureau Cooperative Association grain elevator and another fire extinguished without serious damage at the Plant Life Fertilizer plant in Marion, Friday night, are both believed to be the work of a "firebug."

Merlin E. Mitton, an investigator in the arson division of the state fire marshall's office, said "It's positive the fire started at the fertilizer plant was set deliberately, and I feel sure the one here (at the Farm Bureau plant) was set deliberately also."

Total For Month $365,000

Total loss from six major fires in Marion since the first of the month is now estimated at some $365,000.

Of the six, two were blamed on faulty wiring while investigations of three others which broke out a week ago last Monday night now indicate they were "possibly set by a pyromaniac."

Last night's fire at the Farm Bureau plant broke out sometime before 11:46 p.m. and by the time it was discovered was raging through the central portion of the building.

Discovery of the fire came when J. W. Henry of 194 Park Blvd. saw flames shooting from around a double-size loading door facing toward Park Blvd.

Henry said, "My wife and children and I were watching television in the living room when the lights and TV set began to flicker on and off."

"Seconds later," he said, "I heard the fire siren at the plant blowing and looked out to see what was wrong."

He said he saw the fire inside the building and rushed to the phone to call the fire department, "but the only number I could remember was long distance, so I told her about the fire."

Received at 11:46

The fire call was logged in at the Central Fire station at 11:46 p.m., Fire Chief Owen A. Sifritt said today. Two minutes later, alarms were turned in from two fire boxes on Park Blvd., fire department records revealed.

Firemen from the Central fire station and the W. Center St. station answered the call and arrived at the scene minutes later, but not before the fire was raging almost beyond control.

By midnight the flames were leaping from the top of the grain elevator section of the building and the smoke and flames were visible for several blocks. By this time also some 2,000 or more spectators had arrived at the scene and many of them were pitching in to help firemen fight the blaze.

Boys See Fertilizer Plant Blaze

As firemen worked and with the blaze still going strong, two young boys walking along the railroad tracks near the Plant Life Fertilizer plant spotted the beginning of a fire there and called the police department. This was at 12:38 a.m.

No sooner was the call relayed to Marion Police Chief Tom Coon at the Farm Bureau fire than he sent Patrolman Lawrence Cocherl rushing to the Fertilizer plant.

The first to arrive at the still infant blaze, Cocherl grabbed a fire extinguisher from the police cruiser and went to work on the blaze immediately.

By the time firemen from the Mark St. station arrived, "he was scattering burning boards every which way and had the main fire pretty well out," one of firemen said. Three unidentified Erie Railroad workers also helped put out the fire.

Started in Lumber Pile

This blaze—which within minutes would have engulfed the fertilizer plant—was started on top of a stack of lumber piled against the rear of the plant next to the railroad tracks.

On top of the lumber and still smoldering when Mitton and firemen arrived was a wad of oil saturated waste material "definitely taken from the two journal boxes on a railroad car standing on a siding a few feet from the building.

Mitton said there was no doubt someone took the oil soaked waste from the journal box, lit a match to it and tossed it on the stack of lumber. There was no estimate of loss in this fire except it "was small."

Further investigation at the Farm Bureau fire disclosed a boxcar standing on a siding just a few feet north of the burned building was also minus the oil-soaked waste material from two journal boxes.

After he discovered the fire, and called the fire department, Henry said he ran over to the building fearing someone might be trapped inside.

As he ran around to the rear of the building, Henry said he saw a series of sparks flash from some electric wires running along the ceiling of rooms on the second floor.

He said this was probably caused by short circuits resulting from wires already burned in the fire in other parts of the building.

He also said the cause of the flickering lights at his house just before he saw the fire possibly was due to short-circuited wires in the Farm Bureau building.

There was also some speculation that the automatic fire alarm system caused a heavy drain on the electric circuits in the area when it was set off by the fire.

Mistaken Call to Zane' Plant

Firemen were just getting the fire under control when an unidentified passerby saw what appeared to be a fire breaking out at the Betty Zane Corn Products Co. plant in debris of last week's fire at the Corn Products Co. plant on Bellefontaine Ave. and called the fire department. This sent one of the pumper trucks from the Farm Bureau Fire to the pocorn plant but this turned out to be only steam rising from still hot stacks of corn cobs remaining from the $200,000 fire there on June 15.

Five Firemen Injured

A total of five firemen were injured slightly fighting the blaze at the Farm Bureau last night.

Fire Chief Owen A. Sifritt, and firemen Robert Cass, and Donald Bailey stepped on nails which punctured the soles of their boots and ran into their feet, William Davis suffered a wrenched knee, and Stuart Jones received a bruised arm.

An unidentified boy who helped the firemen also suffered some minor burns on his back and shoulders. He reportedly was working with firemen inside the burning building without a shirt on and sparks showering down landed on his bare shoulders and back.

Fire Chief Sifritt said there was a total of 2,550 feet of fire hose used to fight the fire and that two pump-

Police Nab 14 in Raid On Pool Hall

The operator of a N. Main St. pool hall and 13 customers were arrested Friday night in a gambling raid by the Marion Police Department.

Charged with operating a gambling place was Wallace Albert Davy, 53, of 661 Wood St., whom police described as the owner of the pool room. The men were arrested when police found a poker game being operated in the establishment located at 115 N. Main St.

The arrests were made after a routine check by police officers, Police Chief Tom Coon said today. His department received no calls or tips on the game, he said.

Davy was released after he posted a $300 bond for his appearance today in Municipal Court. The customers were required to post $100 bonds and they also were scheduled to be arraigned today.

WLW-C Move To Channel 4 Is Postponed

Changeover of Television Station WLW-C, Columbus, from Channel 3 to Channel 4, which had been scheduled to take place Sunday, has been postponed until sometime within the next few days, officials of the station announced today.

The changeover now will possibly take place Tuesday, it was stated.

Weather conditions have kept the workers from working on the tower and other technical difficulties which have been encountered have slowed up the progress of the work. A temporary antenna is being used at present by the station.

Asks Night Watchmen Be Employed

A warning to all owners of business, industrial, and public buildings went out today from Marion Fire Chief Owen A. Sifritt.

He urged that night watchmen be placed on duty at large buildings of all kinds to help prevent a recurrence of Friday night's fire and attempted fire.

He said, "This thing is contagious and I'm afraid of what might happen if something isn't done to stop it soon."

All Marionites were asked to call the fire or police departments the minute they see anything that looks suspicious. He said quick action may mean the prevention of more serious fires and may lead to the person who is responsible for setting them.

Weather Data Is Taught Troopers

NORMAN, Okla. (UP) — Oklahoma's fledgling highway patrolmen get a healthy dose of meteorology at their training school at the University of Oklahoma, with emphasis on tornado weather.

The troopers have yet to beat a tornado into a threatened town, but they've come close.

Two patrol cars were chasing the funnel that dipped into Bradley in mid-March. Two other cars chased a threatening cloud spawned by the storm front, racing more than 50 miles before it dissipated without touching the ground.

'Bobo' Rockefeller Takes Over Husbands New York Apartment

NEW YORK (AP)—Barbara (Bobo) Rockefeller seized her estranged husband's Park Avenue apartment over the weekend after suddenly arriving here from an Indiana farm.

With her were their 4-year-old son and an unidentified woman friend.

Mrs. Rockefeller, blonde daughter of an immigrant coal miner, moved into the apartment while her husband, Wintrrop Rockefeller, heir to Standard Oil millions, was in Little Rock, Ark.

She talked briefly last night with newsmen by telephone, indicating she was not impressed by a million dollar trust fund being set up by Rockefeller for her, and then announced she would hold a news conference some time today.

The 36-year-old Mrs. Rockefeller and the oil heir were married in a storybook wedding five years ago. They were estranged shortly after the birth of the son, Winthrop Paul, who has since been in the exclusive custody of the mother.

Early this month Rockefeller announced he was establishing a million dollar trust fund for his estranged wife. She had complained previously she was broke and living off the charity of friends.

Rockefeller replied he had supported her and the son with $1,000 a week. He added that a million dollar trust fund had been set up earlier for the son.

The oil heir on June 7 moved to Little Rock, and an attorney said he would establish permanent residence there. The lawyer said the New York apartment was up for sale.

His move to Arkansas brought reports Rockefeller planned a divorce, but he scoffed at this. Arkansas permits a decree after 90 days residence.

Mrs. Rockefeller came here from a Lowell, Ind., farm where she had been living.

HE'S SUING HER FOR $250,000. No antagonism is evident here as ever glamorous Gloria Swanson examines a roll of film with producer Paul R. Thoma in anteroom at New York Supreme Court where Thoma is suing her for $250,000 of her earnings. He claims that amount as his share since her motion picture comeback in the late 1940s. He says a color short he made of her restored her to fame.

Twelve Troops In Next Scout Camp Schedule

Marion, Caledonia, Bucyrus in Coming Week's Program

In the camping program of the area for Boy Scouts at Camp Owens near Marion next week, 12 troops are scheduled to attend, coming from Caledonia and Bucyrus as well as Marion. Those providing their own leadership are Troops 68 from Caledonia, 26, 21, and 46 of Marion, while those for whom leadership will be provided by the area office are Troops 8, 11, 6, 3, 16, and 49 of Marion and 60 and 41 of Bucyrus. Registration for the week totals 94. There will be a staff of 15, Dean Johnson, camp director, stated.

Beginning Sunday at 2 p.m. the activities will include on the first evening a vesper service with the Rev. Frederick W. Leech, rector of St. Paul's Episcopal Church, in Marion, provided by the Marion County Ministerial Association as the speaker. A short Indian campfire period of orientation will follow.

Official Visitors Night will be Wednesday, but visitors will be welcome any time, it was stated. On Wednesday, there will be a waterfront show and a visitors' campfire.

Scouts will have the opportunity to earn various camping merit badges in aquatics, swimming, life saving, and canoeing, and in camp craft, pioneering, pathfinding, and nature. Younger Scouts will have opportunity for advancement in rank.

A total of 10 activity areas will be available for troops to schedule, including rifle range, archery, field archery, rope yard, axe yard, demonstration area, pathfinding area including nature and orienteering, and bait casting. Also scheduled is instruction for swimming, non-swimmers, beginners, and swimming and life saving, for merit badges. A number of evening activities have been planned for troops to enter into as they see fit.

Sycamore Girl Remains Unconscious

UPPER SANDUSKY — Janice Wagner, five-year-old daughter of Mr. and Mrs. Austin Wagner of near Sycamore, remains in an unconscious condition in Wyandot Memorial Hospital. Her case has been diagnosed by doctors as sleeping sickness.

The little girl was taken to the hospital last Sunday on her fifth birthday anniversary. She went into a coma following a case of the measles.

Fish Talk

By Hal Boyle

SHELLY BAY, Bermuda (AP) — Fish are more friendly in summer than in winter. A fish also finds it easier to figure out the personality of a person than a person does that of a fish.

"And all fish do have personalities," insists Bronson Hartley, who knows a number of them well enough to call them by their first names.

Bronson, a tall, slender ex-New Yorker of 33, has spent more than one sixth of his life under water in the seas around Bermuda.

He and his pretty dark-haired Cuban wife, Martica, have taken more than 6,000 tourists for deep sea dives and conducted walks along the ocean floor here in the last five years.

The hidden life that swarms around the coral reefs has fascinated Bronson since he built his first diving helmet at the age of 11—the helmet he himself still uses.

He spent two years working with Dr. William Beebe, the famous underseas explorer. After completing military service, he went to work for an oil company here, but was unhappy.

"I would hop on my bike and ride out to the ocean, and think, 'gee, what a waste of a wonderful day,' " he recalled.

So he threw up the job, and decided to do what he most wanted to do—find out what really goes on in the strange world beneath the waters.

"There is more to learn here than anyone could find out in many lifetimes," he said.

Martica and he lead happy, arduous lives. But Martica, who steers their boat, "The Arc," and supervises the diving operations, laughs at the idea there is any danger to it.

"We have taken down children of 5, and people as old as 83," she said. "It is much safer at the bottom of the ocean than it is on a highway."

Over the years Bronson has made pets of many fish, which he feeds by hand. His favorites are two beautiful angel fish—Helen and Ruth.

"Helen is so tame now she will swim through a hoop for me, and eat out of anybody's hand," he said. "It took me only six months to tame her, but a year to make friends with Ruth.

"I can make two appointments a day with Helen, and she will always be there on time. But Ruth is unpredictable.

"Ruth has an unusual ability. She can sense whether a stranger is neurotic or odd in any way, and will immediately swim away. It never fails. She sometimes can judge a stranger much quicker than my wife or I can. On the other hand, she loves children—unless they are mentally deficient. And believe me, she can sense it if they are, and won't come near."

Bronson has been feeding Helen for five years, and is as fond of her as if she were his child.

"We took a six-month vacation," he said. "And the first day I was back and went down to the reef she swam out to meet me, and it was as if I never had been away. But she was narrow and gaunt, and her eyes were sunken. She had had to learn how to fend for herself again while I was gone."

I asked Martica if she were ever jealous of Helen, and she threw back her head and laughed:

"That's the kind of competition I don't mind."

The Hartley household consists of a baby alligator, two Persian cats, and a Dalmation dog named El Dogo, Rogrigo Vivante Pietro da Cortona. He will answer to "Rogrigo," but prefers to be called by his full name. More prestige.

The Hartleys recently managed to raise a tame herd of 200 sea horses by feeding them vitamin A, and hope their experiments will ultimately benefit commercial fisheries.

"Our real interest is in scientific research," he said.

Bronson, a quiet, intense man, is bitter over the present popularity of spear fishing among both tourists and natives. He is particularly angry over the death of Mortimer, a blue-striped grunt.

"It took me four years to get Mortimer to eat out of my hand," he said. "Mortimer wasn't scared—just dumb—because he would let me kneel by him.

"Suddenly one day he turned and came into my arms. This went on for a year—and then someone speared him."

SANDUSKY, O. (AP)—Charles Edward White of Canton, has recovered the body of his 18-year-old son, Edward, who drowned in Lake Erie Tuesday while trying to swim to shore in choppy water from an anchored boat. White and his brother, James, found the youth's body Friday off nearby Vermilion Lagoons.

Lincoln Park Playground Schedule Set

Walker Huffman, recreational supervisor for the city of Marion during the summer months, today announced the Lincoln Park playground would be closed Saturday and Sunday, July 4 and 5 as far as supervision and issuing of equipment were concerned.

No adult supervisors will be on hand those days to supervise the children. The move will not prevent children from playing at the park or family gatherings scheduled there.

Huffman also announced highlights for next week. The arts and crafts program will be held Monday through Thursday in the morning and afternoon. It will feature the making of pot holders and paper novelties and work with clay and gimp.

Tuesday from 6 to 8 p.m. a movie will be shown at the park. The films will include a 30-minute comedy film and an hour long feature. On Wednesday at 10 a.m., the Lincoln Park softball team, a team formed by Huffman from boys at the playground, will meet the West Side Indians in a doubleheader.

The single elimination horseshoe tournament for boys will continue Monday and Thursday while the croquet tourney, also single elimination, will resume Monday and Friday. Boys and girls are competing in the croquet event.

Huffman repeated his announcement that if enough interest is shown an adult Red Cross first aid program would be started at the park during the second week of July. The meetings are tentatively set for 6 to 8 p.m. Monday through Friday. It will be given under the auspices of the Marion County Red Cross Chapter and regulation certificates will be presented any adult completing the 20-hour course.

Any persons interested in the course are asked to contact any of the adult supervisors at the playground.

No One Can Afford To Win

Those who are trying to keep cool about the red-hot tax issue being fought out in Washington can see one thing clearly.

No one can afford to win, because the fight is political and personal. It's the kind of a fight that leaves scars.

Rep. Reed of New York, the crusty chairman of the House Ways and Means Committee whose feelings are said to have been hurt when the Eisenhower administration failed to consult him on the matter, cannot afford to win his fight to let the excess profits tax expire. He is a key Republican committee chairman in a Republican administration. He cannot kick his party in the teeth.

But neither can other key Republicans enforcing the decision to extend the excess profits tax afford to kick Rep. Reed and his friends in the teeth. They are standing on a point of legislative pride.

They have become the defenders of the prestige of Congress in its endless struggle with the executive branch. No one can afford to manhandle them at the expense of future relations between the White House and Congress.

Another group which can't afford to win is trying to split the difference in the issue by moving the starting point of taxes under the excess profits law from $25,000 to $100,000. That would please no one. It would be a distinction without a real difference. It's the principle of this tax that's wrong, not the arithmetic.

It has become a tragic issue. Having been opened, it somehow must be closed. But if it cannot be closed without leading to bitterness about more important matters later, it never should have been opened.

Lamp Posts vs. Corn Stalks

Two fun-loving Clevelanders who have petitioned Congress to admit Cuyahoga County as the 49th state because the Ohio Assembly is dominated by its rural members are laughing with tears in their ears.

All Ohioans are in the same situation.

The situation isn't funny.

It is as unfunny when members from the lamp-post areas of Ohio try to dominate the Assembly as it is when the corn-stalk majority throws its weight around in Columbus.

The rest of us are somewhere between these two factions and are always getting the worst of it.

We wince when the rural bloc goes to work on the public welfare with legislative pitchforks and we wince when the big-city bloc goes to work with blackjacks.

We listen to theories about how much better things would be if the state were redistricted, then we think about the way uninformed voters are herded to the polls in a city like Cleveland and wonder whether redistricting to give them more representation would really be an improvement over a legislature top-heavy with members from the open spaces.

It cannot be denied the shift of population balance from rural to urban places in recent years has made rural domination of state legislatures unfair.

It cannot be denied, either, that the growth of cities in the United States has confronted legislators with problems which most of them prefer to ignore, hoping they will go away and get lost.

But they won't get lost. Government is being challenged to adapt itself to new circumstances in Ohio and every other populous state.

Big cities, big state budgets and big headaches are here to stay.

There is nothing funny about it, as Ohioans have been discovering every two years while watching legislators flounder between the devil of mounting spending and the deep blue sea of unsatisfied needs — most of them in the state's population centers.

Sometime, an Ohio governor who wants to carve out a niche for himself will tackle this problem with a view to solving it, instead of exploiting it as one of the prime facts of political life in beautiful Ohio.

Differences of Opinion

Once upon a time, a difference of opinion between Americans was not an indictment of disloyalty against either one of them. Many important questions were discussed at great length America was made that way.

It could be said and was said with pride that a difference of opinion between Americans was a good thing; that differences of opinion made horse races.

It will be said again some day. It could be said today, except for an exception occurring so often it is almost the rule.

That is the case of a difference of opinion between someone who calls himself an anti-Communist and someone else who also is an anti - Communist but doesn't use anti - Communism as a trademark.

In that case, a person having a difference of opinion with an anti-Communist runs the risk of being smeared as a pro-Communist.

A difference of opinion between Americans still is not an indictment of disloyalty against one of them, as long as both of them are Americans.

Not everything in the realm of controversy can be made pro-Communist or anti-Communist to suit the temper of the times.

U.N. Alibis Fail To Hide Surrender in Korea

Who is telling the truth about the "original objective" of the United Nations in the Korea War?

Is it Syngman Rhee, or is it the Allied statesmen who ignore the written words of the U.S. resolution of October 7, 1950, and the circumstances under which the U.N. General Assembly adopted it?

Just a few days before the fateful resolution was passed, the United Nations armies under the command of Gen. MacArthur had been authorized by the Allied governments, including Great Britain, to cross the 38th Parallel, and the war was being pursued to a smashing victory over the North Korean Communist armies.

Then came the intervention of the Communist Chinese forces, and the U.N. troops were repulsed because the Allies got cold feet and refused to permit Gen. MacArthur to use maximum force to destroy enemy bases by air, an absolute essential in modern warfare.

But the U.N. did not adopt any other resolution changing in any way its October 7, 1950, declaration. Hence that resolution still stands as the official policy of the U.N. until its is formally reversed, which would certainly be more candid and forthright than diplomatic quibbling over what plain English words really mean.

Prime Minister Churchill now says it was never intended to unify Korea by force of arms. Gen. Clark, in his third anniversary message this week to his troops—undoubtedly delivered under orders from the Pentagon military politicians who feel they must adhere to the Truman-Acheson line—says the original objective was just to repel aggression at the 38th Parallel.

In all candor, if this is true, then the U.N. forces were themselves aggressors when they crossed the 38th Parallel and they had no business in North Korea at all. Anybody can form his own judgment by reading the exact text of the U.N. resolution adopted on October 7, 1950:

"The General Assembly,

"Having regard to its resolutions of 14 November 1947 (112 (II) of 12 December 1948 (195 (III)) and of 21 October 1949 (293 (IV)),

"Having received and considered the report of the United Nations Commission Korea,

"Mindful of the fact that the objectives set forth in the resolutions referred to above have not been fully accomplished and, in particular, that the unification of Korea has not yet been achieved, and that an attempt has been made by an armed attack from North Korea to extinguish by force the government of the Republic of Korea,

"Recalling the General Assembly declaration of 12 December 1948 that there has been established a lawful government (the government of the Republic of Korea) having effective control and jurisdiction over that part of Korea where the United Nations temporary commission on Korea was able to observe and consult and in which the great majority of the people of Korea reside; that this government is based on elections which were a valid expression of the free will of the electorate of that part of Korea and which were observed by the temporary commission; and that this is the only such government in Korea,

"Having in mind that United Nations armed forces are at present operating in Korea in accordance with the recommendations of the Security Council of 27 June 1950, subsequent to its resolution of 25 June 1950, that members of the United Nations furnished such assistance to the Republic of Korea as may be necessary to repel the armed attack and to restore international peace and security in the area,

"Recalling that the essential objective of the resolutions of the General Assembly referred to above was the establishment of a unified, independent and democratic government of Korea,

"1—Recommends that

"(A) All appropriate steps be taken to ensure conditions of stability throughout Korea;

"(B) All constituents acts be taken, including the holding of elections, under the auspices of the United Nations, for the establishment of a unified, independent and democratic government in the sovereign state of Korea;

"(C) All sections and representative bodies of the population of Korea, South and North, be invited to co-operate with the organs of the United Nations in the restoration of peace, in the holding of elections and in the establishment of a unified government;

"(D) United Nations forces should not remain in any part of Korea otherwise than so far as necessary for achieving the objectives specified in sub-paragraphs (A) and (B) above; . . ."

Going back and rereading the subparagraph lettered "(A)," One finds the U.N. resolving that the "United Nations armed forces" are to take "all appropriate steps" to ensure "conditions of stability throughout Korea."

It would be more honorable for the U. S. and its spokesmen to admit frankly its defeat and its surrender to expediency than to claim now it never intended to achieve military control by the U.N. forces over all of Korea.

Dear Nephew: We spent a quiet day, resting up from last night's housewarming. It was a four-alarm. We didn't leave the Bohannons any room for doubt that they're welcome.

Some day when you're up here, I want you to meet the Bohannons. The last of the family moved away from here before you were born. They used to live in that big, old brick house just west of the feed mill.

The ones who have come back are the youngest son and his wife, but they intend to keep the premises cluttered with relatives, chiefly nieces and nephews, I guess. J. R. Bohannon doesn't worry about costs, because he not only bought the old homestead, he restored everything on it and put up two guest houses for visitors.

But here's the funny thing about it. He made his money as a builder, specializing in housing developments. But when it was time for him to retire, he wanted to retire to an old situation, not to a new house.

He told me that's why he bought the family place, so he and his wife — who feels the same way about it — can live comfortably. Not a thing about the old house has been changed. The rooms are still big. The ceilings are high. The windows are large.

Cooking will be done on an electric stove now, and there is a modern heating system. Everything has been redecorated and worn - out parts have been replaced with new ones. But J. R. Bohannon was not interested in building a new house. He would rather have an old one with the right sentimental attachments.

That's why we had such a big housewarming, because the neighborhood wanted the Bohannons to know they were appreciated. That was part of the sentimental attachments.

A fellow connected with a government housing agency told me once that the big new idea in housing was to make it expendable, like automobiles. Houses, he told me, should be built for a term, then torn down and thrown away when they became obsolete. There was to be no more sentiment about "old homesteads."

I thought he was wrong. I'm sure of it after meeting the Bohannons. Their theory is that ordinary people need to put down roots, that they are not like gypsies, who are a special kind of people, different from the ordinary run.

J. R. Bohannon, says he had all he wants of being a gypsy. That is why he has come home, where he has a sense of belonging. Maybe the fellow is a little touched in the head, in a nice way, but I think he has something. It always has been my idea, too, that people need more than cages to live in, no matter how fancy the cages may be fixed up.

They need a sense of being "at home." J. R. Bohannon took me to see a black walnut tree he remembered planting, or helping to plant, when he was seven years old. He showed me a woodshed his grandfather had built and his own father had put on a new foundation more than 50 years ago. He says he now is going to do his bit by replacnig the sills, which have begun to rot away and putting on a cedar shingle roof. Quite a fellow, this Bohannon.

Give my regard to the family.

Iron Lid Comes Loose

Cure for Fiscal Ills

By Raymond Moley

The Coudert bill requiring by law that federal expenditures be kept within income, seems to have slight chance for passage before the July 1 deadline. But is may well be considered as a long-term solution of our federal fiscal problem.

Something drastic should be adopted to prevent our government from falling into such a predicament as now faces both the President and Congress.

Briefly stated, the bill introduced by Frederic R. Coudert Jr., a useful member from New York City, would compel the president to submit a balanced budget; in other words, to cut his coat within the limits of his cloth.

It would also require him to review expenditures and receipts from time to time during the year to make sure that the balance kept.

Then Congress would have to limit appropriations to anticipated receipts.

In case of a "grave national emergency" there might be an unbalanced budget, but that would have to be approved by two-thirds of the membership of both Houses of Congress.

Such a law, so far as Congress is concerned, would be merely an expression of self-denial, a good resolution which legally it could violate at any time.

In that respect, it would be like the present law limiting the debt at $275 billion. That is its weakness, which could only be overcome by a constitutional amendment.

Its strength is its positive compulsion upon the Executive Department, which can in money matters be commanded by Congress. Its strength also lies in the fact that it would give public opinion something with which to measure the activities of Congress.

It was once hoped that a solution lay in an executive budget, in which the president would submit yearly a comprehensive statement of requested expenditure and prospective receipts from the judgment and action of Congress.

That hope has vanished, largely because with such tremendous demands for money effective control by Congress is impossible.

In fact, things have got so bad that it is practically impossible for the president, through his Budget Bureau, to control expenditures.

It is futile to expect Congress to act rationally on a budget when two-thirds of what the government will spend in an ensuing fiscal year is beyond its control.

That is because something more than $50 billion of the approximate $70 billion in requests is foreclosed.

Most of this — something more than $35 billion — is in carryover appropriations. The rest is in interest charges and other "must" expenditures.

The Coudert Bill was intended to apply to Fiscal 1954. It is too late for that now, but sometime, somehow, we must find our way out of this fiscal confusion.

Tan Commandments

Dr. Charles F. Pabst, Brooklyn dermatologist, today issued a warning against the dangers of sunburn and gave his 10 "Tan Commandments" for the guidance of sun bathers.

He estimated that 200,000 sunburn, in many cases "deliberately and intentionally acquired," and places the economic loss at $1,400,000 a year.

Serious illness and even death may follow overexposure to strong sunlight, which is one of the major causes of skin cancer, Dr. Pabst said.

Heliophobes should avoid the direct rays of the summer sun, Dr. Pabst continued, explaining that a heliophobe is a person whose skin will redden, blister and burn, but never tan. He originated the term heliphobe to describe the individual whose skin cannot manufacture pigment, and declares there are 10 million heliophobes in the United States.

The presence of certain drugs in the body causes the skin to become supersensitive, said Dr. Pabst, who warned persons taking sulfa drugs to stay out of the sun.

Alcohol, he said, has a similar effect.

Sunstroke may follow a short exposure to the sun, if one has indulged too freely in alcoholic beverages, he added.

Asserting that the sun ruins millions of beautiful complexions every year, Dr. Pabst offered these 10 safety rules to prevent severe sunburn.

1—Acquire a coat of tan, provided you are not a heliophobe, by means of short exposure.

2—Do not sleep on the beach in the direct rays of the sun.

3—Do not drink highballs or strong liquor while exposed to the summer sun. Do your drinking in the shade.

4—Don't sit in the sun when the body is wet after bathing; the drops of water on the skin act as tiny magnifying lenses and increase the burn.

5—Don't go bareheaded in strong sunlight; sunstroke is not rare in the summer months.

6—Don't read books or play cards in the direct rays of the sun.

7—Do not sprinkle perfume on the skin before exposure to the sun; a severe inflammation of the skin called perfume dermatitis may result.

8—Don't recline in strong sunlight after strenuous exercises.

9—Remember that blonds, redheads and brunets react differently to the sun's rays; redheads and blonds usually burn more easily, and may suffer after short exposures.

10—If your skin will redden, blister and burn, but never tan, you are a heliophobe and should not expose yourself, as every new exposure means a new burn.

Riots Undo Red Scheme

By Anthony Terry

BERLIN

In a few days Russia's holocaust of terror has succeeded in destroying whatever effect her Communist slogans and "peace" propaganda have had in Eastern Germany during the last five years.

Willi Goettling, who was executed as a spy by the Russians, has become the martyr of the revolt, but Goettling is by no means the only martyr. The only crime of the others, no more spies than Goettling, was to ask for enough food, reasonable working hours and the unification of Germany.

Now Moscow is having to think again. Even Red newspapers and broadcasts now admit that far-reaching concessions are going to have to be made to prevent the collapse of the East German economy under the wave of strike revolts and passive resistance.

Already, in speeches and broadcasts, Red leaders have promised the drastic cutting of the powerful East German army, large food supplies from Russia to raise the starvation rations, and the restoration of private enterprise.

It is now known to Allied officials in West Berlin that Russia was originally behind the uprising of building workers in East Berlin's "Stalin's paradise" housing estate, which set off the nationwide civil war.

What the Russians wanted was merely a local "expression of popular will" to justify them sacking a number of Communist officials.

But the plan went wrong; it spread into a real revolt.

Today both Russia and the Communist regime are utterly discredited among the 20,000,000 inhabitants of Eastern Germany and their 30,000,000 compatriots west of the Iron Curtain.

Forbid Infant Marriage

AHMEDABAD, India (AP)-Police intervened at a nearby village to prevent the projected marriage of a 12-month-old bridegroom to a nine - month - old bride. Officials said parents of the babies arranged the marriage soon after the children were born. They planned to conduct the ceremony with the mother and father of each child taking turns holding their tiny offspring during the long Hindu ceremony. Police took both sets of parents to a magistrate who issued an injunction against the marriage until they reach the legal age: fourteen years for girls, 18 years for boys.

Barbara Freitchie Truman

Frederick, Maryland — This town gave ex-President Harry S. Truman a warm welcome as he passed through, stopping for gas, on his way to Washington."—News item.)

Up from the meadows rich with corn,
Clear in the steaming mid-June morn,
The gasoline stations of Frederick stand
And give to Harry a hearty hand.
Round about them the tourists sweep;
Clicking and claking the meters creep;
Routine and drab is the station's way,
Oftentimes dull . . . but NOT THIS DAY!

-:-

On that pleasant morn to the gypsy's call
Rode Harry over the mountain wall;
He stopped for gas, he stopped for air,
He stopped to get his bearings there;
"How do you get to Washington?"
He asked half earnest and half in fun;
The station attendant replied, "Ho! Ho!
I reckon, mister, you ought to know!"

-:-

Then rang a cry of "Stop that man!"
It came from a hot Republican;
"Don't show the slightest warmth or pity—
He's supposed to be in Kansas City!
Shoot if you must this old gray head
But remember Ike has that White House bed!"

-:-

A shade of sadness, a blush of shame
Across the far Potomac came,
For Ike had at that distance heard.
"Who touches a hair of Harry's head
Dies like a dog. I'm fair!" he said.
Thus through the hill-gaps sunset bright
Shone over all with a warm good-night;
When amity, peace and good feeling fuse. . .
What has the GOP got to lose?

-:-

On into Washington Harry sprints,
"I'm merely a tourist," he says and grins;
"I'd see the sights on a summer day
Where once I slept, or so they say.
There's a new attraction, so to speak,
It's on my map here as just IKE'S PEAK;
I'm crazy to see it and gettin' set . . .
I just wouldn't miss it . . . YA WANNA BET?"

-:-

Almost a week the tourist spent—
In Ike's golf score it put a dent;
The leaders smiled but whispered, "Man,
We've got to tighten our tourist ban."
Peace and concord and beauty draw
Round the symbol of light and law ...
May ever the stars above shine down
On a tourist up from Frederick Town.

Milwaukee has found so much glory in material with which Boston could do nothing that you can't help wondering how much greater would have been Paul Revere's ride if he had staged it in that Western city . . . and thingk what Milwaukee could have done with the Boston Tea Party!!!

5 Accidents Reported In City Traffic

One Injury Is Listed and Two Persons Arrested

Five minor traffic accidents, one involving injury, were reported today by Marion police.

Only injury reported resulted when Charles Holycross, 27, of 429 Waterloo St., fell from a bicycle near his home. He was treated at City Hospital Friday afternoon for a cut on the face and a bump on the forehead.

Cars driven by Lewis O. Thompson Jr., 16, of 955 Leetonia Road and David P. Smith, 20, of 403 S. State St. were slightly damaged when they collided on S. State St. Friday afternoon. Police said the Smith car was stopped.

A car driven by Benjamin H. Cooper, 22, of New Bloomington, and one driven by Karl W. Howman, 38, of 678 Wood St. collided at Davids and Sugar St. Friday at 9:50 p.m. Both cars were slightly damaged and police said Cooper was arrested on charges of driving without an operator's license and driving with fictitious plates. He was to appear in Municipal Court today.

Trailer-Blazers

By Ruth Matthews

Are Americans on their way to becoming nomads? Is the housing problem developing a new mode of living—on wheels? At least 2,000,000 people in the U.S. live in the 700,000 trailers that rove American highways today.

Of these, 25 per cent are servicemen and their families who more and more take this means of remaining together despite frequent transfers.

One Navy family beating the housing shortage and avoiding many separations are the Clay Inscoes. They are currently docked in the Crescent Trailer Park in Gloucester City, N. J.

They have lived in five states and trailer-blazed 6,400 miles in the past year.

The Inscoes are "at home on wheels in any port" and this way they live geared to Navy orders for long travel on short notice.

First Class Aviation Electronics Technician Clay Inscoe is attached to the USS Cabot in charge of the electronics-maintenance shop.

Since the Florida stay this spring, the Inscoes' "home on wheels," which they call the USS Mobile Home, has "put in" at North Carolina, Norfolk, Va., and, now, in Gloucester City.

The USS Cabot is docked at the Philadelphia Naval Base. Prior to that, there was a brief residence in Quonsett, R. I. and a previous three-year stay in Memphis, Tenn., where the Inscoe saga of trailering first began.

"Trailering isn't easy, but it holds the four of us together," Mrs. Inscoe explains. Traveling 300 miles an average day with a backseat crew, consisting of 20-month-old Stevie and five-year-old Susan, certainly is no bed of roses, particularly with 8,000 pounds of trailer hitched on behind.

A typical three-week cruise covers 3,200 miles. She also worries about the children being moved so often, but "five minutes after we get to a new park, Susan knows the name of every kid in the place," Clay Inscoe explained.

On the credit side, they will tell you, "trailer people are the most generous neighbors you can find. We exchange children's clothes, trade baby-sitting, hold big barbecue parties and we never are at a loss for bridge partners."

A collector of recipes from different localities and neighbors, Mrs. Inscoe proudly said, "I've got specialties from all over the country."

Their living quarters in the USS Mobile Home are 33 feet long, 7½ feet wide, 9 feet high . . . a full house for a living room, two bedrooms, a bathroom and a kitchen. The trailer, bought secondhand in 1950, cost $3,950.

Another problem for a service family confronted with continual changes of locale is varied living costs. For example, the parking fee in Memphis, Tenn., was $15. Moving to Quonsett, R.I., they found this cost $19, plus a $20 electric bill. Soon again, in Pensacola, Fla., space rent, with drainage connection and water, was $13 a month, plus $1 for each child. Electricity added $6 to the upkeep.

The Inscoe income is $4,100 a year, an average for the two million who live in American trailers.

Manpower Problem In Part of Red China

HONG KONG (UP)—Indiscriminate imprisonment of accused persons by Chinese Communist officials is creating a manpower shortage in some areas of Kwangtung, according to local press reports.

A dispatch published in the conservative Wah Kiu Yat Po quoted what purported to be a directive from the Communist West Kwangtung Area Party Committee and the Kwangtung government's western office. It said:

"As a result of the imprisonment and detention of numerous criminals in this area, there is a noticeable decrease in the labor force here and a shortage of able-bodied young men.

"According to a joint investigation conducted recently, the number of criminal elements locked up without trial in this area has already exceeded 12,000. Many of these do not deserve to be locked up or detained but they are, wrongfully."

Man Arrested For Breakin At Surplus Store

Virgil Gilmore, 22, of 195 E. Fairground St. was scheduled to appear in Marion Municipal Court this morning to answer charges of breaking and entering filed Friday by the Marion County sheriff's office.

Gilmore and a 15-year-old boy were picked up Wednesday night by the sheriff's office for investigation in connection with the theft of six blankets from the War Surplus store at Crystal Lake.

They were apprehended after a sheriff's deputy noticed the pair, carrying a large suspicious-appearing bundle under their arms, walking along the highway near Crystal Lake.

A hearing on similar charges will be held for the juvenile Monday afternoon in Juvenile Court.

Two Arrested On Petty Larceny Charge

Roy William Tharp, 34, of N. State St. and Henry Collins of the Ideal Hotel were arrested by city police on a petty larceny charge Friday at 8:30 p.m. Collins posted a $35 bond for an appearance in Municipal Court today but Tharp was held in City Prison when he was unable to post bond.

The two were arrested on a complaint by Pearl Salisbury. Salisbury accused the two of taking a bundle of clothing he had placed down in the Acme Grill. Value of the bundle was $7. Police reported some of the clothing was found in possession of Tharp.

REDS RAZE PANMUNJOM HUTS. An ox looks on at lower right as Communist soldiers and Korean laborers remove the last vestages of mud-walled, thatched roofed huts which made up the entire village of Panmunjom, Korea. Most huts were used for housing of United Nations press personnel while two were used by the Reds. They were razed for construction of a "mystery" building on which work has ceased. In background (right) are liaison and conference huts used currently and during the past two years for truce talks.

Two Drivers Arrested By State Patrol

Face Charges After Cars Are Involved In Traffic Accidents

Two Marion men were to appear in Municipal Court this morning on charges resulting from two of three traffic accidents reported by the state highway partol.

Lloyd Hall, 22, of 326 Cherry St., was arrested for operating an automobile without a driver's license. He was driving an automobile which failed to negotiate a curve near the intersection of Sawyer Road and State Route 4, south of Marion, at 3:15 a.m. Saturday, and knocked down a stop sign.

Hall sustained abrasions of the right knee and right elbow, and a passenger, Arthur Isaac, 22, also of 326 Cherry St., received abrasions of the right hip. Both men were taken by patrolmen to Marion City Hospital where they were treated and released.

Considerable damage resulted to the car, patrolmen said.

A charge of failing to yield the right of way was filed against Russ Mathias, 34, of 880 Kenton Ave., by Howard Fausnaugh, 35, of Richwood, driver of a vehicle with which the Mathias automobile collided. The accident occurred at 6:15 a.m. today at the intersection of State Route 4 and County Road 73, about one and one-half miles south of State Route 203.

Patrolmen said Fausnaugh was heading north on Route 4, while Mathias was going east on Route 73 and turning north onto Route 4. Damage resulted to the front end of the Fausnaugh car and to the right front door, fender, and hood of the Mathias vehicle, patrolmen reported.

In the third accident reported by the patrol, James Styre, 17, of Mt. Gilead, failed to negotiate a turn from Route 127 to Route 126 at 11 p.m. Friday, one mile south of Route 42 in Morrow County.

A passenger, Robert Hawkins, 19, of near Mt. Gilead, sustained a bruised left side.

Charges Bryant "Framed" Three Liquor Agents

COLUMBUS, O. (AP)—Counsel for three state liquor inspectors accused of taking a bribe turned the opening of his defense into an attack on a former state liquor director Friday.

Paul M. Herbert, who represents the trio of accused inspectors, told the court that he planned to show William C. Bryant, former state liquor director, made a deal with a tavern owner to frame the agents.

Bryant now is a Common Pleas Court judge.

Herbert first called Frank M. Acton, investigator in carge of the Columbus liquor district, to the stand. Acton said Bryant told him "if any of my investigators went to the tavern they would be personally responsible to him (Bryant)."

Acton referred to a tavern owned by Herbert Romanoff.

Bryant denied the testimony in an interview. He said he instructed agents not to prosecute Romanoff for agreeing to testify against the agents.

Accused of taking $150 from Romanoff to forget a violation were Rolland Tague, 34, New Lexington; Stanley Bonnes, 46, Independence, and Stanley Delhart, 37, Cleveland.

Engineer Depot Parking Lot Bids Received

Marion and Mansfield, O., firms were low Friday on base and alternate bids for the construction of a parking lot for the General Purpose Warehouse at the Marion Engineer Depot, The Associated Press reported.

Col. J. O. Colonna, Huntington District U. S. engineer, said Plumley Trucking and Excavating Contractors of Marion submitted the lowest alternate figures on three phases of the work totalling $38,990.

Roger J. Au of Mansfield was low on all three phases in the base bidding, with a total of $36,849.40.

Local Depot officials stated that plans call for the construction of the parking lot to the northwest of the newly-constructed warehouses, for the use of warehouse employees.

Indians Hand Yankees 5th Straight Loss; Braves Lead Cut

Cleveland Deficit Cut To Eight Games in AL Chase

By BEN PHLEGAR
Associated Press Sports Writer

When even the Cleveland Indians can beat the Yankees maybe it's time to take this five game New York losing streak seriously.

Every other American League club had defeated the Yankees this season. But in seven games the mere sight of a New York uniform caused the second place Indians to roll over and play dead. So what happened last night?

The Yankees threw the ball around in the first inning like fugitives from Class D and presented Cleveland with four gift runs.

Such generosity couldn't be overlooked, even by the Indians, and Larrupin' Larry Doby and righthander Bob Lemon made sure it didn't go to waste.

Doby parked a pair high up into the seats in the third and fifth innings and only a do-or-die ninth inning two-out homer by pinch hitter Johnny Mize save the Yankees from their third shutout of the year. Mize's blow was the last of only five hits off Lemon. The final score was 7-2.

Over in the National League the pace setting Milwaukee Braves continued to have their troubles, too. They put up a much stiffer fight than the Yankees but bowed to their second place rivals, the Brooklyn Dodgers, 4-3, on a pair of two-run homers by Duke Snider and Gil Hodges. They now lead the Dodgers by only one game.

The St. Louis Cardinals, likewise, are edging up on the Braves. They took over third place from Philadelphia by beating the Phillies, 7-0, and are 2½ games behind. Cincinnati won a twilight-night doubleheader from Pittsburgh, 8-4, and 4-1, and the New York Giants defeated Chicago, 9-6.

A losing streak of five isn't too unusual but it is a little amazing in the case of the Yankees because they haven't lost any more than that in a row since cagey Casey Stengel took over as manager at the start of the 1949 season.

In less than two weeks the Yanks have frittered away 3½ games of their league lead and although they still own a substantial eight game bulge over the Indians the pennant runaway is beinning to look less and less like a one horse race.

Even if the Indians falter, the Chicago White Sox — only half a game behind Cleveland — show definite indications of being ready and willing to take up the challenge.

Fresh from a three-game sweep over New York, the White Sox whipped Boston, 5-3, last night. Philadelphia snapped a four-game St. Louis winning streak, 6-5, and Detroit beat Washington, 7-3.

Stan Musial, whose bat has been as hot as the weather the past week, drove in five runs with two homers and a double as Stu Miller blanked the Phillies on three hits for his second victory.

Ted Kluszewski starred in Cincinnati's double triumph, blasting a home run in each game to take over the National League lead with 21.

The White Sox spotted Boston three runs in the first two innings, then rallied for four in the seventh as Nellie Fox and Sherm Lollar doubled and Tom Wright delivered a pinch hit triple.

The Senators loss to the last place Detroit Tigers was their sixth straight this week.

Santee Seeks Four-Minute Mile Tonight

DAYTON, O. (AP)—Wes Santee, Kansas' great galloper, may track down the "impossible" four-minute mile today as the record book faces another battering in the closing session of the 65th national AAU track and field meet.

Competition starts at 1 p. m.

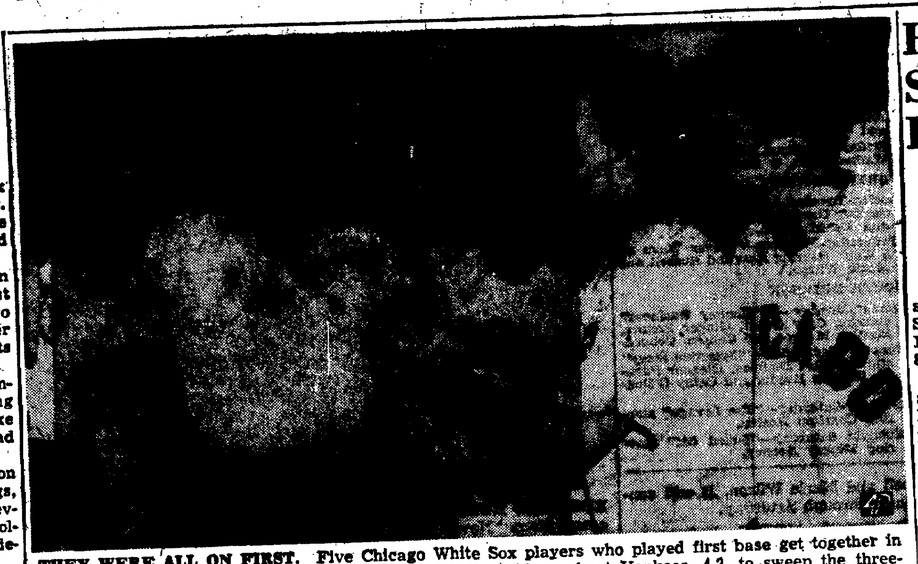
In Friday night's opening 10-event program, three meet marks were toppled and two tied, almost an automatic procedure as competition returned from metric to yardage distances for the first time in 22 years.

Santee is in fine fettle for a chase after the four-minute mile that has eluded even the great Scandinavian distance runners. Since June 5, the long-legged 21-year-old Kansan has recorded the two fastest miles ever run by an American, 4:02.4 and 4:03.7.

Santee's coach, Bill Easton, says Santee will be out to make a "good showing" in today's mile to clinch a berth on an AAU unit that leaves next week for a tour of Norway and Sweden.

COACH MOVED UP

CONNEAUT, O. (AP)—John Yesso, Conneaut High School football coach, has been appointed to succeed the late Maurice J. Money as principal of the junior high school here.



THEY WERE ALL ON FIRST. Five Chicago White Sox players who played first base get together in dressing room at Yankee Stadium in New York after Chicago beat Yankees, 4-2, to sweep the three-game series with New York. Left to right: Catcher Sherm Lollar; regular first baseman Ferris Fain, replaced by Lollar after being put out of game in third inning for disputing third called strike; Pitcher Billy Pierce, who won his ninth mound victory and played first in ninth frame as Harry Dorish pitched to two batters; Third Sacker Fred Marsh, who took over bag in eighth when Lollar went behind plate; and Outfielder Sam Mele, who finished out at first when Pierce returned to the mound.

Grimm Shakes Batting Order For Braves

Milwaukee Skipper Worried Over Team's Slump at Plate

MILWAUKEE (AP)—Charley Grimm made his first major batting order shift of the season today in an attempt to shake his skidding Milwaukee Braves out of their hitting woes.

The stocky skipper, slumped in the corner of the clubhouse last night after a 4-3 loss to Brooklyn which cut his club's first-place margin over the Dodgers to one game.

"Yeh, I'm making a change," he barked. "(Del) Crandall will bat second and (Johnny) Logan eighth tomorrow night. That's all."

The move reverses the positions of the two players in the hitting lineup for the second of the three-game series. Crandall, the sensational young catcher, currently is the only regular hitting over .300. Shortstop Logan is under .250 and was removed for a pinchhitter in the ninth inning against the Dodgers last night.

The Braves have been in a severe slump at the plate for almost their entire home stand.

Although the Braves are slumping, the redhot Milwaukee fans are not. The paid gate for the Dodgers' opener was 35,145, second largest of the year here, and boosted the total for 25 playing dates to 623,546.

Archers Club Tabs Champs

Two Marion Men Top Tourney Shoot

E. J. Leadenham and Fred Cooperider are the new champions of the six-week shoot held by the Marion Archery Club. The shoot was stretched over a six-week period so that everyone would have a chance to take part.

There are five rounds of shoots and when the rounds are completed the two men with the most number of points are the winners and are eligible for the championship trophies.

The first shoot was an instinctive shoot with Leo Belknap taking first place, Leadenham, second, Frank Louck, third, and Dr. R. E. Eicher taking fourth. The second was a free style with first place going to Cooperider, second to C. E. Myers, third to Jay Alton and fourth to Leadenham.

A roving shoot was third with Leadenham, first, Cooperider second, Frank Louck, third and R. E. Eicher, fourth. A junior American round was fourth with first place going to Frank Louck, second to Leo Belknap, third to Dr. R. E. Eicher and fourth to Cooperider.

The last one was a novelty shoot with Charles Baker taking first, Frank Louck, second, Dr. R. E. Eicher, third and Leadenham, fourth. When the points were counted, Leadenham was the champion by a mere 29 points over Cooperider.

An archers picnic was held June 14 at Aumiller Park in Bucyrus. It was for the members of the club and their families and the trophies for the championship shoot were presented.

An invitational shoot is being planned by the club for archers from Delaware, Upper Sandusky and all towns around Marion for the purpose of getting acquainted. It will be in the near future.

For the remainder of the summer the club activities will be built around hunting rounds. Eight have already made plans to go deer hunting. For each animal killed with a bow and arrow in season, points are given. The man with the most points by March 15, will receive an award. The men taking part in a shoot of this type are members of the Mariho Bowhunters, an organization of the archery club for men interested in hunting with the bow and arrow.

ALL-STARS TO PLAY

Smitty's All-Stars are scheduled to play a doubleheader Sunday at Garfield Park. The first game is set for 7:30 p.m. The Stars will take on the Ashland Lumber Co. in the opening game. The Ashland squad has copped the district softball crown for two years in a row. The Sons of Herman team from Mansfield will play in the nightcap.

Redleg Star Smacks Pair, Leads League

Kluszewski's Bat Leads Cincinnati To Sweep Over Pirates

CINCINNATI (AP)—Ted Kluszewski boosted his stock in the All-Star game poll as the Cincinnati Redlegs twice drubbed Pittsburgh, 8-4, 4-1, Friday night.

At last counts, Big Klu was slightly behind Brooklyn's Gil Hodges as the fans' selection to play first base in the All-Star game here July 14. But the Argo, Ill., powerhouse must have helped himself Friday night as he rapped out his 20th homer in the first game and his 21st in the finale to take over the National League home run leadership.

Lefty Jackie Collum, a recent acquisition, blossomed as he handcuffed the Pirates with four singles. Gus Bell was a hero, too, as he knocked out his 17th homer in the nightcap and ran his runs batted in to 52. Southpaw Joe Nuxhall, although he had to be yanked in the eighth, still gained credit in the opener for his fourth victory.

The Redlegs spotted Pittsburgh single unearned runs in the first and fourth innings of the first game on wild throws by shortstop Roy McMillan and Nuxhall, but sank the Bucs with two big innings.

They shook loser Murry Dickson with three runs in the fourth when Kluszewski homered following Bell's single and Andy Seminick came up with another homer, his seventh.

Dickson was chased in the sixth as Cincinnati battered him for five runs, two of them unearned. Seminick singled home Jim Greengrass after Jim walked, stole second and reached third on a fielder's choice. Nuxhall singled in the second run. Then Dickson threw Rocky Bridges' bunt single into the rightfield bullpen, allowing Seminick and Nuxall to score. Bridges jogged home with the final Redleg run on Bobby Adams' fly ball.

The Redlegs drew first blood in the nightcap when Bridges walked in the fourth, went to third on a single by Adams, and scored as Kluszewski was being thrown out. Greengrass doubled to drive home Bobby.

The Pirates got their sole run in the fifth when Hal Rice opened with a single, got to third on a walk and an infield out, and scored when Seminick dropped Bell's perfect throw to the plate of Preston Ward's short fly.

25-Lap Feature Set at Speedway

A 25-lap feature and a 20-lap semi-final event on the quarter-mile track will highlight the Sunday night racing at the Marion Speedway.

Promoter Ceciy Addams said the feature would be the first race of the night. He said that plan was being adopted to give the feature drivers a chance at the track before the other races roughen it up. Also on the Sunday night card will be the suicide event.

Addams announced plans for a novice race for any amateur driver wishing to enter and also for a special event planned in two weeks for jeep owners.

Time trials Sunday will begin at 7:30 with the first race scheduled at 8:30.

Ted Williams Sent Home From Korea

WITH THE FIRST MARINE AIR WING, Korea (AP) — Marine flight surgeons have ordered baseball star Ted Williams to the United States for treatment of an ear and nose ailment, a Marine Corps spokesman said today.

Williams, pilot of a Marine Pantherjet, was grounded after is 38th mission June 10.

The spokesman said the Boston Red Sox slugger would leave for the U. S. within a few days.

Doby and Lemon Team Up To Batter New York, 7-2

NEW YORK (AP)—The Cleveland Indians finally beat the New York Yankees on their eighth try of the season, and they did it rather easily by a 7-2 score Friday night in Yankee Stadium.

A two-run wild throw to second by first baseman Joe Collins, on a force-play attempt and a two-run single by ex-Tiger Joe Ginsberg gave Cleveland enough runs in the first inning to win. Larry Doby homered twice off Vic Raschi to drive in three more.

Bob Lemon won his 10th of the year and is a month ahead of his pace last season when he ended up 22-11. He had the Yanks goosegegged on three hits until the ninth when Don Bollweg doubled with one out. Then pinch hitter Johnny Mize homered with two out before Gene Woodling looked at a third strike which ended the game.

With 90 games to play, the Indians are eight games back of the Yanks and only a half-game ahead of the Chicago White Sox who have won 11 of their last 13 games.

A huge turnout of 53,472 booed the Yanks when they allowed Cleveland four unearned runs in the opening inning. Dale Mitchell led off with a single over shortstop, and Raschi fumbled Bob Avila's bunt. Al Rosen forced Mitchell, and Luke Easter bounced to Collins who threw the ball into left field instead of to second. Avila and Rosen scored.

Doby and George Strickland walked to fill the bases, and Ginsberg lined a single to score two runners.

Builders, VFW Win Games In Pony League

G and G Builders edged VFW, 1-0, and Alloy Cast Steel beat Clark Metal Products, 9-4, in Friday night's Pony League contests.

G and G scored its one in the eighth inning when Lister walked, stole two bases and came home on an error on the first baseman. The builders outhit VFW four to one and the veterans committed two errors. Butch Simpson was the pitcher for the one-hit blanking.

The second game was a little more of a slugfest with Alloy drawing first blood. Ambrose went to first on an error by the rightfielder and Townsend doubled driving in a run. In the fourth Williams and Townsend singled and Rice came up with a double driving in two more to put Alloy out front 3-0.

In the fifth, however, Clark Metal started its big guns and scored three runs on three hits but it didn't last long. Armbuster led with a single. Barrett went out pitcher to first but the next three got on two walks and an error. That drove in Armbuster. Townsend then belted a grand slam home run sewing up the contest.

Ambrose gave up four runs on six hits to win the game for Alloy.

Tonight in Pony League competition, Clark Metal takes on VFW and Alloy meets G and G Builders. The games start at 6:15 p.m. at Lincoln Park.

SOUTH DRIVE-IN

Sunday-Monday — "Monkey Business" starring Cary Grant, Ginger Rogers, Marilyn Monroe and Charles Coburn.

Tuesday-Wednesday—"Detective Story" starring Kirk Douglas, Eleanor Parker, William Bendix and Cathy O'Donnell.

Thursday-Saturday—"The Savage" starring Charlton Heston.

Midnight Saturday—"Sound Off" starring Mickey Rooney.

South Drive-In Bills "Monkey Business"

"Monkey Business," comedy film starring Cary Grant, Ginger Rogers, Marilyn Monroe and Charles Coburn, will be shown Sunday and Monday at the South Drive-In Theater

The story revolves around a research chemist's discovery of a revesion-to-youth formula. At first he experiments on the chimps but soon is tempted to try the magic potion himself and it is then that he begins to slip back into sequences attributed to childhood and adolescent stages of development.

Billed for Tuesday and Wednesday is "Detective Story," with Kirk Douglas, Eleanor Parker, William Bendix and Cathy O'Donnell heading the cast.

It is a melodrama about a detective driven to a grim dilemma by his hatred of crime.

Concluding the week's billing will be "The Savage," in technicolor and starring Charlton Heston. It will play Thursday through Saturday. This outdoor epic is the story of a man faced with the problem of split loyalties between the white man and the Indian savages.

Saturday midnight bonus feature will be "Sound Off" starring Mickey Rooney.

Jean Peters Stars In New Ohio Film

Opening tonight at the Ohio Theater is "Pickup on South Street," starring Richard Widmark, Jean Peters and Thelma Ritter. It is billed to play through Thursday.

It is a spy drama grimly exposing the raw emotions of the common pickpocket, underworld moll and informer who fell under the cold scrutiny of an FBI deadly intent on tracking down a nest of enemy agents.

Richard Widmark, a pickpocket, lifts a wallet containing a microfilm of top secret documents about to be transferred to enemy agents. He decides to sidestep the law to make a "big score" by blackmailing the Communists.

A three dimension picture starting Friday will be "Fort Ti," in technicolor and starring George Montgomery, with Joan Vohs.

It is concerned with the savage siege of Fort Ticonderoga and is the first outdoor epic of America to be filmed in three dimension.

In "Fort Ti," Montgomery plays an officer of Rogers' Rangers ordered to lead a desperate foray into hostile Indian Territory while the main British Army under Lord Jeffrey Amherst gathers for an attack on French-held Fort Ticonderoga and Quebec. But he has another and more personal objective, the rescue of his sister and her two children imprisoned by the French in Fort Ti.

On the same billing will be a Three Stooges comedy, also filmed in three dimensions. It is entitled "Spooks."

"Springfield Rifle" On At North Drive-In

"Springfield Rifle," western epic based on a thrilling episode from the history of the famed firearm, will be shown Sunday through Tuesday at the North Drive-In Theater. Starred are Gary Cooper, Phyllis Thaxter and David Brian.

It tells of the efforts of a hardy westerner in keeping the rifles out of outlaw hands. To do this, he is forced to become one of them, and as a result, almost loses the love of his wife, the respect of his friends.

A first-run attraction starting Wednesday will be "Never Wave at a WAC," starring Rosalind Russell and Marie Wilson. It will continue through Saturday.

Midnight Twinbill On At Marion Theater

"Off Limits" starring Bob Hope, Mickey Rooney, Marilyn Maxwell and Eddie Mayehoff, and "Ma and Pa Kettle On Vacation" starring Marjorie Main and Percy Kilbride, will open in a midnight show tonight at the Marion Theater and continue Sunday through Wednesday.

In the former, Hope is seen as a prizefight manager whose boxer, the lightweight champion of the world, is drafted. To protect his meal ticket, Bob enlists at the very moment his fighter is being rejected. He then not only is stuck in the service but loses the champ to his gangster partners. The latter film finds Ma and Pa Kettle involved with an international espionage ring while supposedly enjoying a Parisian vacation.

Billed for Thursday through Saturday are "Safari Drums" and "The Homesteaders." The former stars Johnny Sheffield as Bomba, heading the cast in the latter is Wild Bill Elliott.

In "Safari Drums," Bomba is recruited by District Commissioner Barnes to help apprehend the killer of a scientist. Bomba eventually proves that the hunted man is serving as a guide for a party of motion picture makers in the jungle to get shots of wild animals in their natural habitat.

In the latter, two homesteaders go to the midwest and pick up a wagon train of army dynamite which they hope to use to clear their farmland. Hijackers attempt to steal the load and the battle begins.

Historical Film Billed at Palace

"Young Bess," relating the romantic story of the spirited Princess who was to become Britain's great and first Queen Elizabeth, will be shown Sunday through Wednesday at the Palace Theater. The stars are Jean Simmons, Stewart Granger, Deborah Kerr and Charles Laughton.

It is the story of Princess Elizabeth of 16th Century England, who becomes estranged from her father, the violent King Henry VIII, when he has Elizabeth's mother beheaded. She outmaneuvers the plotting of the ambitious Lord Protector, Ned Seymour, to become monarch of her realm at the age of 25.

Also told is the story of Young Bess's love for the dashing and danger - loving Admiral Thomas Seymour, a love which could never become a marriage because of Tom's marriage to Catherine, her father's last Queen. It has further tragic consequences when Tom is executed on trumped-up charges against the throne.

Showing Thursday and Friday will be a double feature, "Sombrero" and "The Bride Comes To Yellow Sky." The former, in

Tri-State Horse Show Set For Sunday at Mt. Gilead

Special to The Star

MT. GILEAD—Nearly 200 Western and English horses are expected for the Tri-State show sponsored by the Mt. Gilead Saddle Club and to be held this Sunday afternoon and night at the Mt. Gilead fairgrounds.

This will be the largest and best group of horses ever on the local grounds at one time according to planners of the event. Stall facilities are all taken and many of the horses will have to be quartered in the cattle barns at the north of the track.

Besides Ohio, entries have been received from all the neighboring states and four English type horses are being entered by a Miami, Fla. owner now on tour through Ohio.

Of special interest at the night show will be a "Pony Fancy Turnout." There are only five outfits equipped to enter this event in the United States and two of these are expected to attend the local show. One of the ponies and carriages will be driven by Jimmy Willman of Cincinnati with Connie Price of Mt. Gilead as a passenger. A 10-gaited dresage exhibition will also be on the program.

The show will begin at 1 p.m. WLW-TV stars Sally Flowers and Billy Scott, will present a show during both performances.

A "Dessage Exhibition" by Sunny Rythm, owned by Mrs. Charles Michael of Bucyrus, will be shown by Joe Keefe of Bucyrus who learned the art of training and showing the ten gait feature in Germany. The four mule team hitch, including a palamino mule, of Richard Fissell of Fulton, will also be a special feature at the shows.

Proceeds from the shows will go to erect brick pillars and lights at the entrance of the new Morrow County Hospital.

Afternoon classes are: spotted horse ;equitation rider under 18; walking horse, stallions and geldings; three gaited; palomino; five gaited; plain horse; three gaited, over 15.2; western pleasure; fine harness; walking horse; and five gaited, stallions and geldings.

Night classes are: model 3 gaited; model 5 gaited; walking horse stake; western pony, western tack; three gaited stake; fine Harness stake; english three gaited pony; western stake; five gaited stake.

First Two Scouts Arrive at Jamboree

NEWPORT BEACH, Calif. (AP)—Two Greenville, O., Boy Scouts who preceded some 50,000 others from throughout the country were camped on the site of the National Jaboree here today.

Eleven days and 10 tires after leaving their homes in a 20-year-old car, Bill Booker and Tom Staley, both 18, arrived Friday, the first to come. The Jamboree is July 17 to 23.

Former Richwood Couple Notes 50th Wedding Year

Special to The Star

RICHWOOD — Mr. and Mrs. Lee Cramer of Dayton, both former residents of Richwood, celebrated their 50th wedding anniversary Sunday June 21. The reception was held in the Dayton Third Street Baptist Church. The Sunday School classes of which Mr. and Mrs. Cramer are members, were hosts for the reception attended by more than 200 relatives and friends of the honored couple.

Mr. and Mr. Cramer are the parents of a daughter, Mrs. Martha Lou Winey of Burlingame, Cal. and a son, Willard, of Dayton; a granddaughter Susan Winey who, with her mother, was present for the occasion. Mrs. Cramer has one sister, Mrs. Bess Thompson of Marion. Mr. Cramer has one brother, Guy Cramer, of Richwood.

Mr. and Mrs. Cramer were married in Richwood, June 23, 1903, and have resided in Dayton since their marriage. Mr. Cramer is associated with the Chevrolet Co. as a salesman.

Relatives attending from Richwood were Guy Cramer, Mrs. Gladys Marine, Mr. and Mrs. Frank Moore and daughter, Frank L. Cramer, Clyde Cramer, Mr. and Mrs. Ray Somerlot and son, Mr. and Mrs. Arby Cramer, and Mr. and Mrs. Don Cramer.

Following the reception at the church, the Richwood relatives enjoyed a picnic supper at the Cramer home in Dayton. The relatives presented an anniversary clock to Mr. and Mrs. Cramer.

Mrs. Cramer is the former Miss Bertha Arheart of Richwood.

United Grange Has Cake Walk

When United Grange met Tuesday night at the Claridon School, Mrs. Ruth Foos read an article on "Know Your Ohio." A talk on "Safety" was by Stanley Lawrence, and music included a vocal solo by Miss Sally Shirk, and piano solo by Miss Sandra Patterson.

Russell Wickersham presided for business. Pomona Grange meeting was announced for July 4 with Pleasant Grange as the host group. A miscellaneous shower was held for Mr. and Mrs. Harold Wickersham who were married recently. The home economics committee sponsored a "cake walk," and refreshments were served by Mr. and Mrs. L. O. Clary, Mr. and Mrs. Chester Fulton, and Mr. and Mrs. Pearl Shirk.

It takes 40,000,000 wooden crossties a year to keep U. S. Railroads operating.

House OKs Changes In Defense Dept.

Reorganization Gives More Power To Defense Secretary

WASHINGTON (AP) — The House today approved President Eisenhower's Defense Department reorganization plan, vesting added power in the secretary of defense and the chairman of the Joint Chiefs of Staff.

Action came after 10 hours of debate Friday and today in which a determined group of Republicans and Democrats assailed part of the plan as tending toward a "military dictatorship."

The changes now go into effect automatically next Monday at midnight.

The dispute centered around sections in the plan which would give the chairman of the Joint Chiefs of Staff authority to manage and pass on the membership of the Joint Staff, subordinate planning group.

The disputed sections were assailed as "a barefaced attempt to impose military domination on the American people," and defended as nothing more than a simple provision to pinpoint the chairman's responsibility for greater efficiency in military planning.

There was no such argument over the rest of the plan.

In general terms, it would clarify the authority of the civilian secretary of defense over many functions of the military and would authorize six new assistant secretaries to Secretary Wilson.

It also would abolish the Munitions Board—military purchasing and supply agency—the Research and Development Board, and the Defense Supply Management Agency. Their functions would be transferred directly to the secretary of defense.

Unless disapproved by Congress, the plan goes into effect automatically on Tuesday, 60 days after it was proposed.

Rep. Hofman (R-Mich), leader of the opposition to the change in the Joint Chiefs of Staff setup, sought an eleventh-hour compromise to knock out the controversial portions and approve the rest of the bill without a floor fight.

He told newsmen he was turned down.

Many Dead In Japan Floods

TOKYO (AP) — Modern Japan's most disastrous flood left almost 1,000 persons dead or missing today as angry waters covered whole villages and forced thousands to hills and rooftops on the southern island of Kyushu.

National police described as unprecedented the toll of 252 known dead, 703 missing and 725 hurt as rivers swollen by a three - day cloudburst swept over parts of the northern half of the island — an area roughly the size of Massachusetts.

Bermuda Talks Put Off; Churchill Needs Rest

LONDON (AP)—The Bermuda Big Three conference has been postponed again and Prime Minister Churchill has been ordered by doctors to take "a complete rest," it was announced today.

A statement from Churchill's residents at No. 10 Downing St. said the Bermuda meeting—scheduled to begin July 8 — was post poned after consultation with President Eisenhower and the French premier, Joseph Laniel.

A medical report said "the prime minister has had no respite for a long time from his very arduous duties and is in need of a complete rest."

Churchill will turn over reins of his Conservative government to Britain's budget chief, Richard A. Butler. Butler will preside at Cabinet meetings, the first of which has been called for Monday—presumably to discuss the sudden turn of events.

War Controls Over Assets Of Aliens Lifted

WASHINGTON (AP) — The United States today lifted the last of its tight wartime controls over blocked assets in the United States belonging to citizens of 13 European countries and Japan.

At the same time, it unfroze all blocked accounts worth $100 or less, regardless of the nationality of the listed owner.

The actions were announced by Atty. Gen. Brownell, who oversees the handling of alien property in this country.

They will turn loose about 15 million dollars to nationals of Austria, Belgium, Denmark, France, Greece, Italy, Luxembourg, The Netherlands, Norway, Sweden, Switzerland, Lichtenstein, Western Germany and Japan.

The attorney general announced without comment that blocking controls will continue on about 5 million dollars of assets in this country owned by citizen-residents of the Iron Curtain countries of Bulgaria, Hungary, Romania, Czechoslovakia, Poland, Estonia, Latvia, Litunia and Eastern Germany.

NOISE OVERHEAD

DETROIT (UP)—The city council appropriated $1,500 to finance a survey that will measure the noise of aircraft flying at various altitudes over the city as compared with surface traffic noise. The information will be used in legislative hearings on proposed new airport sites.

A Long, Expensive Story

New Model Cars Aren't Accidents

Beauty is more than skin deep in the new automobiles making debuts this season.

Beneath their exterior glamour of line and color lies a different kind of "beauty" that can be seen in mechanical precision and strength—in the synchonized motion of pistons, valves and shafts, in gears transmitting power noiselessly, or in springs absorbing shock upon shock.

New-car designing, in other words, goes deeper than the body metal, down through every mechanical detail. The automobile is conceived and built as an integrated precision machine, with outside styling and inside engineering inextricably tied together.

Motor vehicle engineers then test their products and those of competitors, through millions of miles of gruelling punishment each year. More than 100,000,000 miles of such tests have been conducted at just one testing site in the past three decades.

—:—

WHAT COMES of all this, and from the laboratory "torture chambers" where other engineers drop 100-pound bags on steel wheels, or hit stering knuckles up to 200,000 times with a 100-pound hammer?

In one recent 10-year period, for example, a car in the low-price class increased its acceleration, in the range from 10 to 25 miles an hour, by 28 per cent. Its hill-climbing ability shot up 69 per cent.

New automatic transmisisons, improved suspension systems, greater driving visibility, and such innovcations as power steering and power braking, in addition to innumerable detailed mechanical changes, were offered.

One major manufacturer estimated that development and retooling costs of bringing out its 1953 models totaled several hundred millions of dollars.

Another put its new model costs at $200 million, including $50 million for a newly designed engine.

The complete story behind the designing, engineering and production of new-model automobiles is too big to tell in a single article or even in a single book. Each model is a long, complex story in itself.

—:—

BUT A FEW GENERAL points can be covered briefly.

To begin with, the creation of a new-model car amounts to more than a quick flick of a switch that starts the assembly lines going.

The high speed with which motor vehicles are mass produced today tends to obscure the fact that a great amount of time still is required to prepare for that production.

Thousands of carefully planned and painstakingly executed details go into automobile design. It takes still more in time, money and effort to put that design into production on a volume scale. Elaborate new machine tools must be engineered and built, plants must be rearranged and re-equipped. Orders for purchased parts and materials must be placed well in advance to permit suppliers to tool their plants.

From the time a decision is made to develop a new model until production begins, the whole process may take two or more years of time. This is without accounting for possible delays caused by midway design changes, or by production bottlenecks.

Certain innovations introduced in a new model may have been in process of development over many years.

Thus, work started long ago on new cars now appearing on the streets and highways. Likewise, planning already is underway on future models that will not be introduced until 1955 or later.

The U. S. automotive industry's traditional practice of making yearly model changes provides strong incentive for engineering progress. Many observers regard it also as a potent force behind the spectacular growth of the industry and of highway transportation throughout the nation.

Recently, an automotive engineer said, "It's our job to make sure that enough people perform the economic function of making used cars of new cars to keep the rest of the people supplied with transportation. We do this by means of the improvements we build into our new models each year."

—:—

THE 43 MILLION passenger cars in use in America today—one for every 3.8 persons—testify how well engineers and designers have done their job over the years.

No one can say exactly what the first step is in creating a new model. The procedure varies from case to case and involves many synchronized activities of a large complex organization.

But the work divides roughly into two principal phases: (1) the development and perfection of mechanical changes, based on continuing technological investigations and (2) the determination of styling, which includes over-all size, appearance, comfort, safety, and such detail as external and internal trim.

said the great majority of their party would oppose what they called trampling on the traditional committee system of Congress. But they conceded that some of the 212 Democrats—estimates ranged from 20 to 50—would support the move. Backing for the rules procedure came chiefly from Northern and Eastern Democrats who have traditionally supported the excess profits tax.

Vote Cut in Ike's Defense Request

WASHINGTON (AP)— The House Appropriations Committee today voted to cut $1,337,422,500 from from new funds recommended by President Eisenhower for the Defense Department. It represented a $6,285,790,500 cut below totals recommended last January by President Truman.

It recommended $34,434,140,500 in new funds for the department for the fiscal year starting July 1. Truman asked for $40,719,931,000 and Eisenhower for $35,771,563,000.

The committee cut 15.4 per cent from Truman requests, or 3.7 per cent from the Eisenhower figures.

The biggest reduction from original Truman requests was $5,030,000,000 in Air Force funds. This includes $4,790,000,000 cut by Eisenhower and $240,0,000 cut by the committee.

May Get Loans On Farm Stored Wheat

WASHINGTON (AP)—Ohio wheat growers short of regular storage facilities may obtain price support loans on wheat stored in temporary facilities for a 90-day period under a ruling by the Agriculture Department Friday.

The "distress" loan is 80 per cent of the regular price support rate for wheat stored in permanent facilities, which averages $2.21 a bushel nationally.

Ohio Pitcher Brought Up by Pittsburgh

PITTSBURGH (AP)— The Pittsburgh Pirates recalled righthand pitcher Jim Waugh today from the Burlington, N. C., club of the Carolina League where he established a 7-3 record this year.

Waugh, a Lancaster, O., resident, was sent to Burlington early this season. He will rejoin the Pirates in Cincinnati immediately.

Says Liquor Agents Often Accept Gifts

COLUMBUS, O. (AP)—State liquor agents often take presents from bar owners, the investigator in charge of the Columbus liquor district testified Friday in the trial of three agents accused of accepting a bribe.

"Lots of times at Christmas we get gift certificates for hats," said Frank M. Acton. "Lots of people still believe in Christmas. I got a hat just the other week from a sheriff."

Acton later identified the sheriff as Al Young of Erie County.

Acton's testimony came in the trial of Rolland Tague, 34, of New Lexington Stanley Bonnes, 46, of Independence, and Stanley Delhart, 37, of Cleveland. They are accused of taking $150 from Herbert N. Romanoff, operator of Columbus' Dixie Tavern, to forget about a liquor law violation.

"Is it customary for you to exchange favors with permit holders?" asked Paul M. Herbert, counsel for the three agents.

"I said it is done," Acton replied.

"How many hats have you received in your four years in the department?"

"Several."

Herbert asked how the "hats" were given him.

Acton said: "Like betting a hat with one of your friends on something where they know you'll win and you do."

Gov. Frank J. Lasuche declined comment on Acton's testimony but indicated he may make a statement after the trial is over.

Herbert told the court he planned to show that William C. Bryant, former state liquor director, made a deal with Romanoff to frame th- -w-

Al Lopez Says Indians Can Still Win

NEW YORK (AP)—"If we can cut the Yankees' eight game lead in half by Aug. 1, I think we can win the pennant."

So said Al Lopez, the genial manager of the Cleveland Indians after they had defeated the Yankees last night for the first time this season in eight attempts.

"Anyone who says we are out of this thing just doesn't know what he is talking about. This is a rebounding club. We have come back before and we'll come back again."

The soft-spoken senor flashed his golden teeth in a brilliant grin as he discussed his team's 7-2 triumph that resulted in the once seemingly invincible Yankees' fifth straight loss (highest in Manager Casey Stengel's regime) and sliced their bulge over the tribe to eight games.

"This was a big one for us," Lopez said. "We just had to win it. Had we lost we would have been in awful shape. We might have gotten the idea that we were never going to beat them.

"You know, I never gave up hope even when things looked blackest. Everybody counted us out after the Yankees walloped us four straight times in Cleveland to boost their lead to 11 games over us. But I said all along no team could continue at such a terrific pace. They just had to bog down. Well, it seems they're doing it now. This is what I've been waiting for. If we can't take advantage of it, we don't deserve to win."

Lopez gave credit for the tribe's upsurge to the return of Luke Easter, plus the acquisition of pitcher Art Houtteman and catcher Joe Ginsberg from Detroit.

"Don't forget this," Al added. "As late as August last year, we were 7½ games behind the Yankees—and we overtook them. They beat us because they won 18 of their last 21 at home. We finished strong, too, but we just couldn't match that kind of playing. Just let us get a little closer within the next few weeks and you're going to see some fun. This race isn't over by a long shot."

tered the slopes. The ROKs estimated 2,400 Reds killed in the Western battle — almost the strength of a Chinese regiment.

The Chinese objective in the Pukhan battle, aside from mauling and humiliating the ROK Army, was obscure, because hill territory in this area is not vital to the Allied defense line.

However, any serious new Red gains around the Pukhan would endanger the big Hwachon Reservoir about 12 miles south which supplies most of Seoul's electric power.

Only one Allied plane—an Australian Air Force Meteor et—was lost behind enemy lines in Korea during the past week, Far East Air Forces reported. It was shot down by Communist groundfire.

Allied Sabre jets show down 15 Communist MIGs and damaged five others during the week.

The Army operated 39 service schools offering a total of 491 courses to military men and women during 1952.

SPLINTERED WRECKAGE OF CALIFORNIA TRAINS. Crash of a Santa Fe freight train at 50 mph into a passenger train moving slowly from a siding into the main line at Planada, Calif., killed three men, threw 14 cars of the freight around like match boxes, and ripped up 500 feet of track as the locomotive careened toward the depot. Firemen quenched burning oil on the right of way.

Arson Seen in Two Fires

(Continued from Page 1)

er trucks and the ladder truck was used.

Ladder Truck Valuable

Actually firemen began to get control of the fire only after the ladder truck was brought into play. A hydraulically operated ladder with a fire nozzle attached was raised some 25 feet above the ground and water from this nozzle was sprayed down into the burning building from the top.

At the same time, firemen and volunteers on the ground were shooting water up into the building and the combination of these eventually brought the fire under control at about 1:30 a.m. today.

Firemen still fought smouldering debris in the building until near 4 a.m. to make certain they had put out all possible embers which might rekindle the building.

Suspicious of Other Fires

Following his preliminary investigation of the Farm Bureau fire and the attempted blaze at the Plant Life Fertilizer plant last night, Mitton said, "this makes me wonder if the Erie Freight house fire, the one at the Shovel farm, and the one at Betty Zane plant weren't also set deliberately and by the same person.

He said that following the fire at the Erie Freight station a railroad car was also discovered nearby from which the waste from two journal boxes was missing.

He pointed out also that the Betty Zane plant is located near railroad tracks and a railroad car may have been standing close-by from which a "firebug" could easily have obtained material to start the fire.

Chief Suspects Pyromaniac

Fire Chief Sifritt said today, "I've felt in my mind all along that all these fires were set by a pyromaniac."

Actually, the fire at the Erie Freight station June 15, was listed as "probably" caused by a cigaret accidentallly thrown on some overstuffed furniture.

But after last night's events, Mitton now thinks there is a strong possibility "someone, some way set fire to the building."

He also said that he has some good leads from the fire last night and possibly one of them may lead to the person responsible for the fires.

Appraising Damage

While the investigations went ahead today, officials of the Farm Bureau set about with their attemps to arrive at an exact amount of their loss.

Kenneth C. Frayer, manager, said the loss will be between $75,000 and $100,000.

The grain elevator section of the building which contained bins loaded with both oats and corn was completely gutted and the two-story section of the building just south of a retail salesroom and the general offices was leveled.

Damage to the sales rooom was from smoke and water, and all office records and equipment remained unscathed by the blaze.

Also seven Farm Burea-owned trucks were saved by quick action of volunteers who pushed them to a safe distance from the burning building.

96 Calls This Month

The two fires last night boost to ninety-six the number of alarms answered this month by the Marion Fire Department. That figure includes false alarms and minor blazes as well as the six major fires causing a $365,000 loss. Fire Chief Owen Sifritt said this had been the worst fire month in Marion since he joined the department.

The Farm Bureau fire Friday night came while an investigation of a one-night series of three blazes was under way by the arson bureau of the State Fire Marshal's office.

Arson investigators are still trying to determine whether the June 15 blazes which caused heavy damage at a Marion Power Shovel warehouse, the Erie Railroad Freight House and the Betty Zane Corn Products Inc., were the result of the work of a pyromaniac.

The fires at those three places broke out within a four-hour period and caused an estimated $221,000 loss.

Freight House Fire First

The first blaze was reported at 9:25 p.m. at the Erie Freight house. A half hour later a second alarm was turned in from there. Before firemen left the scene they received a report of a fire at the Shovel farm. A second alarm was turned in from there at 12:55. Damage at the freight house was set at $20,000 while the MPS farm fire caused a $1,000 loss.

The Betty Zane fire leveled eight buildings during a four-hour battle. Loss was set at $200,000 by company officials.

All Marion firemen, including those off duty, were called out. Every member of the Marion Police Department also were called as well as the county sheriff's office, the Marion Engineer Depot firemen and civil defense workers. Fire departments from Galion, Upper Sandusky and the Monsanto Chemical Co. were standing by.

Suspect Arson in All

Arson was suspected in all the fires and several items found at the scene still are being examined at the state fire marshal's office.

The fire at the Marion Plant Life Fertilizer Co. is the second arson attack there in the past six years. The other occurred on May 16, 1947 and destroyed the plant. The arsonist was later apprehended, confessed and sent to prison.

Aid Promised To Cattlemen

LUBBOCK, Texas (AP)—Secretary of Agriculture Benson told drought-harassed farmers of the Southwest today the government will act to save cattle needed to maintain foundation herds for future beef supplies.

Stating a shortage of feed was forcing many livestockmen to sell herds, the secretary declared it would be "a calamity for the whole country if foundation herds were forced into liquidation."

"You need feed, and we want to help you get it," said the Cabinet officer in a speech prepared for a meeting of the American Cotton Congress.

Benson came here yesterday to address the cotton group and to check on a drought that has been described as the worst in the history of the Southwest.

President Eisenhower yesterday declared drought-stricken areas of Texas and Oklahoma to be "major disaster areas." This made them eligible for federal relief grants.

Chief Praises Volunteers, Blasts Lack of Equipment

Fire Chief Owen A. Sifritt today was both critical of lack of necessary firemen and equipment" and laudatory of volunteers who pitched in and helped fight the fire at the Farm Bureau grain elevator last night.

He praised the large number of volunteers, who helped man fire hoses at the fire, civil defense workers who helped out, and police patrolman Lawrence Cocherl for his quick action at the Plant Life Fertilizer Co.

Without the help of these people the fire at the Farm Bureau could have been worse, and the one at the fertilizer plant might have gone on to burn that building to the ground, he explained.

He was critical of the lack of men and equipment to adequately fight the blaze at the Farm Bureau. He explained that he has many times asked City Council for more men, more equipment, and at least one new fire station.

He also pointed out that one of the fire departments modern new pump trucks was out-of-commission with a defective pump Friday night.

This left only one modern pumper, the ladder truck, and an older pump truck from the W. Center St. station available to fight the fire. Another pump truck was kept on standby duty at the Mark St. station until the report of the Plant Life Fertilizer fire came in, when it was placed in service.

At this time, "every available piece of fire fighting equipment in operating condition in Marion was in use," Chief Sifritt sad.

"If this nut who's setting these fires, had set another one at that time, we really would have been in a fix," Chief Sifritt said.

All Police Called Out To Help at Fire Scene

Police Chief Tom Coon pointed out today that all police on the second and third tricks were called out to control traffic and to keep spectators from hindering firemen with their work.

He also made use of a police walkie talkie radio to personally direct police activities from the Farm Bureau fire.

Truman Raps Slashes In Defense Budget

Warns Against Cutting Corners On National Security

PHILADELPHIA (AP) — Former President Harry S. Truman condemned defense budget slashes by the Eisenhower administration last night and chastised what he called a "reckless" wing of the GOP, blaming it for cuts in the Mutual Security program.

In his first formal speech since leaving the White House, private citizen Truman said he wanted to warn the people "soberly and plainly" not to be misled by the desire for lower taxes "into cutting corners on our national security."

"Increasing the risk of World War III means increasing the risk of atom bombs on our own homes," Truman told a national convention of the Reserve Officers Association.

He said a "balanced program" of military goals was worked out by the Joint Chiefs of Staff in 1951, and that they urged the targets to be achieved just as soon as possible after 1954.

"Because it was about that time," said Truman, "that they expected the Soviets to have amassed a stockpile of atomic bombs that would put this country in the gravest kind of danger."

"It is of the highest significance, he went on, "that Gen. Hoyt Vandenberg (retiring Air Force chief of staff) and Gen. Omar Bradley (retiring chief of staff) testified a little while ago that nothing has happened to change the strategic estimate of the Joint Chiefs of Staff on which that program was based."

"As the President has said, our government sees no reliable evidence of any modification in the fundamental Soviet aim of world dominion," Truman declared. ". . . if the Sovients are genuinely interested in real settlements, we must be able to negotiate from strength.

"If they are tempted to make war, we must be able to deter them by our strength.

Ike's Program Sabotaged? No, Says Taft

WASHINGTON (AP)—Sen. Taft (R-Ohio) today dismissed a contention that some Republicans are sabotaging President Eisenhower's foreign policy program with the smiling observation that "we seem to be getting along all riht."

The Senate's majority leader declined to comment directly on a proposal by Chairman Wiley (R-Wis) of the Senate Foreign Relations Committee that Eisenhower crack down on GOP "saboteurs and malcontents and goldbricks."

But Taft made it plain he doesn't believe visible differences of opinion among Republicans on foreign policy matters will block any major international legislation.

The Ohioan said he hopes the Senate can act speedily next week to approve a year's extension of the reciprocal trade agreements program and a $5,318,000,000 foreign aid authorization bill.

Taft said he believes a compromise may be reached between Sen. Bricker (R-Ohio) and Eisenhower representatives on Bricker's proposed constitutional amendment which would restrict treaty making powers.

Attic Fan Aids Summer Comfort

Although many of the solid old formulas for making a house comfortable are continually being passed up by modern homeowners in favor of some new or complicated device, it is a positive fact that most of the old remedies are much better and far less expensive than many of the modern gadgets.

If you wish to sleep in comfort and to have a house that is completely ventilated and livable during the summer days and nights, I recommend the attic fan as the first and foremost method of securing your comfort.

The illustration above shows how a properly installed attic fan works in a house. Everyone is familiar with the basic fact that the cooler air lies along the ground and the hot air rises. If you have a house with the first floor windows in the usual elevation above ground and you have louvers or windows in the attic, you only need a properly installed attic fan to draw the cooler air through the lower half of the first floor windows up through the house and out of the attic openings.

People who have lived in houses which have been unbearable during hot weather cannot believe that they are under the same roof after they have installed an attic fan. No matter how hot the sun may be outside we all know that a breeze, or any movement of the air, makes the heat quite bearable, and when the cool night air is whipped off the ground and drawn through the house, no other air-conditioning is required for complete comfort.

FIRST AID TO AILING HOUSE

—By ROGER C. WHITMAN—

Down Draft In Chimney

Q: Our chimney has a strong downdraft and makes a howling noise in our fireplace when the wind is blowing. The chimney has three flues; they are for incinerator, furnace, and fireplace. The house is only one year old and the builder seems to know nothing about this condition or is unwilling to do anything. Can you suggest a solution?

A: Try closing the fireplace damper tightly to reduce the movement of air in the flue. If there is a down draft when the fireplace is in operation it may be due to the fact that the chimney is not high enough. The top of the chimney should be at least two feet above the highest point of a gable roof. A chimney cap on the flue would prevent down draft and reduce noise.

Loose Wall Tiles

Q: The tiles in my bathroom have loosened and three of them have fallen off. Kindly advise how to fasten them back in place. These are ceramic tiles.

A: Your local paint dealer or hardware store may have in stock a prepared cement for the purpose. If not, soak the tiles in water for 15 minutes or so, then mix a small amount of plaster of Paris with a half-and-half mixture of vinegar and water to make a fairly thick mixture. Spread this on the wall and put the tile in place. While plaster is setting, hold the tile in place with adhesive tape. Fill the joints between the tiles with white Portland cement, thinned with water to a thick creamy consistency. Wipe off all smears with a damp cloth before they become dry.

—:—

Plaster Damaged By Water

Q.: We have a house almost three years old. The plaster on the lower edges and under some of the windows is damaged, probably from condensation running down and wetting the plaster. 1—Should plaster thus affected be cut out down to the lath and replastered with patching plaster? 2—Should the joint between the bottom of the steel window and marble sill be sealed with a caulking compound or some other similar material? 3—Would double glazing of windows eliminate the condensation problem? 4—If so, would double glazing be more economical than storm windows?

A: 1 — All damaged plaster should be cut out down to the lath then replastered with patching plaster. 2—It would be best to fill any joint or opening between the sill and the window with a caulking compound. 3 — Double glazing or glazing with what is known as insulating glass cannot be done on your windows, because they would not hold the two thickness of glass with an air space between them. 4—It is difficult to answer this question because the prices of storm window have such a wide range that a fair comparison cannot be made.

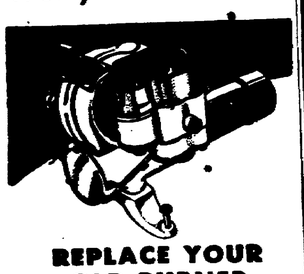
WHY Worry about Gas?



REPLACE YOUR OLD BURNER NOW WITH A WINKLER LP* OIL BURNER

If you haven't seen the Winkler LP* Oil Burner, come in today for a demonstration. You'll see proof of oil-and-money saving efficiency you wouldn't otherwise believe possible. The Winkler LP* can be matched exactly to the size of your heating plant—ends the waste of over-firing—burns just enough oil and no more. Even handles the hard-to-burn "hard-cracked" oils without nozzle-clogging.

Remember, too, that the simple, dependable design of the Winkler LP* ends costly service work.

NEWSPAPERARCHIVE®

ON THE HOUSE

By DAVID G. BARSUTHER, AP Real Estate Editor

HOW TO KEEP COOL is a problem at this time of year. Some architects contend that we ought to rebuild our houses—or at least remodel them. They say the way your house is built has a lot to do with the sweat of your brow.

Of course, most architects would like to see us start from scratch and build anew But since it's our money that's involved, we can keep cool about this, while we crib some of the experts' ideas to make the old manse fill the bill.

Amazing steps that can be taken to keep homes cooler in summer were illustrated in new house plans—861 of them—submitted in the recent nationwide architectural competition sponsored by the Carrier Corp. The aim of that contest was to find the best house designs for year-round air conditioning for year-round air conditioning—designs that would keep homes comfortable in all kinds of weather and at the same time keep operating costs down.

Three famous architects, a builder and a housewife—Mrs. Lillian M. Gilbreth of "Cheaper by the Dozen" fame — decided which designs would share in $27,800 prize money. When the winning plans were displayed in New York's Waldorf-Astoria, all secrets were out.

—:—

HERE'S WHERE we all can start to crib. It seems that combatting heat gain in summer is as important as checking heat loss in winter. The architects tackled this problem in various ways.

West walls and many of the east walls of the houses were planned without windows.

Broad overhanging eaves sheltered all windows facing south. These were planned so the shadow line would fall on the ground or terrace when the sun is high in summer, yet admit a wide belt of sunlight six feet or more into the house when the sun is low in the winter sky.

Trees were envisaged close to the house especially near the southwest corner to cast shade on the house on hot afternoons. These would be deciduous trees, which losing the leaves in the fall would let some warmth of the sun come through in winter.

Roofs were obviously of light colors, near-white or aluminum, to reflect heat from the sun.

Cross-ventilation was forgotten about, because that is no longer needed with modern air conditioning.

—:—

To apply all of these principles to an old house would be next to impossible. But much can be accomplished in the direction of each of them. For instance:

Windows—If they face the sun, awnings, especially the types with ventilating outlets, should go far toward providing shade of the overhang kind. Double glazing also is known to reduce the heat gain through glass.

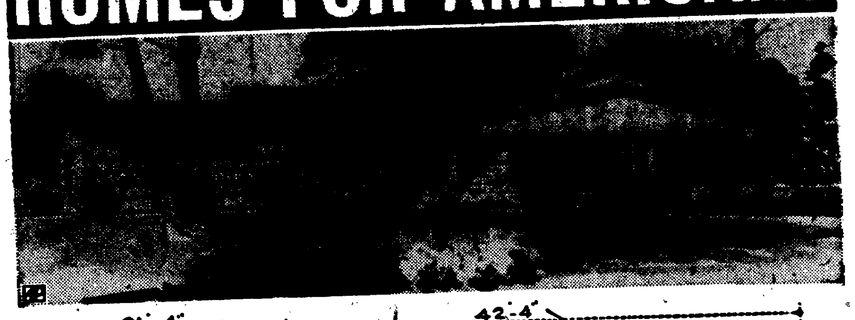
Trees — Fast growing varieties properly placed will do much to keep any house cool.

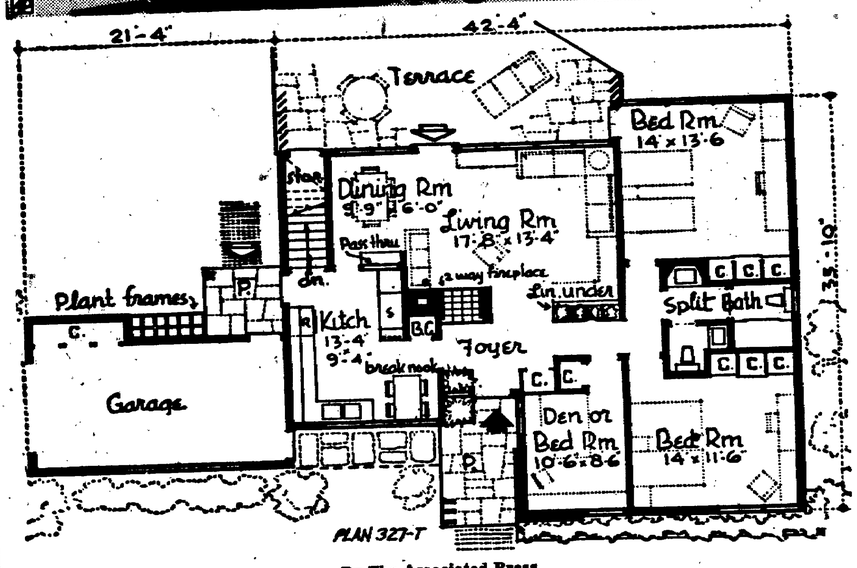
Roofs—Various types of roofing are available in very light colors. Asphalt shingles are now made in pastel shades. White marble chips have been tried on flat or low-pitched roofs. Aluminum, of course, is a major reflector. A coat of light-colored paint makes a noticeable difference on a dark or black roof.

Cross-ventilation is still of vital importance to a house lacking air conditioning. Adequate fans, attic fans, attic ventilating louvers rid homes of accumulations of warm daytime air and draw in cool evening air. Blower type fans focussed toward ceilings will dislodge the pockets of warm air that collect above door openings.

Insulation is a must, It is so comparatively simple to insulate the ceiling of a house, or the walls and ceiling of a finished attic, leaving a ventilated air space above, that almost any householder can tackle this job. One point to bear in mind is that an air space almost invariably increases the efficiency of insulation.

HOMES FOR AMERICANS





By The Associated Press

GLAMOROUS DETAILS make this house seem much bigger than it actually is. The house itself covers only 1,280 square feet without garage. A broad overhang protects passage from garage to front door. Rear entrance to garage from covered porch connects with service vestibule between kitchen and basement stairs. A two-way fireplace spreads cheer in front entrance foyer as well as throughout living room. Master bedroom has an outside door to garden terrace. This is Plan 327-T by Edward R. Tyler, 586 Macon Pl., Uniondale, N.Y.

HOSTESS TO CIRCLE

For a meeting of the Waldo Methodist Ruth Circle Tuesday night, Mrs. Jerry Munson was hostess in her home near Waldo. She was assisted by Mrs. Allen Roberts. Devotions were by Mrs. Helen Russell, and Mrs. Dwight Byers presented "Missionaries in Africa." For the benefit of the church building fund, a white elephant sale was held. The next meeting will be at the home of Mrs. Robert Fichter.

In Oregon's Crater Lake National Park an annual snowfall of 50 to 60 feet is not uncommon.

Program Presented At Meeting of Class

A meeting of the MOH Class of Prospect Street Methodist Church was held Thursday night at the church with Miss Ruth Schott, Mrs. Harlen Fairchild and Mrs. Joe Mehaffey serving as hostesses.

Devotions, conducted by Mrs. Kenneth Connolly, included group singing, scripture, a meditation on "Faith and Prayer," and the Lord's Prayer by the group. Rev. and Mrs. Fletcher Shoup, pastor of the church and his wife, were guests.

For the program, in charge of Mrs. Kenneth Hecker, Mrs. Ray Romine gave a talk and demonstration on flower and corsage arrangements. Later in the evening, a corsage of carnations made by Mrs. Romine was presented to Mrs. Shoup.

CLOTHES UNMAKE THIS MAN. Behind that poodle haircut and woman's clothing is Isaie Aldie Beausoliel, who was unmasked in Chicago as one of America's 10 most wanted criminals. Wearing "falsies" and with his fingernails and toenails painted red, he was picked up after the manager of the city's North Avenue beach called police when he noticed that the "woman's" neck and hands were unusually large. Beausoliel, 46, is wanted for the murder of his common-law wife in East Lansing, Mich. He is also wanted for deportation and parole violation. With him is policewoman Jean Conlon.

Zaharias Wins Fight, Returns to Golf Links

BEAUMONT, Tex. (AP)—Babe Zaharias returns to golf next week, apparent victor over that dread disease, cancer.

The great woman athlete, who had to quit the links trail for an operation, got the good word Friday—her physician told her she could start hitting that little white ball soon.

She said she plans to go to her home in Tampa, Fla., Monday and after a couple of day rest will begin chipping and putting.

Complete Plans For Girls' All-Star Tilts

Plans have been completed for the Marion Girls' League All-Star doubleheader Sunday at the Engineer Depot diamond. The first game is scheduled for 2 p.m.

Two teams composed of all-stars from the local league will meet in the opener. Girls from the Marion Power Shovel Company and the Arro Expansion Bolt team will make up one team while their opposition will come from the Telephone Company and the Depot teams.

The nightcap will send Marion Industries, winners of the first round championship, against the Delaware girls team.

A league spokesman said plenty of bleacher facilities and parking space would be available for the games. Cars will enter the diamond area at the west edge of the Depot property.

2 COACHES QUIT

AKRON, O. (AP) — Two Summit County coaches, Kermit Smulbach of Revere and Jim Coll of Twinsburg, have resigned, the county superintendent announced today.

Passion plays of the 15th century were so well attended that armed bands of citizens were required to patrol deserted streets during performances in order to protect the property of theatergoers.

Burke 3 Under Closest Foes At Cleveland

CLEVELAND (AP) — Little Jackie Burke Jr., who says a lingering case of flu may be helping his game, was a strong favorite today as third round competition started in the $15,000 Manakiki open.

Coughing and dosing himself with vitamin pills, the stubby professional from Kiamesha Lake, N. Y., posted a 67 Friday to add to his opening 66 for a 133 total—11 under par and three under his nearest competitors.

The former Texan won the Inverness Open in Toledo last week, despite the flu bugs that have weakened him, and is confident he can keep up his par-shattering exhibition to capture Manakiki's $2,400 first prize when the play ends Sunday.

His closest rivals, all tied for second with 136, are Leo Biagetti of Baltimore, Md.; Ellsworth Vines, the former tennis champion from Los Angeles, Calif.; and Ted Kroll of New Hartford, N. Y.

Hilliards Posts Second Dead Heat

COLUMBUS, O. (AP)—Driver Williard Mikesell, set down recently for "poor effort," found himself in a dead heat for the second time in five days at Hilliards Raceway Friday night.

Mikesell drove South Broadway to a dead heat for second with Belle Day in the fifth race. Kimberlite, a 7-1 shot, won and paid $17.80 straight.

Monday Mikesell drove Fox Valley Spud to a dead heat win with Mary Darnley.

Direct's Boy won both divisions of the first co-feature race, beating Miss Winsoki and Diane Stout in that order in both heats.

Ohio, Kentucky Cage Stars Clash

MIDDLETOWN, O. (AP) — Coach Paul Walker's Ohio high school All-Star basketball team is to clash with the Kentucky All-Stars here tonight.

The Middletown mentor's crew won the first of the two-game series Thursday night as they eked out a 77-74 victory over the Bluegrass quintet in a sudden-death overtime at Bowling Green, Ky.

The victory was the 10th for the Buckeyes against two defeats in All-Star competition.

TO STORE WHEAT SAFELY AT HOME FOR GOVERNMENT LOAN FOLLOW THESE STEPS

1. Clean and spray bins and surrounding building surfaces NOW.
2. We will custom dry your wheat if it is over 12% moisture when combined. Damp wheat will get weavily in a hurry. Should be 12% or lower for safe storage. High moisture content is the principal reason for farm stored wheat getting out of condition.
3. Use sheet metal, hardware cloth or other materials to make bin rodent proof.
4. Be sure windows and other openings are in good repair to prevent entry of birds.
5. Fumigate promptly within two to three weeks after grain is stored.
6. Observe condition of wheat often during storage period.

The Gumps — By Gus Edson

CONGRATULATE ME, FAMISH... I PUT IN AN EXCELLENT DAYS WORK...
SPLENDID, MR. GUMP...
YOU COLLECTED OPPY KNOX'S OVERDUE MORTGAGE PAYMENT... PLUS INTEREST, OF COURSE..?
I DID BETTER THAN THAT... OPPY'S A FINE FELLOW... SO I GAVE HIM A 30-DAY EXTENTION...
I FIGURE IN THE LONG RUN, OPPY WILL DO OUR BANK GOOD...
HE'LL DO OUR BANK GOOD, ALL RIGHT... WHY, YOU, YOU...

Trinity Baptist Pastor To Speak at Vespers

For the second union summer Sunday evening vesper service for the Marion community Sunday at 7 p.m. at Central Christian Church, the speaker will be Dr. J. B. Holloway, pastor of Trinity Baptist Church.

The devotional leader will be Dr. L. E. Ames, pastor of First EUB Church. Co-operating also in the services for the summer are several other congregations.

Dr. Holloway's sermon theme will be "Letting God Down." The Trinity Church Choir, directed by Mrs. Eugene Moore, will sing "The Lord Is Mindful of His Own," Mendelssohn, with Mrs. Cecil Davis accompanying. Trinity Church ushers will be in charge of the seating arrangement on the church lawn and of equipment used. The offering will be set aside for the program of Weekday Religious Education in the public schools sponsored by the Marion County Council of Churches. Leader of congregational singing for the vesper services is B. K. Hill of the Prospect Street Methodist Church.

Where Crass the Crowded Ways of Life

A city preacher writes a hymn about the city

One day in 1903 Dr. Frank Mason North walked into Methodist headquarters in New York City. Preceding the noted clergyman, Prof. Chleb T. Winchester, of the Methodist Hymnal Commission, had called to see about the publishing of the new hymnal he was working on.

Discussing the book with Dr. North, Winchester commented that it was lacking in missionary hymns. Then a thought struck him. Dr. North had written a number of poems. He was editor of a church periodical. He was corresponding secretary for the New York City Missionary and Church Extension Society and he had visited many foreign lands. Before Dr. North had time to collect his wits he was trying to explain to Prof. Winchester that he was not a hymn writer. Sure, he had written some poetry. And he had been close to missionary work of his church. But that didn't make him a hymn writer. Finally, he passed the subject off by promising to keep the request in mind.

Frank Mason North was born in New York City. Except for pastorates in neighboring towns, he had spent his life in the great metropolis. He had worked in missions on the East Side and he had smelled the stench of the slums. Missionary hymns? Missionary hymns were written about heathens in faraway jungles. But right there in New York, right under his very eyes, Frank Mason North had seen humanity as much in need of missionary aid as the most illiterate heathen in the most obscure corner of the earth. "I spent days and weeks and years in close contact with the multitudes," Dr. North once said. And he was familiar with "the tragedy of the jostling, moving currents of life" on the streets and "crossings of the avenues."

A missionary hymn about some faraway land? Dr. North turned to Matthew 22:9, "Go ye therefore unto the parting of the highways." He had preached a sermon on that text a few Sundays before. Sure, he would write a missionary hymn for the new hymnal. But it wouldn't be about Africa or Burma, or India, or China. It would be about the people he knew. It would be about New York and Paris and Chicago and London—great cities where church steeples pierce the sky. So Frank Mason North wrote his missionary hymn. He published it in "The Christian City" of which he was editor. Then he gave it to Prof. Winchester. It went into the Methodist hymnal of 1905 and has been included in nearly every Protestant hymnal since.

Where crass the crowded ways of life,
Where sound the cries of race and clan,
Above the noise of selfish strife,
We hear Thy voice, O Son of Man!

In haunts of wretchedness and need,
On shadowed thresholds dark with fears,
From paths where hide the lures of greed,
We catch the vision of Thy tears.

The cup of water given for Thee
Still holds the freshness of Thy grace;
Yet long these multitudes to see
The sweet compassion of Thy face.

O Master from the mountain side,
Make haste to heal those hearts of pain;
Among these restless throngs abide,
Oh, tread the city's streets again;

Till sons of men shall learn Thy love,
And follow where Thy feet have trod;
Till glorious, from Thy heaven above,
Shall come the city of our God.

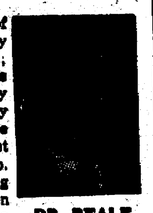
Confident Living

Don't Judge Too Much In Advance

By Norman Vincent Peale

This is the story of a sales manager who discovered that things may be better than they seem. The owners of his company were elderly, conservative men. They took him into the business as a boy and encouraged him to work his way up with them until he became sales manager. He knew them intimately and they were like second fathers to him.

A few weeks ago he telephoned me. "Norman," he said, "I'm in a difficult spot.



DR. PEALE

"The owners of my company have sold out; you know, they're not getting any younger and they felt this was the best time to let the business go. The controlling interest has been bought by a younger man, younger than I am. He's a very aggressive, capable fellow, and he wants to make changes. What can I do? Everything I've worked for is threatened. New methods will be installed that I won't feel at home with."

I'm no business expert, but I was able to make one suggestion. "Why don't you just keep on talking," I told him, "until you've told me in detail just how bad everything is; that way you'll get all the bad things out of your system."

He talked quite a while and, because he was calling from out of town, I began to be glad that things had not yet become so bad that he would have to reverse the telephone charges. So I let him talk on.

—:—

"I'VE HEARD," he said, "that this new man has different sales methods, different accounting methods, different methods of handling customers. I'm not used to his methods."

I interrupted him at that point, "How do you know his methods aren't better than the ones you've been using? One trouble may be that you are thinking of yourself as an old man. Perhaps you're in a rut, just dying on the vine. For all you know, everything may be wonderful, in fact, better than ever under this new boss.

"The thing for you to do is to pray for him. Thank the Lord he had enough money to buy the business. And then thank the Lord that you're there to help him and work with him. Send out good will thoughts toward him. And ask God to make you youthful in your own mind again so that you can adopt new methods and get a new lease on life."

My friend was discouraged. "Perhaps he will fire me."

"Nonsense," I said. "He'll probably want to keep you on the job because you're an old, experienced hand."

"I'm not old," he protested.

"You just told me you were," I reminded him.

—:—

THAT BROKE HIM down. "O.K.," he agreed, "I'll pray for him. I'll believe this is for the best. Maybe I needed something to jar me out of the rut I'm in."

A few weeks later he called me again. "I wanted to tell you," he said, "that it worked out just as you thought. This new man is terrific and we're doing better than ever before. I've kept my job and I enjoy working with him. I like him immensely. I'm having the best time of my business life."

You see? A few weeks earlier this man had thought he faced a difficult situation; today it is gloriously hopeful. What did he do to change it? He prayed, had faith and took from his prayers and faith the positive attitudes he needed to replace his negative thoughts.

Try it yourself, and you too will find that things may be better than they seem.

This Know Also

A Sermonette

BY THE REV. EARL L. HOLLIDAY

Pastor the the Maranatha Bible Church

"This know also that in the last days perilous times shall come." —II Tim. 3:1.

The deepest assurance of communion with God is the fullest spiritual experience that can come to man. To know God is real life, though a spiritual life. The authority of God's revelation in the Bible is the most tangible and eternal security that man can experience in physical and spiritual things.

The faithful Bible student is well aware of what is going on in the world today. The failure and breakdown in human society is so evident that the King of Heaven, the Lord Jesus Christ, must appear personally to redeem and restore this doomed, helpless, and corrupt civilization.

"This know — perilous times shall come — in the last days." When this statement was given it was prophecy; today it is fulfilled prophecy as the following Scriptures will reveal—II Timothy 3:1-17; I Timothy 4:1; II Peter 3:3; Jude 4,17,18. Here is the urgency of understanding the Bible in the light of present condition.

The reason for the present-day condition is given in the context here: "Men shall be lovers of their own selves, covetous, boasters, proud, blasphemers, disobedient to parents, unthankful, unholy, without natural affection, traitors, lovers of pleasure more than lovers of God, having a form of godliness but denying the power thereof; from such turn away." Form without power is the charge against religious leaders who head up the present-day apostasy. They are ever learning and never able to come to a knowledge of the truth.

The "falling away" in these days is that act of professed Christians who deliberately reject the revealed truth as to the deity of Christ and of redemption through His atoning sacrifice as it is found in the Bible. It is the effort of unsaved leaders trying to teach the things of God.

Evil men and seducers will wax worse and worse, deceiving and being deceived. Evil men are those having a form of godliness, but denying the power thereof. But the apostle urges Timothy to continue in things he had learned. These things were salvation through faith in Christ Jesus as related in the Holy Scriptures.

The great prophet of the Lord Jesus Christ as He is presented in the Scriptures is doctrine, reproof, correction, instruction in righteousness that the man of God will be full grown and furnished with all good works.

The charge is ever upon the servant of the Lord to "preach the Word" in all seasons and to reject false and apostate teachers. A faithful study of the Bible, God's Word, will bring an understanding of the times and keep the student following God's plan faithfully in spite of false teachers and teachings.

222 Registered At Vacation Bible School

At the close last week of the Vacation Bible School conducted by Emanuel Lutheran Church, final tabulations showed that 222 children had registered and that there was a daily attendance of 180. In addition to the children, there was a staff of 60 adult workers, who supervised the school during the 10 day period of its operation. At the closing exercises held by the school 410 persons were present. Mrs. Robert Baughman was supervisor, and was assisted by Miss Wanda McMahan, music instructor, Mrs. Willodean Buck, handicraft teacher, and Mrs. Floyd Lytle, recreation director. The pastor, the Rev. M. E. Hollensen served as director of the project.

A DIFFICULT PROBLEM? YES!
No one likes to think of the matter of the family burial estate. But thoughtful men of this community are discovering the relief that comes of settling it in advance of need. For then they know that unnecessary burden will never fall on the shoulders of loved ones when they are least able to cope with it.

It can't be and never will be because Adam and Eve sinned. God pronounced his judgment upon every man and woman ever to live upon the Earth.

"Unto the woman He said, I will greatly multiply thy sorrow and thy conception; in sorrow thou shalt bring forth children; and thy desire shall be to thy husband, and he shall rule over thee." —(Gen. 3:16)

"And unto Adam He said, because thou has hearkened unto the voice of thy wife and hast eaten of the tree, of which I commanded thee, saying Thou shalt not eat of it." Cursed is the ground for thy sake; in sorrow shalt thou eat of it all the days of thy life. —(Gen. 3:17,19)

Sees Serviceman Son for First Time In 10½ Years

Reunion of a father and his son in service, after separation of 10½ years, took place here recently.

The visit of Joe W. Ziegler, chief petty officer with 16½ years of continuous duty in the U. S. Navy, and his father, Charles M. Ziegler of 345 Homer St. occurred when the former, accompanied by his wife, drove to Marion enroute to Washington D. C. Stationed for some time at San Diego, Calif., the Navy man has been assigned to Washington for completion of training in optometry.

He is a specialist in the field, and his work in the service has included handling lenses, large and small, for various types of instruments. After retirement in two years at the age of 36, he expects to make optometry his occupation. He entered service on graduation from McGuffey High School in Hardin County, prior to Pearl Harbor, and saw action on the various islands in the Pacific area during World War II as a warrant officer, aboard a variety of vessels including submarine. He has been on duty also in both North and South Korea fighting.

GOES TO TEXAS

CAREY — Clarence Coffman, son of Mr. and Mrs. Clifton Coffman of near McCutchenville who had been home on a 10-day delay enroute from Camp Pickett, Va., to Fort Sam Houston, Texas, left Wednesday morning for his new assignment. He will have 8 weeks' medical training there and 6 weeks' hospital work.

Dogs Show Little Respect for Pet Show Officials

FREDERICK, Md. (AP) — You'd think entrants in a pet show would have more respect for the officials. But when two canines tangle in a fight, convention is thrown to the dogs.

At Frederick's Baker Park pet show Saturday, one little mutt broke loose from his leash and attacked another dog several times his size. The big one fought back.

Announcer P. D. Reid of White Plains, N. Y., tried to restore order and was bitten on the hand.

Reid retreated to Frederick Memorial Hospital for treatment, then returned to resume his duties.

Neither dog won a prize.

Week-End Accidents Kill 16 in Ohio

By The Associated Press

Accidents killed 16 persons in Ohio over the weekend—11 on the highways, three by drownings, and two in miscellaneous accidents.

The total compared with 22 killed the preceding week-end.

Deaths Saturday

Myron Hahn, 7, drowned in his family's farm pond six miles west of Mansfield.

Vincent Falasca, 71, Warren, fell 15 feet from a ladder.

Merritt Morehouse, 64, suffocated in fire in the Ashtabula Eagles lodge, where he was caretaker.

Ferman Carley, Cleveland, car-truck collision on Ohio 14, six miles north of Ravenna.

Richard J. Johnson, 37, Grafton, car-truck collision in Elyria.

Linn S. Brennan, 61, Dayton, auto accident on Ohio 69 near the Clark - Montgomery County line.

Herbert Johnston, 40, Chino, Calif., and Donald Johnston, Salem, O., three-car crash on U. S. 224 north of Salem.

Sunday

Elbert Ward, Milwaukee, and Lawrence Violand, 59, Louisville, O., two-car collision on U. S. 30 a half-mile east of Wooster.

Lester Stephen, 59, Bainbridge, drowned in Paint Creek, three miles west of Bainbridge.

Everett D. Spence, 28, Cleveland, three-car collision at Twinsburg, near Akron.

Robert E. Lee, Cleveland, two-car collision on U. S. 224 north of Alliance.

Frank Hausau, 75, Botkins, drowned in abandoned well in Auglaize County.

COMPLETE DRIVE

CAREY — Solicitation of Carey businessmen for contributions toward the new Crawford Memorial Park has been completed. Donations totaling $491.50 have been made from the business district. Anyone who wishes to contribute but has been missed, can contact Paul A. Burson, J. A. Schira, Victor Dunn, or Kermit Peterson. The goal for the new monument and park as a memorial to Col. William Crawford and the county's war veteran is set at $2000.

TURN DOWN REQUEST

BUCYRUS—A proposed increase in medical service fees for welfare patients in Crawford County was rejected Friday by county commissioners and Charles E. Hinkley Jr., county welfare director. A request for the increase was submitted recently to the commissioners by the Crawford County Medical Society. Welfare Director Hinkley said today that a new schedule of fees, which will provide some increases, will be drawn up and submitted to the physicians' organization for consideration.

TO OPERATE CLINIC

UPPER SANDUSKY—Dr. Henry Vogtsberger has purchased the equipment, medicines and supplies of the late Dr. J. NATIVE DANCER IS SOME RACE HORSE

We recently watched this 3-year-old colt win by a neck the Belmont Stakes Race at New York. It was on television. In 2.28 3/5th minutes this colt won $175,946. Not a bad day's earnings for the owner, Mr. Vanderbilt. Champions, whether men, women, horses or dogs, always get a lot of attention at the Ritz, because so many sportsmen dine here. Modestly, we think we are champions when it comes to serving the finest food in Ohio.

Paradise

By Inez Robb

TORREMOLINOS, Spain — This side of paradise, there is no way station more delicious, delightful and dee-lovely, than the Spanish Riviera.

INEZ ROBB

Each day I have to be forcibly restrained by the head of Clan Robb from rushing out and buying a house and lot on the Mediterranean, as blue and sparkling as its reputation. He is as daft about this region as I, but more practical-minded: He says that until we can get to and from Spain by Australian crawl and water - wings, we might find regular commuting on the expensive side.

The Spanish Riviera has everything that the Italian and French Rivieras boast with the single exception of high prices and international society.

-:-

THE CAFE characters of the world, plus the con men, the Jelkes and the Pat Wards who follow in their wake, have not yet "discovered" this enchanting section. Life here is still simple, beautiful and incredibly inexpensive.

The Robbs are living at La Roca, the best hotel in this little resort town, for just under three dollars per day each, including the regular charge of 12½ per cent for service. This includes both room and excellent board.

For this outlay, we have a large, nicely - furnished room with an equally large terrace overhanging the Mediterranean and blessing us with an incomparable view of the sea at our feet and the mountains in the rear sweeping down to the sandy beach.

My plumbing - conscious countrymen may want to know about the bathroom: Excellent, with all the standard and requisite fixtures.

-:-

THE SAME prices prevail at Casa Leni, a small pension run by an Anglo - American couple, Betty and Tobey Whitcomb, whose establishment is crowned by an incomparable cook named Rosa.

The food at Casa Leni is the best I have eaten in Spain; pure colony restaurant cum pavillion. And—hold your hats, kids! — luncheon is 65 cents and dinner 90 cents!

This is the paradise in which a glass of the best sherry costs 20 cents and an excellent local red or white wine can be had for from 15-to-30 cents a half bottle!

But enough of this sordid commercial chit - chat for the moment: This Spanish Riviera is a thing of beauty and a joy forever, where every prospect pleases and even man is muy sympatico.

-:-

FLOWERS riot in wondrous, disorderly profusion all over the countryside and bloom without seasonal progression as in the U.S.A. California may think it invented the six - foot geranium, but it should see Torremolinos!

A partial list of the flowers now blooming here includes geraniums in all sizes and colors, roses, pansies, hollyhocks, daisies, oleanders in every dooryard, in every gully, on every mountain side, morning glories in deep, flag blue that hang like tapestries on every wall; zinnias, cannas, calla lilies, dahlias, wisteria, nasturtiums, magnolias, jasmine, carnations, marigolds and cacti.

The bougainvillea vines outdo the morning glory; they blanket walls and houses with solid facades of American beauty and magenta.

-:-

I HAVE NOT mentioned so far the huge and unknown trees now dripping with great bunches of deep violet flowers!

The fruit is as luxuriant as the flowers.

Daily, we have our choice of great purple figs, Royal Ann and ox-heart cherries, big golden plums, little golden plums, apricots, peaches and bananas and oranges to burn.

And the weather? The Spanish have a word for it: Maravilloso!

This is paradise — and for peanuts.

Bloodmobile Unit To Visit Crestline

CRESTLINE—The Red Cross Bloodmobile unit will make its 14th visit since Crestline joined the program on Tuesday, at Trinity Evangelical Lutheran Church.

McWhirter Post No. 488 American Legion Auxiliary will assist. A staff of volunteer workers are available for baby sitting.

Officials, stressing an urgent need for donations for whole blood, have asked persons who have been hesitant about giving blood to consult some of the persons who have set outstanding records in Crestline.

Mrs. William Muntis, John Tornichio and Floyd Bauer have given 12 pints of blood each. Those who have given ten or more times are Mrs. C. Park Arter, Moulton DeWalt, Michael Flynn and P. J. Bopp.

Hours of the unit are from 10 a.m. to 4 p.m. Arrangements have been made for anyone wishing transportation.

Tidying Up the Mind

The U. S. State Department had no intention of controlling thoughts when it began to tidy up its overseas libraries last February.

It intended only to withdraw books which had been written by authors who had turned out to be Communists. It intended to have a party-line housecleaning.

But what starts out to be a housecleaning in a matter like this usually turns out to be a tidying-up of the minds of other people without their consent.

That is why the fur flies every time book-banning and book-burning become a public issue. It's why there is fur flying now, regardless of bland explanations that no books have been banned and no books have been burned.

The New York Times learned in a survey of 20 foreign capitals affected by the State Department's tidying-up orders that more than two dozen authors who are not Communists or even accused of being Communists were banned along with authors who have been in trouble over their ideologicl views.

Bert Andrews, Washington bureau chief of The New York Herald Tribune; Alan Barth of The Washington Post; Edgar Snow of The Saturday Evening Post, and Clarence Streit, a New York Times correspondent, were among the authors banned from one or more of the overseas libraries maintained by the State Department. Why?

Because knuckle-headed underlings jumped at a chance to get rid of something they figured might not be good for someone else to see. That has been going on since the dawn of the graphic arts.

Book-banning for apparently blameless reason is like setting barns afire to drive out rats and burning up horses, instead.

Voluntary Association

The living and learning which have made America what it is today are continuing. The process may take Americans by surprise sometimes, but it can't be stopped.

They are now learning that they don't have an aptitude for holding the whip hand.

Events in Korea have made this much clear to them. These were preceded by events in Europe. Referring to what had been learned there, senators have turned down a proposal this week to withhold European assistance funds from countries which refused to join the European defense community.

Sen. Taft, speaking for many others, said an inflexible rule on the matter would be ill-advised. It was the consensus of the Senate that the United States should avoid any appearance of trying to boss other governments.

Even the heart-breaking setback to Korean truce hopes is being condoned on the reasonable supposition that South Korea's President Rhee has an unassailable right to protect his tiny country's sovereignty and interests.

To adapt a famous expression, Americans may disagree with everything Rhee is doing but will fight for his right to be independent. They abhor the thought of satellite states and puppet governments. They have no ambition to dominate. They see value in voluntary association only and will accept no substitute.

Living and learning will go on. That is the ultimate blessing of free government — that its citizens can learn from their collective experience.

They have escaped the ultimate curse of autocracy — that autocrats repeat endlessly the mistakes which have destroyed their predecessors.

Voluntary association of nations is a new idea. It is in its infancy. Its guardian is the United States.

The guardian, according to the present signs, is not going to strangle the infant in its crib.

Speaking of Shortages

The Women's Bureau of the U. S. Department of Labor is appropriately concerned for women if not about them. Its official nature also warrants its zeal to help all women get work when they want to work and—contrarily—to ease the labors of those who don't want to work. The bureau must get a bit confused at times in its paradoxical solicitudes—for women against men, for equality versus sex favoritism, for toil or leisure as the individual woman may elect.

Anyhow, the bureau's current report-leaflet on "The Shortage of Young Women Workers" deals with any decreasing height in their stockinged feet of women young or not-so-young, but with their quantity as available for jobs. The bureau believes now is a good time for women to assert their rights (implying they have not done this in other times) and capitalize on the demand for them. The bureau counts powdered noses and finds there are fewer young women in their late teens and early twenties than there were ten years ago. Furthermore, early marriages are increasing, further diminishing the supply of office workers. The bureau disdains to concede that office jobs helped promote such early marriages, and even seems to deplore this matrimonial rate. Whose side is the bureau on, anyhow?

Refugee Roadblock

False Statistics Useful for McCarran's Purpose

While Republican obstructionists have gotten the headlines, a 72-year-old Democrat, Sen. McCarran has given the year's top demonstration of how to hogtie both a President and a Senate majority.

Aided by two GOP arch conservatives and, for a time, by a set of now - discredited "official statistics," McCarran has virtually lowered the boom for this session on President Eisenhower's request that 240,000 refugees and expellees from behind the Iron Curtain be admitted to the United States in the next two years.

Along the way, McCarran has split once - friendly Republicans into back - biting factions and maintained iron - fisted control over the Senate Judiciary Committee despite November election results which cost him the chairmanship of that group.

President Eisenhower made his request to the new immigration authority two months ago, primarily to give some hope to thousands of Iron - Curtain refugees who, encouraged by the West to fight and flee the Reds; are now stuck in West Germany.

Today it is still bottled in a Senate judiciary subcommittee whose chairman, Sen. Watkins has been reduced to stuttering rage by a series of road blocks thrown up by McCarran and members of the committee's professional staff, who still owe him their jobs.

One of these blockades—that of the false statistics—Watkins finally removed with the release of a letter from the Immigration and Naturalization Service.

It was originally raised when Richard Arens, staff chief of the immigration subcommittee, shook the confidence of senators sponsoring the bill with an "official" statement that, to date, the Justice Department has had to issue more than 2,000 warrants charging displaced persons already admitted to the country with anarchy and subversion.

Instead of 2,000 warrants issued, as stated by Arens, there have been a total of 2,282 investigated complaints most of them disproven, against the nearly 500,000 displaced persons. From these have emerged, not 2,000, but only two, warrants charging subversion or anarchy.

In addition, there have been 31 warrants on other criminal charges against the mass of displaced persons and 202 additional warrants calling for deportation on immigration law technicalities.

Included in the last group were 62 based on indicated mental or physical defects of the individuals, 67 based on visa frauds, 46 issued because the accused were likely to become public charges and 26 for miscellaneous legal reasons.

But, while the Arens report was being disproved, McCarran got in other delaying moves.

First, he stalled hearings for 10 days on the excuse that he had to visit his ailing wife. Then he sought an additional three-week stall because he wanted to attend internal security subcommittee hearings in California. Next the excuse was that Arens was sick. Then, backed by Republican Senators Butler and Welker, McCarran fought for an unprecedented hearing rule which would have forbidden testimony from any witness without a one week's advance notice to each committeemen in order that they might investigate for possible cross-examination.

Finally, at a sparsely attended meeting of the full Judiciary group, McCarran pled that appropriations and other matters were consuming too much senatorial time and got through, by a surprise 6 - to - 4 vote, a resolution which, if it had stuck, would have prevented any meetings of the 15-man Judiciary Committee or any of its subcommittees until after July 4.

Watkins, habitually mild - mannered and normally himself a supporter of the far - right GOP faction, has fought back, despite such personal threats as a call to his office by Mrs. Eve Adams, McCarran's secretary who told his staff they had better watch out lest the fight be taken to Utah with a charge that their senator had gone over to the "left wingers."

Today Watkins had his committee back in session as a result of a parliamentary maneuver to match McCarran's technique. At Watkin's request, Sen. Knowland, the GOP floor leader, rose on the Senate floor and casually requested unanimous consent for Watkins' subcommittee to meet while the Senate was in session.

With McCarran men either dozing or absent, the request slipped through and Watkins is calling it an official reversal by the full Senate of the judiciary ban on any sessions. McCarran's group boycotted the meeting, but Watkins had a quorum and business went on.

With Congress scheduled for August adjournment, legislative experts consider it unlikely however that the refugee aid bill will get by further McCarran roadblocks.

Matters of Opinion

Circumstances alter cases and time changes all things, to wit:

It has been a generation at least since the finest home cooking had anything over restaurant cooking—and home cooking in general always has been overrated.

Politics has ceased to pack a wallop because politicians have been standing still while everything else has been picking up speed — and what they say and do suffers by comparisan with the world about them.

Air - conditioning, which is about the fastest - growing industry there is right now, is making a good thing out of what passes for functionalism in modern architecture—but is not functionalism at all insofar as the comfort of human beings is concerned in the good old summertime.

Old timers who boast of the hardships they endured in the course of getting an advanced education because they believe what was primitive was necessarily superior should limit their boasting to other old timers. Most of them wouldn't have survived the first semester of advanced education in a first-class modern college.

Military figures who tell after the event what they'd have done if they could have done what they wanted to do bear an unflattering resemblance to fighters who say, "Gimme another chance at da bum. Next time I'll moider 'im!"

All of a sudden, everybody involved in the Korean mess, which was the supreme mess that Dwight Eisenhower inherited, is running over with honorableness and only that poor old Syngman Rhee is a dirty so-and-so for trying to save his country. Even Winston Churchill, who didn't become prime minister to preside over the dismemberment of His Majesty's empire, now is saying dirty things about Rhee.

When the grandchildren look at old snapshot albums and movies they will die laughing at the old-timers' heavy - rimmed glasses which made them look like deep-sea divers.

English children are no longer dropping their H's, thanks to British Broadcasting Corp., which sets a good example for them, but whatever happened to the theory that radio would make Americans talk better?

If the sale of power mowers to careless home - owners continues apace, there won't be one householder in a hundred with 10 whole fingers.

Foreign Aid Covers Multitude of Whims

By Raymond Moley

A well-known congressman not given to exaggeration rendered the private opinion the other day that, as long as anything like the present scale of foreign aid continues, there will not be and cannot be a balanced budget.

It is an interesting coincidence that even if the President gets his tax proposals, the deficit will be almost exactly as much as is now contemplated for "foreign aid."

The term "foreign aid" covers an infinite variety of services and, if you would believe some people, a multitude of sins.

It may clarify some of the confusion that exists to specify some of the gifts, loans, and services included in this all-embracing term.

Even so, a goodly part of the mystery will survive because of the thoroughly dishonest way that the Roosevelt and Truman administrations had of misusing names.

The most barefaced of all frauds was to call the aid we gave beginning in 1941 "lend-lease." It was neither lending nor leasing.

FDR said it was like lending your neighbor a garden hose to put out a fire. That was to sweeten the pill and, as was the case with most of Roosevelt's pills, it was swallowed without even a drink of water.

The neighbor never dreamed of returning the hose. No doubt, FDR had no thought of recovering it. Now the hose is being used for all sorts of things other than putting out a fire. Lend-lease was still being given in 1952.

Then there were "civilian supply grants," the UNRRA, the post-UNRRA, and "interim aid."

There were the International Bank and the International Monetary Fund. The bank was for "development." The Marshall Plan was later developed for the same purpose.

There were Far Eastern aid and Korean aid.

There was "technical cooperation" under that vague concept of uplift called Point 4.

There was the Mutual Defense Assistance Program for the Greeks, the Turks, and the Chinese.

Finally, Congress in 1951 gathered most of these under the Mutual Security Program. All this a part of the shuffling and reshuffling that is so natural in a bureaucracy.

There also are miscellaneous programs of various sorts.

The total for all purposes over the entire period 1941-1952 inclusive has been $87 billion. Of that, $49,223,000,000 was during 1941-1945.

The rest has been expended in two rather distinct periods—pre-Korea, $28,186,000,000 and post-Korea, $9,916,000,000.

In 1945-1950, the major purposes were relief, recovery and economic development. After Korea, military aid became predominant.

In a most interesting summary of our foreign aid programs made by the Tax Foundation, the pertinent comment is made that any appraisal of the value of this aid is impossible because we have been "trading very tangible aid for intangible returns."

Nobody can prove the extent to which European recovery has been due to this aid.

Europe has recovered before, but perhaps never so rapidly from so low a status.

In any event, there has been recovery to a degree where, aside from military aid and limited technical assistance, the wisdom of the further extension of these programs is highly doubtful.

Service for Posterity

By MARK DANA

Observance during the end of June of the 250th anniversary of the birth of John Wesley recalls the tribulations of this ecclesiastical statesman who with his gentler brother, Charles, and a small group of fellow students at Oxford University perceived only one way to break away from the influence of the State Church of England—and that was to combat it avidly. Martin Luther was a zealot of similar mold and stature and fixed purpose.

Young John and Charles Wesley were dubbed "Methodists" in 1729 because they liked to fulfill their religious functions in an orderly, methodical way. The name stuck, and the Methodist Church today with more than nine million members is the largest Protestant denomination in the world. Many other denominations also honor the memory of the Wesley brothers, and the personal influence of the two men in the U. S. particularly in Georgia and Maryland, set a pattern for evangelism which remains a trade-mark of most Protestant denominations. The hymns written by Charles are sung in many churches.

John Wesley went in heavily for theological declamation, in his writings making much of fine points of concern only to other theologians. Yet basically he championed the right and duty of individuals to benefti from a rich personal religion and faith. In fact, he inveighed as fervently against the apathy of Eighteenth Century Christians as against esoteric phases of Church of England doctrines. If the Wesley brothers were alive today, two and a half centuries later, they would find one denomination after another waging their brand of evangelism and teaching their brand of personal religious inspiration—and just as eager as were these consecrated brothers to transform nominal, casual, habit-guided name-Christians into active and ardent and believing and working-at-it Christians. The cause of all churches, all faiths, all zealots for world betterment, has been helped by what they achieved.

More Information Wanted

By MICHAEL AMRINE

Should the American people be told a good deal of what our intelligence agents have told high officials about Russia's armed forces and atomic bombs?

Dr. J. Robert Oppenheimer, key figure in the wartime atomic project and now a leading adviser to the Pentagon and to congressional committees, believes that U. S. citizens should be told far more than they have been.

The question also lies behind the President's comments at this week's press conference, when asked whether the country would be told if we learned of new explosions of Russian atomic bombs. The President said that he had not done much thinking on the subject, but other top officials have.

One in a position to know hinted recently that the Russians have exploded another bomb or bombs. Another recently said flatly that they have not exploded any since President Truman last announced they had. That was long before Truman later said he didn't believe they ever had.

How many agents we have in Russia and how many scientific radiation detection stations we use to watch out for atomic clouds coming out of Russia is properly a deep secret. However, it is known that top American officials keep closely in touch with Russian capabilities, and Dr. Oppenheimer believes that Americans should be given some "rough" estimates on the numbers of atomic bombs we have and a "general estimate" of Russian atomic might.

The Federal Civil Defense Administration in its annual report this spring said that the Russians are known to be able to produce several different kinds of atomic bombs.

Dr. Oppenheimer thinks that their Foreign Affairs, says that he feels the Russians, in their atomic program, are about where we were four years ago. That was the year when we were just getting started on the hydrogen bomb.

Dr. Oppenheimer thinks that the program may be only half as big as ours, but that Americans should have some idea what that means—how big is the effort of which the Russians have matched half?

He also makes the point that if the Russians have 2,000 bombs we could have 10 times as many, or 20,000, but they would still be able to launch against us a devastating attack.

Dr. Oppenheimer writes that the men in the Kremlin know more of our U. S. atomic might than our own people, and thus are in a better condition than we to judge the stakes in the atomic race.

In this he echoes Bernard M. Baruch, who recently asked that the government should tell the people what's going on.

Baruch, who has been close to military production for years, said: "Foreign agents know more about military matters than our own people. They went to the heart and center of the atomic bomb before I knew one was being made."

The Once Over

By H. I. Phillips

Letter From Korea

Dear Babe: Well, your guess when I will be home from Korea is as good as mine, and neither of us is close to a right answer. The confusion is now so deep that even the generals are getting their briefings from ouija boards.

I wouldn't be surprised to hear that the U.N. had decided to put its forces under the command of an astrologist or gypsy fortune teller. The whole thing has developed into a revival of the Abbott & Costello routine "Who's on first?"

This police action has turned into a riot squad's clambake with every man for himself. It is a study in Three Dimensions SNAFU.

-:-

We got into this shindig to repel aggression but it looks like our side is now doing a retake of one of those old-time movie Westerns. Everybody is socking somebody else with a chair, using both feet in the clinches and shooting out the lights.

Syngman Rhee, the fellow we came over to rescue, is now making it tougher for us than the enemy. It is the first time I ever heard of a war in which snafu was substituted deliberately for mutual pledges and military objectives, and it seems to me that Rhee thinks the newest mystery weapon is a jet-propelled monkey wrench.

Get a load of the situation: An army which came over to help Rhee out of a hole is being put into a deeper hole by Rhee than Rhee was in! This is a screwball world in a screwball age.

Surprises are a dime a gross, but things are happening now which once would have been nipped in the bud by a couple of good psychiatrists and a fast-thinking cop.

-:-

Sergeant Mooney says we came in as an ally and Rhee has mistaken us for an electric rabbit with himself at the electric controls. He says it is the same as if in the battle between David and Goliath David had thrown away the slingshot, and cancelled out all pebbles.

The GI's are sorer at Syngman than they ever were at the Russians, the North Koreans or the Red Chinese.

They realize he and his people have been through hell and rate sympathy, but gumming up the works for your own side is a hell of a way to run a railroad. He is really playing a benefit for the Commies, who are having the Laugh of the Year.

I may wind up this fracas fighting South Korean, North Koreans, China, Russia and all the displaced Democrats.

They may even get me into the argument over who got to the top of Mt. Everest first, the explorer or the native guide.

-:-

Babe, I am depressed. For the last week I have felt like I was not in a war for freedom but just mixed up in a free-for-all argument with Leo Durocher and a couple of umpires. I feel worse off than the second division teams in the American League. I have stopped worrying what happened to the Dodgers and am trying to find out what's happened to me.

What I am scared of is that the U.N. may have to name a committee to locate the various armies, verify who's fighting who and issue a daily map showing changes in the goal posts. And suppose it names Czechoslovakia, India, and Poland on the committee! ! !

The big mistake in this war was the lack of two slogans. Washington's should of been: "Look Before You Leap." Rhee's should of been; "Never change St. Bernard dogs going down slippery mountains." All my love, Emil.

She's Sure Her Late Grandad, a Morrow County Pastor, Would Approve Change

June Haver, Ex-Movie Star, Happy in Convent

Former movie star June Haver is sure her Morrow County grandfather is 'chuckling in heaven" over her decision to give up Hollywood glamor for a convent.

So she wrote recently in a letter to her father, Fred C. Stovenour, The United Press reports.

Her grandfather was the Rev. Frederick Stovernour, who served several Protestant churches in Morrow County before he died at the age of 96.

Miss Haver's father, Fred C. Stovenour, who moved to Dallas, Tex., from Memphis, Tenn., recently, told a United Press reporter his daughter's letters home reflect no regret over her abrupt abandonment of the song and dance roles which won her a $3,500-a-week salary.

The former star, now at the Convent of the Sisters of Charity at Xavier, Kan., writes her father regularly. Her letters reveal both the serious and lighter side of the girl who startled Hollywood by deciding to become a nun.

In a recent letter Miss Haver said:

"I am very happy here. Our classes are, marvelous. I'm sure Grandpa Stovenour is chuckling in heaven at his granddaughter resuming her education at this ripe old age—and studying the Scriptures he loved so well. God is good."

The 29-year-old Miss Haver told her father her six months preparation will end Aug. 22 when her group of 13 will take the holy habit (white veil) and receive their names in religion.

"Pray for me, Daddy—you and yours are in my pryaers and works each day. Drop me a line."

Stovenour said Miss Haver's decision to become a nun had been developing for about three years.

"Her mother and I became divorced in 1936," Stovenour said. "She was only 12 at the time. It made quite an impression on her and it influenced her in finding a religion where divorce is not permitted."

A short, unhappy marriage to Trumpet Player Jimmy Zito, followed by the death of her fiance, Dr. John L. Duzik, in 1949 also were believed to have influenced her decision.

In 1944, Miss Haver visited Marion for the filming of several scenes in the movie "Home In Indiana." This filming was done at the Marion fairgrounds and took about ten days.

She was born near Cardington in Morrow County. The ancestral Stovenour home is located on the Worthington - New Haven road about two miles east of the town. It is now occupied by the family of Mr. and Mrs. C. H. Thompson.

The Rev. Mr. Stovenour at one time served three denominations at once, the Congregationalists, the Baptists, and the Lutherans. At other times, he served the Presbyterians and the Christian Church. Before he entered the ministry, he studied law.

Announce New Way To Shrink Painful Piles

Find Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to stop bleeding—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world's famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

Now this new healing substance is offered in ointment form for hemorrhoids under the name *Preparation H.*® The price is only 98¢ a tube including an applicator. The name to ask for is Preparation H—at all drug stores. And remember—if not entirely satisfied—your money will be refunded promptly. *Trade Mark.

National Navy Club, Auxiliary Elect Two Marion Residents

Two Marion people were elected to offices in the national organization of the Navy Club of the United Sates and the Auxiliary at the veterans' group's 16th annual reunion held Thursday through Sunday in Buffalo, N. Y.

Robert Vaughan, who at present is commandant of the Marion Navy Club and master at arms in the Ohio Squadron, was named national chaplain.

Mrs. Valeria Haughn was elected paymaster of the national auxiliary. She served as national chaplain last year and is a past commandant of both the Marion Auxiliary and the Ohio Squadron Auxiliary.

Others attending from Marion were Dr. George Pfleiderer, service officer of the Ohio Squadron; Harold Metzger, chaplain of Marion Ship 3; Mrs. Isabelle Coleman, commandant of the Marion Auxiliary and also of the Ohio Squadron; Harold Haughn and Mrs. Robert Vaughan.

Elected new national commandant was William C. Huber of East St. Louis, Ill., succeeding Edward S. Misewicz Chicago. New national commandant of the auxiliary is Miss Helen S. Beaton of Niagara Falls, N. Y.

Retired Teachers Name Delegate To Convention

The Marion County Chapter, Ohio Retired Teachers Association, at a meeting Saturday with Mrs. J. C. Turner, 206 S. High St., elected Miss Arena Hinds a delegate to the ORTA meeting in Columbus to be held Oct. 15.

Twenty persons were present for the meeting and A. M. Hornby, president, presided and gave a talk on the aims of the ORTA. Miss DeEmma Hawley was appointed to assist Miss Luella Scholl, chairman of the card and flower committee.

Miss Hinds, secretary, was instructed, to write letters urging the Ohio representatives on the ways and means committee in Congress and the state secretary of the ORTA in Columbus to favor the passage of HR Bill 5180 which, if passed, would free all pensions from federal income tax.

A social hour followed and refreshments were served by, the hostess, assisted by Miss Audrey Bolander, Miss DeEmma Hawley and Mrs. Kathryn O'Dowd. The next meeting, Sept. 26, will be with Mrs. N. Sifritt, 457 S. Main St.

A GOWN of white embroidered nylon was worn by Miss Jean Lois Witt when she became the bride Friday of Keith Edward Maloney. She is the daughter of Mrs. Albert V. Witt, 387 Hane Ave., and the late Mr. Witt, and his parents are Mr. and Mrs. E. P. Maloney, 312 Thew Ave.

The bodice was styled with a deep V-shaped yoke, a small collar and short sleeves with cuffs. Valenciennes lace edged the collar, cuffs and the yoke. The full, floor-length skirt was worn over a taffeta slip and crinoline petticoat. Her fingertip length veil of illusion was caught to a crownless bonnet of illusion, with white flowers surrounding the open crown. She carried a shower bouquet of stephanotis and white delphinium arranged on a white prayer book, a gift of the bridegroom.

MRS. KEITH E. MALONEY

The wedding took place in St. Paul's Episcopal Church and the ceremony was read at 7:30 o'clock in the evening by the rector, the Rev. Frederick Leech.

Madonna lilies and lighted candles were on the altar, and at either side were lighted candles in seven-branch candelabra. Extending the length of the aisle were lighted candles and white bows marked the pews.

A half-hour program of organ music was presented preceding the ceremony by Miss Grace Cooper. Serving as acolytes were Dan W. Brickley III and Stephen Allen.

The bride was given in marriage by her brother, Marlowe Witt.

Preceding the bride to the altar were her matron of honor, Mrs. James Weghorst, a cousin, the bridesmaid, Mrs. C. R. Maloney, sister-in-law of the bridegroom, and flower girl, Terry Lynn Witt, a niece.

The matron of honor and bridesmaid wore sleeveless gowns fashioned alike of white nylon organdie accented with a small daisy design. Large collars extended over the shoulders and to deep V's in the back. The full floor-length skirts were worn over pale blue taffeta slips and sashes of like material accented the gowns at the waistline. They wore circlets of daisies in their hair and carried crescent-shaped bouquets of shasta daisies. The flower girl's dress was like those of the other attendants but with puffed sleeves. She wore a circlet of daisies in her hair and carried a basket of shasta daisies.

Serving as best man for the bridegroom was his brother, C. R. Maloney of Findlay, and seating the guests were Eldon Galleher of Newark and Hadley Galleher of Columbus, cousins of the bridegroom.

A small reception for the immediate families, out-of-town guests and a few close friends was held at Hotel Harding immediately following the ceremony. Baskets of summer flowers decorated the room and festoons of ivy were on the reception table. Assisting were Mrs. Karl Bechtle, Mrs. John Luginbuhl, Mrs. Curtis Howard, Miss Philomen Gregg, Miss Clara Gillan and Miss Lucile Krigbaum.

When the couple left on a short wedding trip, Mrs. Maloney was wearing a yellow linen suit with which she combined a yellow milan hat and brown accessories. Her corsage was a white orchid.

The new Mrs. Maloney, who has been teacher of the first grade at Greenwood School, attended Ohio State University and Western Reserve University, and was graduated from Bowling Green State University. She was a member of Alpha Chi Omega, social sorority, and Kappa Delta Pi, educational fraternity. Mr. Maloney attended Miami University and was graduated from Ohio State University. He was affiliated with Phi Delta Theta, social fraternity, and Sphinx. He is employed at Marion Industries, Division of Motor Products.

The rehearsal party was given by the bridegroom's parents.

Out-of-town guests were from Lakewood, Cleveland, Newark, Findlay, Napoleon, Columbus, Portsmouth, Detroit, Mich., and Pittsburgh, Pa.

New officers, headed by Miss Patricia Lawler as president, assumed their duties when the Junior Woman's Board of the Marion City Hospital met Thursday evening with Mrs. Marr McNeal, 259 Merchant Ave. Serving as associate hostess was Mrs. James C. Woods Jr.

Taking office with Miss Lawler were Mrs. David J. Isaly, vice president; Mrs. McNeal, recording secretary; Mrs. Woods, corresponding secretary; Mrs. John Brashares, treasurer; Mrs. Rodney Cox, assistant teasurer; Mrs. Bud M. Burke, auditor; Mrs. Jay H. Maish Jr., past president.

The next meeting will be held in September.

Announcement is being made of the engagement and approaching marriage of Miss Margaret Therese Irvin, daughter of Mrs. Nelson G. Irvin, 376 N. Greenwood St., and the late Mr. Irvin, and Frank Paul Restá Jr. He is the son of Mrs. Carl Sasser of Granville, O., and Frank Paul Resta Sr. of Newark.

Miss Irvin was graduated from St. Mary High School and attended the College of Mt. S. Joseph-on-the-Ohio. Her fiance was graduated from Newark Senior High School and the United States Merchant Marine Academy at King's Point, Long Island, N. Y. He attended Ohio State University.

The wedding will take place Tuesday, June 30, at 9:30 o'clock in the morning in St. Mary Catholic Church.

Father Officiates For Wedding Of Miss Hertzler

The custom of open church was observed for the wedding of Miss Leah M. Hertzler, daughter of the Rev. and Mrs. E. M. Hertzler of near Marion, and Galen L. Ober, Sunday afternoon, June 14.

The bride's father, Church of the Brethren minister, officiated for the 3:30 o'clock ceremony in the First Church of the Brethren. Decorations were palms, white gladioli and lighted candles. Mrs. Elwood Cowgill organist, and Mrs Leonard Blough of Dravosburg, Pa., vocalist, presented a program of wedding music.

Given in marriage by Wilbur Thomas of Tiffin, a family friend, the bride wore a gown of embroidered nylon fashioned with a fitted bodice and full skirt. Her fingertip veil, held with a handtatted tiara of lace, was edged with tatted flowers and lace. She carried an orchid and gypsophila in a bouquet on a white Bible and her jewelry was a cameo, a gift of the bridegroom.

Mrs. Earl Berkey of Johnstown, Pa., was the bride's only attendant. She wore a gown of green nylon.

Clarence Ober of Clymer, Pa., brother of the bridegroom, served as his best man and ushers were Clyde Ober of Windber, Pa., a brother, Leonard Blough of Dravosburg, Pa., and Earl Berkey of Johnstown, Pa. The bridegroom is the son of Mr. and Mrs. George Ober of Clymer, Pa.

Lighting the candles were Rosalind Sult of Prospect and Sallie Steward of Marion who wore matching gown of yellow nylon.

A reception for 100 guests was in the church parlors. A linen tablecloth, which had been a wedding gift of the bride's grandmother, covered the table, which was centered with a four-tiered wedding cake. Surrounding the cake were orchid-colored stock and huckleberry foliage and candles were on an orchid shade. White, orchid, and yellow flowers decorated the parlors. Hostesses for the reception were Mrs. Ray Ballinger, Mrs. Willis Lamb, Mrs. Gerald Kindall and Mrs. Murrey Carpenter.

When the couple left on a wedding trip to Colorado Springs, Colo. Mrs. Ober was wearing an orchid and white crepe ensemble with white accessories, and the orchid from her bridal bouquet.

The bride was graduated from Windber High School, Windber, Pa. and from the School of Nursing of White Cross Hospital, Columbus. Since her graduation she has been employed at the Marion City Hospital, the Smith Clinic, and as industrial nurse at the Marion branch of the Tecumseh Products Co.

Mr. Ober is a graduate of Indiana State Teachers College, Indiana, Pa., and of the University of Pittsburgh, from which he received a master in education degree. He is a member of the faculty of the Hampton Township High School, Allison Park, Pa. After Sept. 1 the couple will make their home there.

Out-of-town guests were from Rockford, Ill., Elkhart, Ind., Flint, Mich., Port Jervis, N. Y., Windber, Johnston, Clymer, and Dravosburg, Pa., and Brookville, Tiffin, Clyde, Prospect, and Green Camp.

The couple presented gifts to their attendants at the rehearsal party Saturday evening, June 13, at the Hertzler residence west of Marion.

Weddings

Miss Delores Mae Toebbe, daughter of Mr. and Mrs. Thomas B. Toebbe of Buechel, Ky. became the bride of John Joseph Huber, son of Mr. and Mrs. Edward T. Huber of 1173 E. Center St., Saturday, May 23, in Louisville, Ky.

Only the immediate families were present for the ceremony read at 10 o'clock in the morning by the Rev. Leo J. Sheeran, in the rectory of St. Raphael the Archangel Catholic Church.

Given in marriage by her father, the bride wore a street-length dress of white nylon and her bridal bouquet was white orchids. Completing her costume was a necklace of pearls.

A gown of light blue nylon was worn by Mrs. Henry Leffew who was her sister's only attendant. Her flowers were a corsage of roses.

Robert A. Huber of Cincinnati, brother of the bridegroom, was the best man.

Following a reception at the home of the bride's parents the couple left on a honeymoon in the Smoky Mountains, Blue Ridge Parkway, N. C. For travelling the bride chose a blue shantung suit. They are making their home at 2122 Gladstone Ave. in Louisville. Assisting at the reception was Mrs. Katherine Toebbe, aunt of the bride.

The bride is a graduate of Southern High School, Louisville, and the bridegroom from St. Mary Parochial High School. He attended John Carroll University, Cleveland. Both are employed with the F. W. Woolworth Co. in Louisville.

—:—

The wedding of Miss Erma Gorenflo, daughter of Mr. and Mrs. Clarence Gorenflo of 475 E. Mark St. and Andrew Irvine took place Wednesday evening in Greenwood EUB Church. The pastor, the Rev. R. L. Sutherland, read the ceremony at 6:30 o'clock. A program of wedding music was by Miss Betty Lou Jones.

For her wedding the bride chose a street length costume in white. Her attendant, Mrs. Phyllis Bender wore a navy blue dress. Ben Wiant Jr. served as best man for the bridegroom.

A reception was in the parish house where Mrs. Robert Gorenflo and Mrs. John Gorenflo were hostesses.

When the couple left on a wedding trip to Milwaukee the bride was wearing a pink suit. They will make their home at 292 E. Center St. Both the bride and bridegroom are graduates of Harding High School.

—:—

The double ring service was repeated by Miss Donna Joy Brewer and Larry Franklin McKinniss for their wedding Sunday afternoon, June 21, in the Community Church at Harpster. The bride is the daughter of Mr. and Mrs. Donald Brewer of Harpster and the bridegroom's parents are Mr. and Mrs. Darell McKinniss of near Marseilles.

The Rev. B. F. Crawford officiated for the ceremony at 2:30 o'clock. Baskets of white gladioli, blue larkspur, huckleberry and fern decorated the candlelit altar. A program of nuptial music was by Mrs. Kermit Couch organist, and Miss Lydia Mercer, vocalist.

Given in marriage by her father, the bride wore a gown of white embossed organdy. Ruffles and tiny pearl buttons trimmed the front of the bodice and the full skirt was ballerina length. She wore a shoulder-length veil and carried white carnations centered with a purple orchid.

Miss Linda Mawer who was the maid of honor, wore a blue nylon dress and carried yellow carnations.

David Wolfe of Marseilles served as best man and ushers were Ronald Moore of Harpster and Earl French Jr. of Nevada.

The candles were lit by Miss Deanna Brewer. Her gown was of rose taffeta and she wore a wrist corsage of yellow carnations.

A reception for 60 guests at the home of the bride's parents followed the ceremony. Hostesses were Mrs. Freda Shaffstall of Marion, aunt of the bride, Mrs. Clifford Harris of Cardington and Miss Evelyn Martin of Upper Sandusky.

When the couple left on a wedding trip through the south the bride was wearing a rose linen suit and her wedding orchid. They will make their home on Wilson Ave.

Guests were from Tucson, Ariz., McArthur, Canton, Cardington, Caledonia, Marion and Marseilles.

Autos Leave Roads in Four Accidents

Fences, Telephone Poles Knocked Down In Week-End Mishaps

Marion area motorists had trouble keeping their cars on the roads over the week end. In four of five accidents reported by state patrolmen from the Marion post, automobiles left the highways after failing to make curves or after drivers lost control of their vehicles.

Robert E. Lohr, 19, of Bucyrus, escaped injury at 5:20 a.m. today when his car veered off the left side of State Route 4, three miles north of Route 23, tore down six feet of farm fence, struck a culvert and a General Telephone Co. pole.

Extensive damage resulted to the car, according to patrolmen. Damaged were the front, undercarriage, wheels, front fenders, bumper, left rear fender and bumper and radiator of the car.

In other accidents investigated by the patrol over the week end, Terry B. Mason, 21, of Mt. Gilead, failed to negotiate a curve on Route 30-S, just west of the Morrow-Marion County line, at 10 a.m. Saturday. His car left the highway on the right side, came back across the road and overturned in a ditch on the left side of the road. The top and front of the vehicle were badly damaged. Mason was taken to a Mt. Gilead physician for treatment of a cut left wrist, abrasions of the left leg, numerous body bruises and face lacerations.

G. N. Copeland, 41, of 263 Latourette St., failed to make a curve on State Route 95, one mile east of LaRue, at 3 p.m. Saturday and his car ran off the left side of the highway, tearing down 60 feet of farm fence and several posts. Copeland escaped uninjured.

A southbound car driven by Bonita Buxton, 18, of Waldo, struck a parked car belonging to Paul Jones of near Ashley on a Morrow County road, just west of Route 42, at 3:15 p.m. Sunday. The Jones car was parked along the berm of the highway, headed north when the Buxton car sideswiped it. Moderate damage to the left side of the Buxton car and minor to the Jones car was reported.

Benona Delawder, 17, of near Marion, was the driver of a car which failed to make a turn from U. S. Route 23 onto Marion County Road 108 at 3:50 p.m. Saturday. The car veered across the county road, tore down 10 feet of farm fence belonging to Gordon Eichhorn, and broke off a pole belonging to the General Telephone Co. Minor damage to the left front of the car was reported.

Wyandot Market To Join Producers

The Wyandot Livestock Cooperative Association of Upper Sandusky soon will become the twentieth market of Producers Livestock Cooperative Association, it was announced in Columbus today. This follows unanimous approval of the merger by members of the Wyandot association who attended a special membership meeting at Upper Sandusky Thursday night.

Wyandot Livestock Cooperative Association was organized in 1920 as a livestock shipping association. It was reorganized under Ohio cooperative laws in 1934. Allen Moser has served as manager of the association from its inception in 1920. Producers announcement said that he would remain as manager until a replacement can be secured. His desire to retire prompted his directors to seek consolidation with the larger association.

C. C. Smith of Forest is president of the Wyandot association; R. C. Bell of McCutchenville, vice president, and M E. Kear of Upper Sandusky, secretary-treasurer. Other board members are E. E. Bachtell, Nevada; J. E. Baugher, Sycamore; and C. J. Heller, Upper Sandusky.

Producers said that all present services will be continued at the Upper Sandusky market and new ones added as needed.

Village Marshal Held in Shooting

MCARTHUR, O. (AP) — William Reeves, 45-year-old Wilesville village marshal, was being held in Vinton County Jail today without charges in the shooting of a Wilkesville barber. The wounded man, Jim Mahaffey, 27, is in Holzer Hospital, with a fractured arm.

The shooting occurred Saturday night during an argument.

Youngstown to Get Fighter-Bomber Wing

WASHINGTON (AP) — The Air Force said today it plans to establish the 441st Fighter-bomber wing at Youngstown, O., this fall.

The wing will use active reservists and recruits living in the Youngstown area. It will be based at the Youngstown Municipal Airport.

An Air Force spokesman told a reporter the plans for activation of the Youngstown wing follows a survey which disclosed there are enough fighter reservists in the area to make the unit feasible.

The wing will be set up sometime between October and December.

Army Signal Corps technicians in Korea saved American taxpayers more than $1,079,000 during the past 18 months by salvaging and repairing approximately 1500 miles of expensive communications cable. One mile of re-built cable saves the taxpayer $686.70.

Another Important Service Of
The MARION COUNTY BANK
Planned Savings Permit You To
EARN A GREATER RETURN

The Marion County Bank now brings you a completely different method of saving, which offers you a real opportunity to plan a savings program to fit your particular needs—and to earn more interest!

Here's how these certificates work—and some of the many advantages they offer you, as a saver.

1. You may purchase these certificates in any multiple of $100.
2. Interest starts on the date of issue, and every six months we will mail you an interest check. You may deposit your interest check to your checking or savings account.
3. For the first two years the money has been on deposit, interest payments will be made at the rate of 2%. At the end of two years an additional ½% interest will be paid for each of these years. After two years, interest payments will be at the rate of 2½%.
4. You may cash your certificates during the first two years, by giving us three months' written notice. This is required by federal banking regulations. On or after two years, these regulations require six months' notice. Accrued interest will be paid for each six month period.
5. These certificates may be used as collateral for loans up to the full face value of the certificates —at rates fixed by the Federal Reserve Board.

The high rates of interest on Marion County Bank Savings Certificates are consistent with sound banking practice for two fundamental reasons. First—we can put this longer-term money to work in longer-term, higher-yield investments. Second —it is more economical to handle this money because of fewer deposits and withdrawals.

Regular Marion County Bank Savings Accounts are still available for your convenience. These savings accounts fill several important needs. Since we have always paid these accounts on demand, we must invest this money in shorter-term, lower yield investments. Therefore, they pay our established rate of 1% interest.

Whichever savings plan you select, The Marion County Bank stands ready to advise and serve you.

Used to Prevent Polio Paralysis

Gamma Globulin Supply Received by Health Dept.

The Marion County Health Department has received its stockpile of gamma globulin, polio paralysis preventive substance, from the Ohio Department of Health, Dr. N. Sifritt, health commissioner, reported today.

The amount of GG — as it is commonly called — allocated to Marion County was not announced. The method of determining who can get a dose of the paralysis-preventing substance is in the hands of the health department, which is to be notified by the physician handling a polio case.

Since GG cannot prevent epidemics, state health department officials believe it is not necessary to give GG to everyone. Their records indicate that about 80 per cent of adults have had the disease in a mild form, and have therefore built up an immunity to at least one type of the disease.

Through the assistance of the advisory committee set up by the state health department, local health departments have the responsibility of distributing the 6,000 Ohio doses fairly and in the best method according to scientific knowledge.

Because GG is extremely scarce, it was carefully allocated nationally by the Office of Defense Mobilization to the various state health departments. They, in turn, acting on the advice of an advisory committee, allocated the supply to the health departments.

Allocation of the human blood derivetive on a national scale was made on the basis of the average number of polio cases reported by each state during a five-year period. For example, in Ohio 7,407 cases were docketed from 1947 to 1951, with the average per year being 1,481. Since four average doses of GG were allotted for each case, Ohio's initial allocation was approximately 6,000 average doses.

Some people have the mistaken idea that GG prevents polio, Dr. Sifritt said. Instead, it prevents the paralysis resulting from polio, he pointed out. Gamma globulin is a fraction of human blood which carries anti-bodies, the chemical substances formed by the human body to help fight disease, he explained.

"When we inject GG we are injecting antbodies that fight the polio virus and prevent paralysis, but this artificial protection lasts about four to five weeks," Dr. Sifritt said. "It doesn't last as long as the natural protection we receive from having had the actual disease."

In order to tell Ohioans what gamma globulin is and what it can do, the Ohio Department of Health has prepared a series of 15-minute radio programs which will be presented locally today and Wednesday at 7:15 p.m. over Radio Station WMRN by the Marion County Health Department.

Dr. John D. Porterfield, Ohio Director of Health, and Dr. Miner Seymour, Columbus pediatrician, participate in the programs. The series will be repeated July 7 and July 9 at 1:45 p.m.

Friends Bale Hay for Victim Of Accident

Neighbors and friends of a Marion County man who was seriously injured in a farm accident recently came to his aid Saturday afternoon.

The group of 47 persons assembled at the home of Rowland McElheny of near LaRue Saturday afternoon and baled and stored his hay for him. He is confined in Hardin Memorial Hospital, Kenton.

McElheny suffered a fractured pelvis and fractured spine in the accident on his farm Sunday night, June 21. He had attempted to start a stalled farm truck by pulling it with a tractor and while he was unfastening the chain used in towing he told his son. Rowland, 11, to drive the farm tractor away. The tractor, in reverse gear, backed over McElheny.

More than 2,000 bales of hay cut earlier in the week were baled and stored in barns by the neighbors and friends in a period shortly before 1 p.m. to 5:30 p.m.

Work was carried on simultaneously in three different hay fields with the baled hay being stored in three barns. Equipment used in the operation, six hay balers, some 20 wagons and some 15 tractors, were furnished by the neighbors and friends. The McElheny family supplied refreshments for the workers.

McElheny, the son of Mr. and Mrs. Theodore McElheny of near LaRue, is a member of the LaRue Board of Education and a past commander of the county American Legion Council.

Ike's Forces Shift Tactics In Tax Fight

WASHINGTON (AP) — House Republican leaders today dropped their move to force House consideration of the excess profits tax bill without action first by the tax-writing Ways and Means Committee.

In a last-minute shift of tactics, aimed to avert a bitter floor battle, they dropped this maneuver and put on pressure for the ways and means group to act on the bill.

Apparently, they were convinced the committee would act on the bill—extending the excess profits tax for six months — despite the die-hard opposition of ways and means Chairman Reed (R-NY).

To cheers from the House, GOP Floor Leader Halleck (Ind) announced the leadership's decision not to press a move to get the bill to the floor by a special rule from the Rules Committee.

Halleck said he was convinced the bill would be "handled in the normal matter by the Ways and Means Committee."

Reed, 78 years old and the oldest Republican in length of service in the house, got up after Halleck to declare:

"I'm not surrendering."

Reed demanded a showdown vote then and there, saying it was a matter of principle as opposed to expediency.

"Let's get the vote now and see where you stand," he said. "Stand up like men."

Despite Reed's opposition his committee could be forced to meet and vote on the tax bill by a petition signed by a majority of the 25-man group.

The indication from Halleck's announcement was that the leadership had determined by private canvass that this would be done.

SOLDIERS COMING HOME

Sgt. R. R. Clark, of 235 Silver St., and 1st Lt. P. Hilty of Kenton will arrive in New York Thursday aboard the transport Gen. Sturgis direct from Korea, The Associated Press reported. Sgt. Clark lives with his grandmother, Mrs. Goldie Clark.

This Firm Unfair To Enterprising Burglars

PORTLAND, Ore. (UP) — A burglar went to a lot of trouble at a local cleaning and dye works.

He climbed a power pole, jumped onto the roof, pulled out a skylight, squeezed between bars nine inches apart, lowered himself inside on a 13-foot length of rope, climbed through a window panel of an office door, then over a seven-foot partition to an inner office.

The loot was 39 cents.

It takes four tons of bauxite to make two tons of aluminum.

Driver Charged In Traffic Death

A manslaughter charge was filed today against the driver of a car which struck and killed Myron E. Ralston, 27, of 408 E. Fairground St. in Marion early Saturday morning.

Walter Lee Balch, 27, of the Werley Hotel, who was arrested by police following the accident on N. Main St. at 1:16 a.m. Saturday, was formally charged today in an affidavit filed by Ralph Carhart, prosecuting attorney, and was cited to appear in Municipal Court.

His car struck Ralston, who was riding a motorcycle, at the intersection of George and Main Sts. The auto was making a left turn into the path of the motorcycle.

The accident was Marion's first fatal accident since last Oct. 7.

In Municipal Court today, Balch pleaded not guilty. Bond was set at $1,000. A hearing will be conducted within the next few days, according to Judge W. Dexter Hazen.

Churchill, Eden Out, Britain Calls On Second 'Team'

LONDON (AP) — Britain's acting cabinet boss, Richard A. Butler, said today Britain is negotiating with the United States and France for a quick stop-gap meeting on common problems in advance of the postponed Bermuda conference.

Answering a barrage of House of Commons questions touched off by Prime Minister Churchill's temporary retirement, Butler said Britain's representative at this "interim meeting" would be Lord Salisbury.

Salisbury, as lord president of the council, has taken over some foreign policy responsibilities since the absence of Churchill and Foreign Secretary Anthony Eden.

Butler refused to say now where the interim meeting would be held.

Butler, whose normal job is chancellor of the exchequer, brushed off Laborite suggestions that the absence of Churchill and Eden leaves the foreign office inadequately controlled. He said Salisbury, 59, a foreign undersecretary before World War II and since then holder of varied ministerial jobs, has the right experience and will be aided by Minister of State Selwyn Lloyd and two under secretaries.

"The foreign office will be in exceedingly good hands," Butler said.

Hunt 20 After East Coast Ship Crash

U.S. Tanker, Cargo Ship From Brazil Collide in Fog

BARNEGAT CITY, N. J. (AP)—A heavy oil tanker and a Brazilian freighter crunched together in a thick fog off the New Jersey Coast last night and from three to 20 persons were feared lost at sea.

The Coast Guard listed one crewman dead and two injured in the collision between the S. S. Loide Panama and the S. S. Gulftrade 12 miles off shore. Rescue craft plucked 27 persons from the water.

Search crews sought others throughout the night, but they didn't know whether they were hunting three persons or 20 because of language difficulties with the Brazilians.

However, they tended to believe three was more nearly correct, although a tag of "unaccounted for" still was on 20 men.

Both the casualties and the rescued were from the Panama, a 5,408-ton freighter, which first was reported "in a sinking condition" and then standing at only a 25 degree list.

The 10,195-ton Gulftrade, owned by the Gulf Oil Company, had no casualties, but suffered a bashed bow. It stood by, helping in rescue operations.

A score of Coast Guard boats, including cutters and smaller rescue craft, and lifeboats from the Africa Endeavor, a merchant ship which reached the scene first, criss-crossed the murky waters in a hunt for survivors. A plane and two helicopters droned overhead.

Even as they looked, a rumor went around among the searchers that most of the unaccounted for men still were aboard the Panama.

A Coast Guard spokesman said, "we haven't been able to pin it down yet, but indications are there may well be something to the report."

He said language difficulties prevented the rescuers from learning from the Portugese-speaking Brazilians just what the situation was.

Major Flood Hits Japan, Toll Rising

By The Associated Press

TOKYO (AP) — A great flood that left more than 2,000 persons dead, missing or hurt and a million homeless receded today on the Southern Japan island of Kyushu but dark rain clouds posed an ominous new threat.

Seven days of torrential rains turned much of the northern part of Kyushu—an area about the size of New Jersey — into a vast lake. The hapless Japanese residents fled to any high ground they could find.

By late afternoon today, the known death toll stood at 409. It was expected to rise when those missing—now numbered at 1,178—are accounted for.

Police said several villages were washed away and 350,000 homes were destroyed or damaged.

Relief was rushed to countless stricken villages and cities. The U. S. Air Force dropped food and clothing to isolated groups of refugees scattered on islets of high ground jutting from the flood.

Among those saved from the raging streams were American sailors, soldiers and Marines and their families. Some were taken from a stalled train near Moji and housed in the U. S. Army recreational facilities at that Northern Kyushu city.

Fukuoka, the island's largest city with 392,649 population and nearby Moji, with 124,399, were almost ghost cities their residents evacuated before the surging flood.

Some of the dead and missing drowned in the swollen rivers. Others died as soaked, slidding earth crushed their flimsy homes.

Thirty - seven Americans were rescued Saturday from the Aso Kanko Special Services Hotel, which was nearly buried by a landslide.

The Americans, including 29 servicemen, the wives of six of them and two children, were moved by hastily-rigged breeches buoy across 40 feet of churning flood water and taken to the U. S. Army's Camp Wood for treatment, food and dry clothing.

Three big American bases on high ground have escaped damage so far. The big naval base at Sasebo, in Northwestern Kyushu, has not been seriously damaged.

The cloudburst and floods paralyzed Kyushu. Communications and industry lay quiet.

Damage was expected to run into the millions of dollars.

Delayed reports reaching Tokyo told of large-scale rescue and relief work by the U. S. Army and Air Force.

All units and installations on the island have been placed on a full-time emergency basis and are supplying all possible assistance and relief, a Public Information Office announcemnt said.

Children's Home Shown

(Continued from Page 1)

chairs, and chests of drawers are of birch. Floorlamps provide plenty of light and shades harmonize with the upholstering of the comfortable chairs. The walls are painted a maroon shade and one end is covered with a large map of the United States, with the capital designated and a drawing depicting an industry or other characteristic of each state. The gay window drapes, with cowboys and bucking broncos, were selected by the boys, while pictures on the walls were chosen and purchased by the boys, through the saving of tax stamps. Purchased, but not yet here are two open-end desks, matching the rest of the furniture. These will accommodate four boys for reading, study or writing lessons. A prized possession of the little fellows are the footlockers, provided by the Marion Federation of the Child Conservation League. These hold the priceless books, souvenirs and other valued possessions.

Three connecting rooms are occupied by the larger boys and from them go a great big "thank you" to the Exchange Club. Anything—just so it is red—was the vote of the boys when it came to choosing a color. Drapes are red and there is red in the wallpaper. For contrast the lampshades are green and the chairs are in harmonizing colors. Before the new floor covering was placed the boys laid a padding of masonite. Here also will be desks for study, reading and writing.

The activities room, a gay cheerful place, is used for special programs at Christmastime and other holidays, Girl Scout meetings, school parties, square dances and other festivities. Shelves hold toys and books for rainy days and the children meet here for study during school terms. The boys belong to a Boy Scout troop in Marion and Mr. White is a Scoutmaster. This room was refurnished last year by the Junior Service Guild.

Girls Room

Many windows provide a cheery atmosphere in the girls living room where they assemble for quiet play, reading, needlework, knitting and other activities. Shelves and drawers provide space for personal belongings. There also is a playroom for the smaller girls. In the older boys' recreational room are game tables and a piano, while in the basement provision is made for recreation for the small male fry including a "jungle gym," a series of bars guaranteed to work off any excess energy. The game rooms are practically abandoned during the summer months when the boys are busy with farm work, tending pets and outdoor sports.

It is in the dining room that the "family" really gets together. Here the children and grownups watch television and, when the spirit moves, there is group singing and impromptu readings and songs by the children. Topics of the day are discussed as the children gather at small tables, together with Mr. and Mrs. White and the home staff, for meals served family style. A pet parakeet joins in for the singing. Tables, laid with white tablecloths, are arranged for six and, adding color are the chair backs in six different colors. The windows are gaily curtained and providing material for endless discussion is the mural depicting a military sceen which covers one end of the room. A year-round Christmas gift are the popup toasters,—one for each table—which provide the breakfast hot toast. Meals are served on colorful plastic dishes.

Separate dormitories are maintained for the smaller and larger girls. These also are colorfully finished, have double deck beds, and chests. Personal belongings such as tiny lamps, books, etc., add a decorative note and there are dolls of every size and description.

New Board Fence

New this year is the white board fence enclosing the yard. This is not only decorative but serves as a reminder to stay off the highway. The older boys helped build the fence and did all the painting.

Sharing the work is also on the family plan. The boys and girls help with the kitchen and dining room chores in addition to making their own beds and also share with the outside work. Much of the inside painting is the work of the older boys who also help with the farm work.

School activities take the spotlight during the fall and winter, but summer vacatons are filled with their share of fun. For play there is a Collie dog, (busy right now rearing two puppies), three kittens, a pony and rabbits. Two of the boys are raising pigs as a project and girls have their 4-H Club work and Girl Scout activities. Once a week there is swimming at Crystal Lake, once a month skating at the Hy-Way Rollarena, a show at the South Drive-In Theater and a movie once a month in the city. Highlighting the summer program is the annual vacation outing at the Salvation Army Camp at Greenwood Lake.

Extra special for the Boy Scout troop this summer is the attendance of two of their members at the third National Boy Scout Jamboree to be held at Santa Ana, Calif. The boys, Earl Close and Garold Lowery, will leave July 12 with other Boy Scouts, for the three-week trip.

The boys are working hard to earn money to help finance the trip and funds also are being furnished by organizations interested in youth.

In order to avoid confusion Sunday, the employees and children had a picnic dinner at a roadside park and in the afternoon the children attended a movie.

The children, from the tiniest to the most grown-up, shared the work and took a great deal of pride and interest in setting the stage for the open house Sunday. In celebration of its success, one of these days, the more than 40 youngsters, together with Mr. and Mrs. White and the staff, will take off in the school bus for an outing at the Columbus Zoo or some other interesting spot.

Five Members Of Richwood Family Hurt

Injured in Auto Crash on Way To Canadian Vacation

A Union County woman is in serious condition in a Flint, Mich., hospital and four other members of the family are in the hospital following a traffic accident near Flint early Sunday morning.

Mrs. George Retterer of near Richwood, a rural route carrier for The Marion Star in the Richwood area, is reported to be in serious condition in Hurley Hospital at Flint. She suffered a head injury, broken bones in both legs and possible internal injuries. Others in the hospital are Dean, 11, fractured ankle; Richard, 6, fractured arm; and Janet, 12, and Dale, 22, possible concussions. Mr. Retterer was uninjured.

The Retterer family were headed for Canada for a vacation and had left Marion Saturday evening. Their car was hit head-on by another car on Route 23, a four-lane highway, 10 miles north of Flint. The accident occurred at 5:30 a.m.

The other car, it was reported, was coming in the opposite direction from the top of a hill and the driver applied his brakes to obsere a stop light at the bottom. The brakes failed and the car slid down the hill and across all three lanes and hit the Retterer car.

Dale, 22, was driver of the Retterer car. A freshman at Bliss College, he recently was discharged from the Army. The Retterer car, was extensively damaged.

Mrs. Cecil Charles of near Richwood, daughter of Mrs. Retterer, went to Flint Sunday to visit the Retterer family.

by E. J. Rinehart, a neighbor, who was operating a tractor in an adjoining field. Rinehart told Richland County sheriff's deputies that he heard Roger crying for help, and waded into the pond after Myron, who could not swim.

The boy was born in Galion, the son of John and Mable Yentzer Hahn, Sept. 24, 1946. His father is a partner in the Market Street Mills, Galion. The family home is now near Mansfield, three and one-half miles east of Galion.

Surviving besides the parents are two brothers: Roger and Danny, both at home; a grandfather, George Hahn of Shanandoah; and great grandmother, Mrs. Rose Hershey of Mansfield.

Boiler Blast Kills 2, Hurts 12 at Dayton

DAYTON, O. (AP)—Two men were killed and about a dozen others injured today in an explosion at the Dayton Rubber Co.

The victims were Steve Pappas, about 30, of West Alexandria, and Hoyle Summers, 40, of Dayton.

Reports indicated a hot water boiler exploded in the men's washroom. The dead and injured were part of a crew which had just come off duty and was cleaning up before leaving the plant.

The blast occurred about 6:30 a. m.

37th Officers Get Dates on Release

CAMP POLK, La. (AP)—Ohio National Guard officers serving here with the 37th Infantry Division have been informed of the approximate dates they will be released from active duty, it was announced today.

About 200 officers will be eligible for release between Aug. 15 and next Jan. 4.

Maj. Gen. Leo M. Kreber, division commander, said 48 will be released between Aug. 15 and 31, some 160 on or before Nov. 15, and only 16 will remain here after next Jan. 1.

Break-in at Filling Station Nets $400

Police reported that at 5:12 this morning the Parish Marathon service station on W. Center St. was broken into and a small safe was stolen. The safe contained between $300 and $400 in checks, bills, change and other articles. Entrance was gained through the rear door of the station.

Legion Post to Give Flag to Railroad

Bird McGinnis Post 162, American Legion, will present an American flag to the Erie Railroad at the open house Tuesday.

The flag will be presented at a ceremony at the diesel shop in which the Drum and Bugle Corp of the post will play.

Fires

room and a partially burned cloth sack in another room.

Chief Sifritt said the sack was about half full of cement and had been placed against a wall in a toilet room. He said both the rag—which was on the floor in the corner of a vacant closet—and the sack burned without setting fire to the walls. There was only slight damage, he said.

Meanwhile, arson investigators Raymond LaMonda and Merlin E. Mitton of the state fire marshal's office continued their investigations into the series of eight fires which started with three the night of June 15. That night fires at the Erie Railroad freight house, the Betty Zane Corn Products Co. plant, and the Shovel Co. farm, caused damage of $220,000.

Damage Totals $365,000

These together with Friday night's fire at the Farm Bureau Grain Elevator on Park Blvd. where damage was estimated at $100,000, and two others blamed on defective wiring have caused estimated fire loss in six major fires this month to some $365,000.

Assisting in the investigations by local officials is John Kennedy, a representative of the Mutual Investigation Bureau of Chicago. This organization assists in investigations of major fires throughout the United States.

Mitton said today that one person was taken into custody over the week end for questioning in connection with the Farm Bureau fire but was later released.

He said that dozens of persons have been questioned and every possible lead is being traced down. So far all types of clews have been investigated, but all have proved useless in finding whoever is responsible for setting the fires, Mitton said.

He said their investigations have taken them to other nearby towns to check on the activities of various persons and in each case alibis for the suspects have been established.

Meanwhile, attempts to curtail the activities of whoever is responsible for setting the fires have been undertaken.

Fire Chief Sifritt and LaMonda spent most of the night Saturday night touring the city in the hopes of spotting someone attempting to start a fire at some business or industrial plant building. Chief Sifritt said they drove around these buildings because they seem to be the favorite target of the "firebug."

At the same time, all Marion policemen and deputies in the Marion County sheriff's department have been placed on alert and are keeping a nightly watch on all buildings in the city and county.

Asks Police Cooperation

Mitton said that anyone who has any information at all, no matter how small or insignificant it may seem, should report it to himself, LaMonda, Fire Chief Sifritt, Police Chief Coon, Sheriff Glenn Obenour, or any firemen, policeman, or sheriff's deputy.

Any clew whatever will be appreciatetd, Mitton said.

Actual progress in the investigations this morning was slight. However, some definite theories have been developed.

One is that the pyromaniac is someone who has had experience working around railroad cars either for a railroad company or in some other work connected with the loading or unloading of railroad cars.

Another is that a group of juveniles are setting the fires just for the excitement.

In appealing for all possible information from city and county residents, Mitton said, "this thing has gotten so serious now that it is everyones' job to assist us in our investigation and search for the culprit or culprits."

3 Other Calls

In addition to the fires deliberately set over the week end, firemen were called out three other times.

At 1:18 p.m. Sunday, firemen from the W. Center St. station answered a call to the south end of Plymouth St. at the New York Central Railroad tracks. An unidentified person had reported a fire in a Pennsylvania Railroad car parked on a siding. The fire turned out to be an overheated journal box on the railroad car.

At 3:43 p.m. Sunday, they were called to the residence of Donald Mayse at 515 Decatur St. where lightning struck electric lines leading into the house. The lightning burned the wires and caused about $25 damage to the house, firemen estimated. This call was answered by firemen from the Central and Mark St. stations.

They were also called to the Marion Plating works on Bellefontaine Ave. at 12:40 a.m. Sunday when a passerby saw what he thought was smoke from a fire inside the building. This turned out to be fumes rising from electro - plating tanks, Chief Sifritt said. Firemen from the Central station answered this call.

Urges Senate Postpone Cuts

Taft Steers Foreign Aid Bill Through Committee

WASHINGTON (AP) — Sen. Taft (R-Ohio) today urged that the Senate postpone any further cuts in the administration's $5,318,000,000 foreign aid program until later action by its appropriations committee.

In advance of the opening of debate on the program today, the Ohioan said in an interview he feels the place to make any fight for fund reductions will come when the Senate considers a bill for actually providing the money which would be authorized in the pending measure.

The Senate foreign relations committee approved the authorization bill, which would set a ceiling on the amount of military and technical assistance to be given U. S. allies. Taft said he believes the appropriations committee headed by Sen. Bridges (R-NH) is in a "much better position" to decide how much money actually should be spent.

"The appropriations group has a more adequate grasp of where cuts can be made," Taft said. "It can make its decision after it finds out just what funds are left unspent from previous years."

The Joint Committee on Reduction of Federal Expenditures, headed by Sen. Byrd (D-Va), reported yesterday that on April 1 there was $12,700,000,000 in unexpended balances in appropriations made to the President, mostly in foreign aid.

Two Injured In Week-End Accidents

Henry Tong, Former Policeman, Suffers Broken Leg in Mishap

Two injuries as the result of traffic accidents were reported to police on Saturday. The two persons injured were Miss Sara Dawson, 30, of 242 Olney Ave. and Henry Tong, 53, of 324 Pearl St.

Miss Dawson suffered a bruised knee when struck by a car driven by Francis W. Chisser, 34, of Shelbyville, Ind. as she was crossing North Main St. in front of Tate's Clothing store. The accident occurred at 11 p.m. She did not require hospital treatment.

At 8:23 p.m. Saturday, a former Marion city policeman, Henry Tong, suffered a broken right leg and bruised left leg as he was struck while crossing Park Blvd. at the intersection of Church St.

Driver of the car which hit Tong was Miss Dorothy May Rentschler of the Oakland Trailer Court, who was not held by police.

Tong was taken to City Hospital in a Gunder ambulance.

A car driven by Raymond I. Potter, 46, of Lorain was slightly damaged in the left front when struck at the intersection of S. Prospect St. at Columbia St. by a car driven by Ross Venricks, 38, of Middletown. Police said Potter's auto was stopped for a red light when hit. The accident happened Sunday at 3:55 p.m.

Sunday at 8:19 p.m., cars driven by C. H. Jerome, 68, of Cortez, Fla. and Randolph McClelland, 69, of 332 W. Church St. collided on W. Center St. in front of May's Jewelry Store. Both cars were damaged.

An accident involving two Michigan drivers occurred at N. Main and Hazen Sts at 5:05 Sunday afternoon. A car driven by Edgar Mounty, 23, of Dearborn was badly damaged after striking the auto of Thelma Ward of Kalamazoo, which was stopped at the intersection. Mounty gave his speed as 20 to 25 miles per hour at the time of the impact. The rear end of Miss Ward's car was damaged but the car was still in driveable condition.

At 5:05 Sunday afternoon, a car driven by Dale Helea, 24, of 245 Reed Ave., was damaged in the rear end when struck by an auto driven by Warren J. Quaintance of near Marion: Helea was stopped at the intersection of Church St. and Park Blvd. Damage was reported to the front end of Quintaine's car.

A car owned by Dale George of 618 Evans St. was damaged in the left read side when struck by an auto driven by Jimmy Ray James, 15, of 369 Milbourne Ave. at 6:26 p.m. Sunday. George'c car was parked in front of his house.

The car of Mrs. Dale Lawrence of near Marion had to be towed to a garage after a collision with the car driven by Wilmer S. Fadore, 62, of Mt. Gilead on E. Center St. at Clover Ave. Sunday at 11:50 a.m. The front end of Mrs. Lawrence's car was smashed in and the right side of Fadore's car was damaged.

A collision at Lincoln Park and Prospect St. resulted in damage to the front end of the car driven by Harry S. Page, 28, of 295 Breen St. and to the rear end of the auto of Paul B. Daum, 24, of 444 Evans St. The accident took place at 1:01 Sunday afternoon.

At 9:15 a.m., Saturday, Wesley W. Woodworth, 30, of Owosso, Mich., was arrested and charged with driving on the left side of the center line on N. Main St. He was fined $15 and costs in Municipal Court.

Arthur Raymond Wemmer, 44, of Detroit, Mich. was arrested at 9:30 Saturday morning on the same charge. He also paid a fine of $15 and costs.

At 2:15 Saturday afternoon, Robert L. Borders, 23, of 367 N. State St. was arrested on charges of driving his car with an open muffler. He was scheduled to appear in court today.

George R. Nawman, 26, of Fredericktown was charged with speeding on S. Prospect St. Sunday morning. He posted a $35 bond for an appearance today.

William M. Dawson of 492 Lee St. was arrested Sunday morning at 2:58 and charged wtih speeding on St. Prospect St. and with failure to register his automobile. He was cited to appear in court today.

Kathryn P. Davies of Ormond Beach, Fla, was arrested Sunday morning and charged with failure to have the safety chains of her trailer secured. She was to appear in court today.

Leon Downing of 1026 N. State St. was arrested at 1:34 Sunday afternoon and charged with reckless driving and driving with an open muffler.

Howard T. Frost of 209 Plymouth St. was arrested at 1:22 this morning. He is charged with driving with a temporary permit while no licensed driver was in the car. He is scheduled for a hearing today.

Robert A. Cummings of Peoria, Ill. was arrested at 8:05 this morning and charged with operating a car on the left side of the center line.

Chief Clears Stand On Dept. Needs

Marion Fire Chief Owen A. Sifritt today said he wished to clear up any misunderstanding which may have arisen from a story about his requests for more firemen and equipment which appeared in Saturday's Star.

He pointed out he had recommended in his annual report submitted the first of this year that there be two new fire stations constructed in the city and that sufficient new equipment be purchased and new firemen employed to man the stations.

He said he did not mean to imply, in citing this need for more equipment and men, that the department was shorthanded in fighting the Farm Bureau blaze Friday night. He feels, rather, that the city should have more equipment as a safety precaution.

The chief said that while at one time every available piece of city equipment in operating condition was in use Friday night, no additional equipment was needed.

If more firemen and equipment had been necessary, the Marion Engineer Depot fire department could have been called in to assist the Marion fire department, he pointed out.

Drought

(Continued from Page 1)

Smith, county agricultural extension agent, have reported both corn and bean crops poor this year because of the steadily dry weather. Some beans, Smith said, didn't come up because of slightly weak germination, a result of the dry weather. He added that most of the beans have been planted but still more will be put in this week.

While corn and beans have suffered from the dry spell, wheat and hay crops are good. The wheat harvest is expected to begin next week.

Family Sees Deer On Road Near LaRue

A drive Sunday afternoon ended in a pleasant surprise for a Marion couple and their daughter.

Mr. and Mrs. Frank Cahill of 158 N. Grand Ave. and their daughter, Mrs. Richard Baldauf of 619 Mary St., saw a deer near LaRue. It was the first time either of the three had seen a deer.

The deer was described as a good sized one by Mrs. Cahill. They were driving back to Marion on Route 95 and were about three miles out of LaRue between there and New Bloomington when they saw the animal.

The deer leaped over a fence near the road and disappeared in a woods some distance from the road after the car was backed up and stopped.

SERVICES CONTINUE

Special services at the Maranatha Bible Church will continue this week, Tuesday through Friday, with a closing meeting and picnic Saturday at Upper Sandusky Park. Tonight is "rest night." Activities of the congregation the last two weeks have included Vacation Bible School, and during the last week the evangelistic effort has been under way. The Rev. Charles Gray and Mrs. Gray of Dennison, O., are the guest workers. Nightly services are at 7:30. On Saturday, a picnic will be held at noon, followed by an open air service at 4 p.m. Numbers will be presented by the Grays as well as other music by members of the congregation.

Edison First Graders Visit Fire Station

EDISON FIRST GRADERS learned all about fire fighting during a recent visit to the Edison Volunteer Fire Station. The youngsters and "Fire Chief" Eddie Zuspan, standing to teacher Mrs. Ida Pfeiffer's right, are shown during their visit, an annual event for the first grade class.

"Echoes" Feature Of Green Camp Society Meeting

Special to the Star

The June meeting of the Baptist Missionary Society was held recently in the church parlors. Mrs. Claire Porter was in charge of devotions and led in prayer.

Mrs. Arwilda Dreyer, Mrs. Marie Weston, and Mrs. Doris Bosse were named on a committee to arrange for the dinner when young people of the church spend the day at Camp John A. Owens in July.

Mrs. Elizabeth O'Hara was program chairman. It featured "Echoes from the House Party" recently held by Baptist women of the district at Granville. Assisting Mrs. O'Hara was Mrs. Donna Ruth Jones, Mrs. Grace Disterdick, Mrs. Anna Kegg, Mrs. Dorothy Townsend and Mrs. Claire Porter. Mrs. O'Hara read a letter from a Baptist missionary in India.

Miss Ruth Dreyer was a guest. She was graduated this year from the Baptist Missionary School in Chicago. Beginning in August Miss Dreyer will take up her duties as the director of Christian education in the First Baptist Church at Lima.

Hostesses for the meeting were Mrs. Grace Disterdick and Mrs. Anna Kegg.

Special to The Star

EDISON—Serving as fire chief gave Eddie Zuspan quite an experience at the Edison Volunteer Fire Station during the annual visit of Mrs. Ida Pfeiffer's first graders to learn about the fire fighting business and take the annual "run" through the village streets.

First graders are an inquisitive set according to assistant fire chief Howard Long, Edison groceryman, who takes time out from business to give the kiddies their great ride.

"How do you get fat women out of a house that's on fire"; "Why is the Chief's hat white"; "How much does the hose weigh" and "How big are the ladders", were a few of the perplexing questions to answer.

Members of the Edison Volunteer organized in 1947 to serve Edison village, Canaan, Washington, North Bloomfield and Gilead Townships. They purchased a 500 gallon Studebaker tank truck and other equipment after erecting a new brick fire house.

Warren Hildebrand now serves as fire chief.

Maranatha Meetings Enter Second Week

Beginning the second week of evangelistic meetings at the Maranatha Bible Church, the Rev. Charles Gray of Dennison, O., will preach Sunday. There will be a baptismal service at the beginning of the evening service, and the special meetings will continue each night except Monday through July 5.

At 8 a.m. Sunday, a group from the church will conduct chapel service at the Marion Training School. For the Bible Fellowship radio broadcast over Station WHKC, Columbus, at 9:30 a.m. Sunday directed by the Maranatha Church pastor, the Rev. Earl L. Holliday, the Rev. Mr. Gray and Mrs. Gray will take part in the program.

Vacation Bible School at Maranatha Church closed Friday with a demonstration service. Reported on the roll were 124, with average attendance of 90 for nine days.

GUN BACKFIRES

DETROIT (UP)—Mrs. Katherine Scott, 26, got more than she bargained for when she walked into police headquarters, took a gun from her purse and said, "I've just killed a man." She later explained she just wanted a night's lodging in jail. Police obliged, and also charged her with carrying a concealed weapon.

Sunshine Garden Club Members Visit Cardington

Following a business meeting at the home of Miss Maxine Hawk of Cardington, Sunshine Garden Club members toured the flower garden of Mrs. Ralph Feld, regional director. They also viewed cactus plants, stuffed animals and other trinkets Mrs. Feld had collected while traveling.

During the business meeting, Scripture was given by Mrs. Richard Blank and roll call was answered with each member's favorite rose. Mrs. Richard Blank, Mrs. Perry Seiter and Mrs. Edward Thomas were named to the nominating committee to select new officers for the coming year. Mrs. David Lust and Mrs. Edward Thomas were appointed to select a meeting place for the Sept. 16 luncheon.

An invitation and book of rules was received from the Pleasant Garden Club for the club to exhibit displays in different classes of their flower show to be held Aug. 1 and 2, under the theme, "Beautiful Ohio."

Mrs. James O'Brien won first place honors for corsages made from vegetables or flowers, grown by the members.

Mrs. Edward Neidhart was a guest.

The next meeting, July 15, will be at the home of Mrs. George Lust.

DONALD T. FORSYTHE

Illinois Publisher Named Kiwanis Head

Donald T. Forsythe, publisher of The Carthage Journal, Carthage, Ill., was named president of Kiwanis International during the 38th annual convention held last week in New York City, N. Y. He succeeds Walter J. L. Ray of Detroit, Mich., as head of Kiwanis International, which is comprised of over 3,600 clubs throughout the United States, Canada, Alaska, Hawaii and the Yukon Territory.

Forsythe has been a Kiwanian for 27 years and will assume his office Aug. 1. During the past year, he served as treasurer of Kiwanis International.

Official delegate to the convention from the Marion Kiwanis Club was Lester L. Dickey, president. He and Mrs. Dickey returned home Saturday from the event.

IN THE SERVICE

Two Marion County men have arrived at the 2053rd Army Reception Center at Ft. Meade, Md., for their initial indoctrination into the Army. They are Pvt. Clifford E. Kincaid, 20, son of Mr. and Mrs. Daniel C. Kincaid of N. Milburn Ave, and Pvt. Stanley J. Sobas, 20, son of Mr. and Mrs. Walter Sobas of near New Bloomington. They will be sent to an Army installation for basic training shortly.

Dallas E. Austin, son of Mr. and Mrs. C. D. Austin of Upper Sandusky, was recently promoted to private first class while serving with the 482d Engineer Water Supply Co. A veteran of 11 months Army service, he arrived in Korea last February. He attended Central Junior High School and was bar tender for Rosebud Bar and Grill in civilian life. His unit is part of the Korean Base Section which provides supplies, services, communications and transportation for the UN fighting forces. The base section includes most of the major military installations in the southern portion of the Korean peninsula.

Cpl. Franklin Dyer, son of Mr. and Mrs. Carl A. Bloom of Kenton, is returning to the U. S. under the Army's rotation program after five months in the Far East with the 1st Cavalry Division. Corporal Dyer was a radio operator in Headquarters Company of the 8th Calvalry Regiment's 3d Battalion. Before entering the Army in November 1951 he was a typesetter for the Kenton Daily Democrat. As part of the U. S. security forces in Japan the 1st Cavalry Division is constantly undergoing intensive field training. The division was rotated from Korea in late 1951 after 17 months of combat.

Two "Must" Bills Before Legislature

Salary and Motor Licensing Statutes Up for Consideration

By REED SMITH

COLUMBUS, O. (AP)— The Ohio Legislature begins its 26th week today with two measures requiring action to prevent salary and motor vehicle licensing statutes from expiring July 1.

The Senate convenes at 7:30 p. m. and the House a half hour later.

About 32,000 state employes cannot draw their pay until the Senate passes a House-approved bill carrying 10 per cent salary increases for most workers and it becomes law.

The measure that cleared the House last week also gives official sanction to salary and classification changes approved by the state civil service commision during the biennium.

Rep. Sam B. Nicely (R-Clinton), a co - sponsor, said the measure provides for pay raises costing the state an extra 13½ million dollars annually.

House leaders expect action on Senate changes in a bill to extend the Fink motor vehicle licensing law past its Tuesday midnight expiration date. The Senate passed the bill only last week.

The Fink law enacted two years ago boosted truck license fees some 8 million dollars annually and required trucks to mount mud flaps over rear wheels.

Rep. Adrian B. Fink, Jr. (R-Cuyahoga) said unless the extender becomes law, Ohio will lack power to license motor vehicles and to impose overloading penalties on trucks.

The measure is a part of the Republican highway program that now looms as the major roadblock to legislative adjournment sometime in July—seventh month of the current session.

Key measure in the highway program is a proposal to tax big trucks. Senate Taxation Committee members said action on the truck tax and possibly other program should come this week.

The House has approved an axle-mile tax based on the number of truck axles and the miles the vehicles travel, a proposal similar to the ton-mile tax urged by Gov. Frank J. Lausche, Senators appear to favor a tax based on gross weight.

Leaders of the Republican-controlled Legislature want a highway program enacted before working sessions end. The program envisions new arterial roads between major cities.

House Speaker William Saxbe (R - Champaign) told representatives last week to resist pressure for premature adjournment. He urged "an extra week or two" to complete work without undue haste. Saxbe warned against pressure from "outside interests trying to create unrest for selfish purposes to get out of here."

Legislative leaders expressed belief Senate and House differences over appropriations and school subsidies are nearing accord. Those issues, with the highway program, are the major roadblocks to adjournment.

The Senate votes tonight on bills to empower public agencies to appeal adverse court decisions.

The House votes on a measure requiring coal strip miners operating near highways to post extra bonds as a guarantee against road damage.

Under the Sea

By Hal Boyle

SHELLY BAY, Bermuda (AP)—Do you ever feel like you want to get out of this world?

Well, one way is to go for a walk on the ocean floor. Then you are in a strange and exciting world, and a wonderful one to see. Tropical fish are a lot prettier than most people, and, by and large, more sincere.

I was somewhat less than eager when Bronson and Martica Hartley, who escort tourists on conducted tours of the sea bottom, suggested I make a deep sea dive.

"It has been a long time since I got my Boy Scout merit badge in swimming," I hedged. "And besides, it was in clam water and I didn't even get my ears wet."

"You won't get your ears wet this time, and you don't even have to hold your nose," said Martica, and added pleasantly:

"We've taken down more than 6,000 people in the last five years—and we brought at least 90 per cent of them back."

She maneuvered me over the side, and a huge, 75-pound diving helmet descended over my head.

"Oh, no," I murmured, glancing out the window panel and feeling like a fugitive from a TV space cadet program. Martica gave me a friendly push, and down I sank slowly to the sea bottom.

And if the helmet had been on your head, this is how it would go:

Everything except the quick-darting small fish is in slow motion. You have a feeling of floating and sinking, rising and falling. You can't walk standing upright. You move in a crouch, moving one leg slowly and finding a footing before you draw up the other leg.

Hartley looks out through his helmet and grins. He takes you by the hand and leads you to a coral reef outcropping. He pats it to show you it is safe for you to hold onto. Some live coral can string and is mildly poisonous.

Everything around you seems delicate and wavy and beautifully colored. Then you are struck by the fact the only sound you can hear is your own breathing. You are in a world of rainbow loveliness and sunlit silence, a world without noise.

Hartley pulls out a knife, digs out a mussel, and cuts it opens. One half he holds behind him to draw away the eager small fish, and thrusts the other half in your cupped hand so you can feed his pet, Helen.

Helen is an angel fish, with blue-purplish stripes and bright yellow tail. Hartley has pampered her for five years and she is fat and quite spoiled. There is no doubt is is Helen. She has a purple birthmark on her right shoulder, and none of the other angel fish has one quite like it.

Helen swims brazenly up and nips away the raw mussel flesh. The other fish swarm up too late. Then they nuzzle your body, exploring each freckle, wart or mole curiously, and each touch leaves a tingling tickle.

You move slowly across the floor of the sea, with Helen following Hartley points out the branched animals that look like plants, and the plants that look like animals. In this submarine wonderland it is hard to tell whether an object is animal, mineral or vegetable.

You pick up a sea cucumber—it looks like a nest of waving worms.

You have a feeling of eerie loneliness, for it strikes you that life is even more of a desperate struggle in these watery wastes than it is upon the dry land. When you come up the side of the boat and take off your helmet, the air seems wondrously fresh and sweet and the sky never more fair.

"How far do you think you walked?" asks Hartley.

"Oh, nearly a mile," you answer.

Hartley grins again, and says: "You were never more than 40 feet from the boat."

Missionary Guild Meets With Mrs. Ralph Hedges

Members of the Florence Knauss Missionary Guild of St. Paul's English Lutheran Church were guests of Mrs. Ralph Hedges of E. Walnut St. for a meeting Thursday night.

Mrs. Earl Thatcher, president, named the following to serve on committees for the coming year: social and promotion, Mrs. William Fretz, chairman, Mrs. Hillie Brown, Mrs. Harry Lones, and Mrs. Lester Dickerson; program and magazine, Mrs. Carl Laib, calling, Mrs. J. Arthur Keever, chairman, Mrs. Hillia Brown and Mrs. Cleo McClure; Lenten services, Mrs. Paul Knauss, chairman, Mrs. Walter Wheeler, and Mrs. Paul Rudolph; sunshine, Mrs. George Barkrs; book review, Mrs. Charles Campbell; thank offering, Mrs. LaMont Lessley; special reading, Mrs. Ross Shoup; bulletin quiz, Mrs. Joe Spano; reporter, Mrs. Don Harraman.

Mrs. William Hoffman gave the program for the evening. The topic was "North American Indians" and was followed by discussion on the Lutheran Indian Mission at Rocky Boy Reservation in Montana. The meeting closed with the Lord's Prayer and Missionary Benediction.

A social hour followed the business meeting and refreshments were served by the hostess. A picnic for families and friends of the members is scheduled for July 23 at Lincoln Park.

DIES FROM INJURIES

COLUMBUS, O. (AP)—Richard B. Aronhalt, 17, died Sunday of a "delayed brain hemorrhage" that resulted from a fall last Tuesday.

Stassen Declares U.S. Misunderstood By Other Nations

ST. LOUIS (AP) — This nation's successful leadership in the world depends largely on fairness and justice without discrimination to all citizens in America, Harold Stassen, Mutual Security administrator, said today.

Stassen told delegates to the convention of the National Association for the Advancement of Colored People that "much more needs to be accomplished in the advancement of the colored peoples within America."

He said, "you also know that the rest of the world does not realize how much progress has been made by the colored peoples within America."

Misunderstanding, lack of information and "deliberate distorition by our enemies," combine to present a false picture to other nations, Stassen said.

Canadian Sect Stages Fire Raids

KRESTOVA, B. C. (AP) — New fire raids by radical Sons of Freedom Doukhobors sent 10 homes up in smoke over the weekend in an apparent attempt to steal attention from the marriage of John J. Verigin, leader of Canada's Orthodox Douks.

Put to the torch Saturday night after young Verigin was married to Laura Relkoff were four homes at Gilpin, three here and three at Winlaw. All three communities lie within the troubled Kootenary area of British Columbia.

Verigin, great grandson of Peter (The Lordly) Verigin, former spiritual leader of Canada's Doukhobors, is secretary of the Orthodox communities.

The fire raiders made their strike Saturday night just two weeks after a similar torch raid following the imprisonment of a Sons of Freedom terrorist who had been convicted of arson.

Show Dismay Over Illness Of Churchill

Press in Britain Reflects Concern Over Statesman

LONDON, (AP)—The surprise illness of Prime Minister Churchill aroused dismay in much of the British press today and the pro-Labor Daily Mirror urged Sir Winston to retire.

The 78 - year - old Conservative leader was reported to have accepted cheerfully the orders from his medical advisers to take a complete rest for at least a month.

He and Lady Churchill were luncheon hosts yesterday to their son-in-law and daughter, Mr. and Mrs. Christopher Soames, and Lord Beaverbrook, publisher of the Daily Express, at their estate near Westerham, 25 miles southeast of London. Soames said later:

"Sir Winston's condition is not such that it is likely either to deteriorate or improve from day to day. He is simply suffering from general fatigue which probably is more mental than physical."

The Daily Mirror, norminally independent but favoring the Labor party's politics, declared in a front page editorial:

"He owes it to himself, to his family and to the country to retire from the premiership. He may then still be with us at 88, still holding in our hearts a place of affection he so richly deserves and still benefiting the world with his counsels."

The London Times, a supporter of the Churchill government, said his service to Britain "must now come from his incomparable experience, the sweep of his judgment and his flashes of vision, not from detailed application, however stimulating, to departmental affairs."

The liberal News Chronicle said Churchill's illness, on top of the gall bladder operations that have put Foreign Secretary Anthony Eden out of action, point up the need of younger blood in the Tory government.

Galion Ceremony Unites Couple

GALION — The marriage of Miss Jane L. Scheerer, daughter of Mrs. Mae Scheerer of Bloomville, and Melvin E. Rinehart, son of Mr. and Mrs. Oris Rinehart of near Galion, took place Friday evening, June 19. The double ring ceremony was read at 7 o'clock in the First Methodist Church by the pastor, Rev. Norman R. Somerville.

The bride's only attendant was Mrs. Donald Kelber, sister of the bridegroom. Mr. Kelber was best man.

The bride was graduated from Bloomville High School in 1953. Her husband attended Iberia High School, and is employed at the Tecumseh Products Company in Marion. The couple are living with Mr. Rinehart's parents after a wedding trip to New York and points of interest in Canada.

Says Red Czechs Conducting Purge

VIENNA, Austria (AP) — A high Czech official says the ruling Communist party is being purged in the Moravska Ostrava coal mining region, where poor production "has damaged the entire Czechoslovak economy."

The move to jack up coal output in the key district was disclosed in a Prague radio broadcast yesterday of an address by a party presidium member, Vaclav Kopecky.

Petite Coffee Cakes Add Attractive Touch

Summer's a delightful time for entertaining but then any time is certain to be delightful when you serve these little coffee cakes. Flavored with instant coffee, they add an attractive touch to your parties, teas, luncheons or dinners.

PETITE COFFEE CAKES

Ingredients: 1 pkg. prepared yellow cake mix, ¾ cup sugar, 1½ tablespoons cornstarch, 1 tablespoon instant coffee, ¼ teaspoon salt, 1½ cups milk, 2 tablespoons butter, ½ teaspoon vanilla.

Method: Prepare cage according to package directions. Pour batter into pan. Grease a 15 by 10 by 1-inch baking pan. Line with waxed paper and grease again. Bake in moderate oven (375 F.) 15 minutes. Cool on rack. With a sharp knife, split cake in half to make two layers.

Spread filling on cut side of bottom layer. Place cut side of other half of cake over filling. Frost top of cake with coffee butter frosting. Let stand about 30 minutes. Cut into rectangles, squares, diamonds or other desired shapes. If desired, decorate with confectioners' sugar icing, pressed through a decorating tube.

For filling, combine sugar, cornstarch, coffee and salt in small saucepan. Gradually add milk; stir until smooth. Cook over medium heat, stirring constantly, until mixture comes to a boil. Remove from heat. Stir in butter and vanilla. Cool.

Coffee Butter Frosting: Beat ½ cup soft butter until creamy. Add 4 teaspoons instant coffee, 2 teaspoons breakfast cocoa and about ¼ lb. sifted confectioners sugar; blend well. Continue adding ¾ lb. confectioners' sugar alternately with 4 to 5 tablespoons milk or cream, beating well after each addition, until mixture is of spreading consistency. Makes enough for top of 15 by 10 by 1-inch cake.

INJURED ON FARM

CAREY — Gerald Kaufman, who resides on the Silverstein farm near Carey, was injured last week. Mr. Kaufman, who is quite active in wildlife conservation work, was mowing hay when he noticed a nest of baby pheasants in front of the mower. In hurriedly jumping off the tractor to chase them out of the way, he came down on the head of the lever controlling the cutter bar. The lever punctured the inside of his left leg, above the knee, at an upward angle and served the blood vessesls. Mr. Kaufman applied a tourniquet, using his handkerchief, and drove the tractor to the house, where Edward Albus, a neighbor, administered first aid. He was then brought to the office of a local physician and treated. His condition is satisfactory.

STUNNED BY LIGHTNING

CHARDON, O. (AP)—Twelvedyear-old Ted McCabe of Chagrin Falls, sitting under a tree at Lake Lucerne during a thunderstorm, was knocked unconscious Sunday when lightning hit the tree. Lifeguards revived him and he was reported in fair condition at St. Lukes Hospital.

Galion Safety Record Lauded

GALION—A special award was received by the Galion Safety Council for reducing accident frequency in Galion firms and industries 10 percent for 1952. The award was presented to the Council at its monthly meeting Thursday at Hotel Talbott by Cal Leonard, safety advisor for the Division of Safety and Hygiene of the Industrial Commission of Ohio.

Alan Ryon, president of the Council for 1952, accepted the award on behalf of the Council.

Robert Richardson of Galion, first aid instructor for the Red Cross, was guest speaker. He gave a demonstration of a new method of artificial respiration which is replacing the old Shafer method. He said this method was more effective for the victim, and more simplified and less strenuous for the adminstrator.

CIRCLE HOLDS PICNIC

The Lucy Webb Hayes Circle of Epworth Methodist Church closed its season with a picnic Thursday night at the Prospect Park. During the evening a collection was taken for a birthday gift for the girl the circle helps to support at the Ethel Harpst Home in the south. Miss Cleo Finley, supply secretary, was in charge. Devotions were conducted by Miss Etta Carter and plans for programs for next year were discussed. The Rev. Walter Eyster, pastor of the church, and his family, were guests.

When parboiling dried beans before baking, add one-half teaspoon of baking soda to each two cups of soaked beans. This shortens the cooking time and makes the beans sweeter.

Blame Soldier's Death on Lack Of Ammunition

ALLENTOWN, Pa. (AP)—The parents of an Allentown soldier killed in action in Korea June 19 said today they believe his unit faced an enemy assault without ammunition.

Two days before he was killed 21-year-old Pvt. Kenneth Lease Jr., wrote his parents:

"Well, the truce talks are still going on. It looks good, but not good enough. They must expect it to be over soon because they took all of our ammo yesterday."

The letter arrived only several hours before a Defense Department telegram telling of the soldier's death in action.

The Leases gave photostats of the letter to Rep. Karl C. King (R-Pa). The congressman said he will ask the Department of the Army to make a complete investigation.

Lease was in an infantry company in the 32nd Regiment of the 7th Division.

Grandson of Marion Residents Honored

The bronze faculty-senior award, one of the highest honors given at Cranbrook School, Bloomfield Hills, Mich., was awarded this year to the grandson of a Marion couple and the son of a former Marion resident.

He is Edward Born, son of Mr. and Mrs. Harry D. Born of St. Clair Shores, Mich. and the grandson of Mr. and Mrs. Erwin Born of 195 N. Seffner Ave. His father attended local schools and was graduated from Harding High School in 1927.

Edward, a graduate of Cranbrook School this year, was named by a faculty committee as the student, who has contributed most to the school in citizenship and general excellence in academic and extra-curricular life and athletics.

In his last year at Cranbrook he consistently was an honor student and at the same time captain of the football team and a member of the social committee, which regulates the social activities of approximately 150 boarding students. He also received an award in the regional competition of the national scholastic writing awards contest.

He plans to enter Bowdoin College in the fall. The Born family lives at 22466 Alexander Dr., St. Clair Shores.

2 Dead, 2 Hurt In Wooster Crash

WOOSTER, O. (AP) — Two men were in critical condition in Wooster Hospital today with injuries they received in a two-car accident that killed two other men.

A nurse said today Willie Walker, 27, of Milwaukee and Paul Violand, 32, of 2905 Third St., N. W., Canton, O., still were on the danger list.

Killed when the cars collided on U. S. 30 a half mile east of here were Violand's father, Lawrence, 59, of Louisville, O., and the Rev. Elbert Ward, pastor of the First Baptist Church in Madison, Wis.

e World Today

ke's Second Big Test

By JAMES MARLOW

ASHINGTON (AP) — President enhower today faced the second test of his leadership with his Republican party in Congress. The first was on an ambassador. This one is on the excess fits tax.

The House was to vote today whether to continue this tax on rporations until Dec. 31, as senhower asked, or let it die norrow, as it automatically uld have done if the President dn't intervened.

Months ago when he sought Sene approval of Charles E. Bohlen ambassador to Moscow, Eisenwer ran head-on into opposition om Sen. McCarthy of Wisconsin d some other Republicans. Eihower won. The fight left no sible party scars.

But in the case of the excess rofits tax, because of the way he ent about trying to get Congress extend it for six months, Eisenhower may have inflicted some party wounds which will not heal and may hurt him later.

In the Bohlen and tax cases Eisenhower's technique was, in a general way, the same: no personal, public quarrel with anyone. Instead, working behind closed doors, he depended upon his personal prestige and pressure upon his party's leaders to get what he wanted.

But there was a difference.

The contest over Bohlen followed the classic lines of a difference of opinion fought to a finish on the open floor of Congress: a test of strength between administration forces and those opposed to it on a single issue. It happens practically every day, in one way or another, in every administration.

But Eisenhower had made such an issue of wanting the profits tax continued, it became a stern test of his leadership. He could then hardly sit idly by while Congress—or, rather, a small group of congressmen—ignored his plea and permitted the tax to die. Or so he may have reasoned.

At any rate, apparently seeing himself facing sure defeat unless he did more than just ask for extension of the tax, Eisenhower used the full force of his party's leaders in the House to smash into congressional tradition, pride and prerogatives.

Aside from any question of whether he was right or wrong, it was a steam-roller attempt to get what he wanted, and the roller crushed some toes.

Daniel A. Reed at 78 is the oldest Republican in continuous service in the House. This New Yorker, chairman of the House Ways and Means Committee which considers tax problems, wanted the excess profits levy to die tomorrow night, as scheduled.

Almost always before the House votes on a piece of legislation, one of its committees must consider it and approve. Committee approval is the preliminary to a full House vote. But Reed wouldn't let his committee, to which the extension bill was assigned, even meet to vote approval or disapproval.

Some members of Reed's committee, Republicans and Democrats, feel as he does about the tax. Perhaps a majority do. But the fact is he wouldn't assemble them to vote and there were few protests from them or other House members.

Almost every member of Congress has his eye on a committee chairmanship some day, since a chairmanship is a position of power and prestige.

So even when a chairman or a committee refuses to approve what a majority of the House, for instance, might approve if given a chance to vote, there is great reluctance to criticize or interfere. It's the old school spirit: "Don't step on me and I won't step on you."

With the tax expiration date approaching and no sign the extension would ever be put to a floor vote—although the tax could be reimposed retroactively later—Eisenhower put the heat on his party leaders in the House. They got another powerful committee, the rules committee, to yank the extension bill out of the hands of Reed and his committee and send it to the House for a vote.

If Eisenhower acted because he thought Reed was too high-handed with him, there are members of Congress who think Eisenhower was not only too high-handed with Reed and his committee but with the traditions and procedures of Congress itself.

Should Eisenhower win today, his tactics will be remembered by those who resent them. Should he lose, he's lost more than if he had kept mum and let Reed scuttle the tax. that's part of the price he has to pay for asserting presidential leadership.

HOLD PRACTICE SEARCH

AKRON, O. (AP)—Some 150 members of the 12 Northeastern Ohio Civil Air Patrol squadrons participated Sunday in a practice search for a wrecked airplane. Operating out of Akron Municipal Airport, the patrol members and their 15 planes covered an area of 7,000 square miles. The hunt was called off because of a storm when the search area had been narrowed down to an area within two miles of the "planted" wreck.

Steel Demand Still Strong

CLEVELAND (AP)— Demand for steel remains strong in the face of a record steel output for the first half of 1953, Steel, the metal-working weekly, said today.

"Order books for the major forms of steel are still well filled," the magazine said, "and as a result, the near capacity pace of steel production continues."

In the week ending June 27, Steel stated, output of steel for ingots and castings was at 99 per cent of capacity.

The first six months of this year will show a yield of 58 million net tons of steel for ingots and castings.

That tops the high production mark set in 1951, when 52.3 million tons were produced during the first half of the year, and 52.9 million tons were turned out during the last half.

Noting the 116 million ton yield indicated for 1953 if production continues at the same rate, Steel stated:

"That is only slightly below the industry's capacity at the beginning of this year—117.5 million tons. Capacity this year is supposed to reach 120 million tons."

The magazine said some observers anticipated, early this year, that "steel demand certainly would drop off by July 1."

"As the year moved along," Steel added, "they moved the drop-off date to the start of the fourth quarter."

WINS AT DOG SHOW

CLEVELAND (AP) — Dogberry's Silver Sail, an 11-month-old wire-haired fox terrier from Canton, won the Western Reserve Kennel Club's annual sanctioned puppy match and obedience show at nearby Chagrin Falls.

Policemen Save Woman From Fatal Leap

PITTSBURGH (AP)—Mrs. Marie Nichols is back with her three children today, thankful to the policemen who kept her from jumping from a bridge and who then dug into their own pockets for money to help feed her kiddies.

A divorcee, Mrs. Nichols left her children sleeping yesterday and headed for the 40th Street Bridge which crosses the Allegheny River.

She told Magistrate John Fiourcc she was ready to jump when an unidentified pedestrian grabbed her. Detective Anthony Steckel, crossing the bridge in his car, jumped out and helped restrain her.

Mrs. Nichols said had difficulty caring for her children—Buckey, 8, Penny, 6, and Joseph, 10. The only money in the house last week, she said, was $1.80 brought home by Joseph who sold newspapers.

HONORED AT PARTY

GALION — A farewell party was held for Rev. Fr. John P. Bruin by the Knights of Columbus. He is leaving town due to the merger of the two Catholic parishes, St. Patrick's and St. Joseph's. For the past five years he has been pastor of St. Patrick's Church. In behalf of St. Patrick's, Robert E. Quinn presented Fr. Bruin with a gift. A talk on the history of the congregation was given by Walter Mason. During the business session, George Dora was elected grand knight for the coming year.

4 Dead, 4 Hurt In Farm Fire

ERIE, Pa. (AP)—Four persons were killed and four others injured in a fire that gutted the kitchen of a small farm home near Albion, about 25 miles south of this lakeport city.

The dead are Georgia Moyer, 19, her 10-year-old sister, Judy; Bonnie Moyer, 2, and Marian Chase, nine months.

In critical condition at a Conneaut (Ohio) hospital is Mrs. Dorothy Moyer, 40, mother of three of the victims.

Also hospitalized from yesterday's blaze are Mildred Moyer, 12, Charles Moyer, 10, and Harry Chase, 12.

Fire Chief John Ferguson of Albion said the fire broke out in the home of Mr. and Mrs. Jeff Kinney, grandparents of the Moyer children, after someone attempted to pour kerosene on a coal stove.

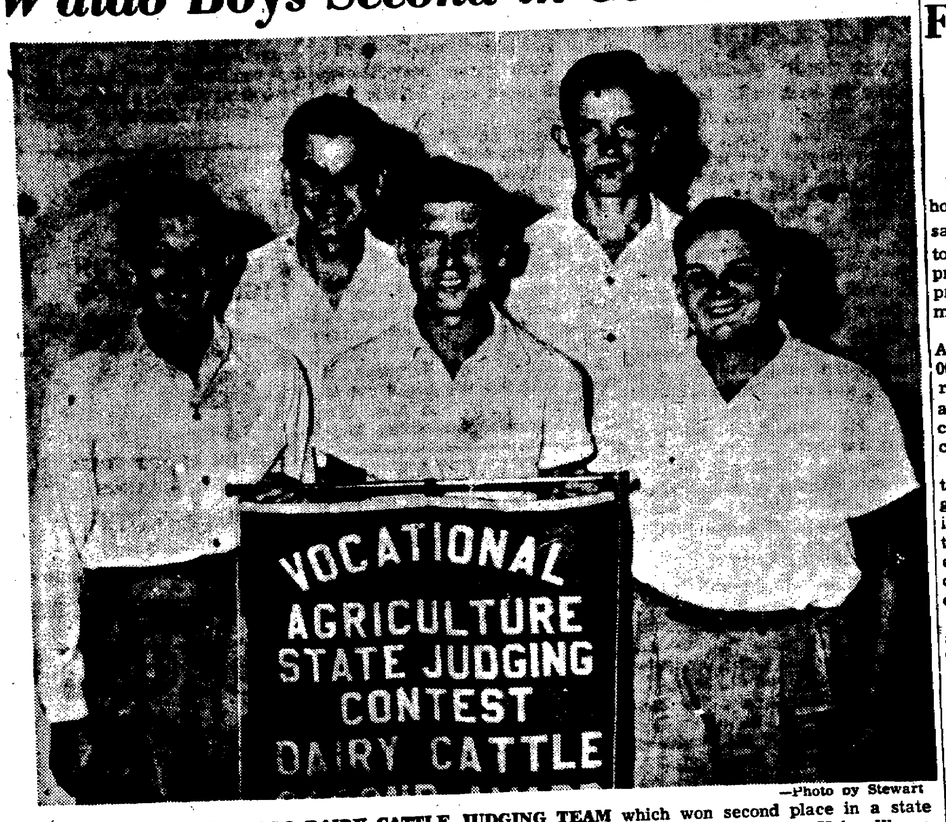
FFA Teams From County in State Judging Event

Waldo Boys Second in Contest



—Photo by Stewart

MEMBERS OF THE WALDO DAIRY CATTLE JUDGING TEAM which won second place in a state contest are shown above with their pennant. In the front row, left to right, are George Yake, Wayne Yake and Martin Augenstein. To the rear are Dallas Cornett, instructor, and Don Yake.

A team of Waldo Future Farmers of America members was rated second in the state in the dairy cattle contest division of the 30th annual Vocational Agriculture Judging Contest held June 5 and 6 at Ohio State University. Prospect was sixth in the General Livestock Contest. Judging teams from Morral and Claridon also took part in the contest.

Waldo was second to a team from Fredericktown, which will make the trip to the national victory convention in Kansas City. There were 280 teams of three boys each competing. Waldo had a score of 1242 out of a possible 1500.

Four animals are judged in a ring at a time. Types of cattle judged were Guernsey, Jersey, Holstein, Ayreshire and Brown Swiss.

Members of the Waldo team were George Yake, Wayne Yake and Martin Augenstein. George Yake was fifth of 840 boys in the cattle division and first in the Brown Swiss judging. Wayne Yake was ninth in the Holstein judging.

On the Morral team were Jerry Higgins, Duane Greene and Claire Hensel. Morral was 31st. Claridon had Harold Wickersham, Steve Lenke and Bernard Roush. Harold Wickersham was eighth in judging Ayrshires. Prospect's Don Kranczyk was seventh in Holstein judging.

In the general livestock contest two rings each of hogs, beef cattle and dairy cattle were judged. Two hundred and seventy-nine teams or 837 boys took part in this contest.

Prospect had a score of 1471 out of a possible 1800. Members of the Prospect team were Fred Isler, Richard Gix and Wayne Seiter. Fred Isler was seventh in the judging of fat cattle. Morral's team consisted of Roy Loudenslager, Jerry Higgins and Max Brewer. Roy Loudenslager was fourth in judging fat cattle and fifth in all classes by receiving 536 of a possible 600 points for an individual. Jerry Higgins was ninth in all classes with 522.

Waldo was 16th in the general livestock contest. Members were Wayne, George and Don Yake. Wayne was fifth in judging dairy cows. Members of the Claridon team were Robert Howser, Steve Lenke and Warren Zachman. Mechanicsburg was top in this division with 1564 points.

PRESENTED PIN

BUCYRUS — Carl L. Volk, 69, a lifelong Bucyrus resident, was presented a gold pin and a life membership in the International Union of Brick Masons and Plasterers at a meeting last week of the Bucyrus local of the union. Presentation was made by Edgar Baker of Newark, vice president of the international union, and Tom E. Davis of Lakewood, secretary-treasurer of the state union, marking the completion of 50 years' membership in the union by Mr. Volk.

Administration Farm Leader Fears Crisis

Keeping Prices Up Serious Problem, CCC Head Declares

NEW YORK (AP) — A top Eisenhoweer administration farm official said today it is more important to save farmers from ruinously low prices than to carry out campaign promises to reduce the government's role in agriculture.

President John H. Davis of the Agriculture Department's $6,750,000,000 Commodity Credit Corporation (CCC) said farmers are in a crisis because of surpluses, declining markets and falling incomes.

This makes it necessary, he said, that the government "put into full gear" the farm programs that exist under present legislation. Even though these laws have "weaknesses," he said, there is not time to change them to meet the present emergency.

Davis made these statements in a speech prepared for a meeting of the American Seed Trade Association.

"Granting that the present farm program has weaknesses, certainly this is no time to hold back and quibble about such weaknesses," he said. "This is the time to put first things first. This is the time for action to make price supports effective despite the shortcomings of the tools ahead."

Davis said there is no doubt that, if present price support programs were not in effect, agriculture would be in a depressed condition similar to that of the thirties.

The CCC president laid part of the blame for the present farm surplus problem on the previous Democratic administration. He said rigid restrictions on production will be needed next year and possibly the year after.

ELECTED PRESIDENT

BUCYRUS—T. S. Heinlen, patrolman for the Bucyrus Police Department, was elected president of the Bucyrus Soldiers' and Sailors' Society Thursday night. He succeeds James Huneke, an employe of the Bucyrus Telephone Co. Both are World War II veterans. The new vice president is M. C. (Mike) Melcher, a deputy Crawford County engineer and a World War II veteran. Alvin Eichman was re-elected secretary and E. J. Songer, former mayor of Bucyrus, was retained as treasurer. The society annually decorates veterans' graves in cemeteries in Bucyrus and surrounding areas and also is in charge of the annual Memorial Day program at Oakwood Cemetery here.

More Asians Seeking Education in Australia

CANBERRA (UP)—Asian students are going "downunder" in increasing numbers to gain university degrees and technical experience.

Part of the Asians studying in Australia are doing so under the Colombo Plan introduced in 1950 toovirpct-B

Colombo Plan introduced in 1950 to provide technical aid for Southeast Asia.

Since the Colombo Plan gained momentum, 152 students have completed their training in Australia. To take the place of those who went home to help in the development of their countries, another 113 students are now studying in Australia under the plan.

Of this number, 67 are from Pakistan, 57 from India, 54 from Indonesia, 42 from Ceylon. Others came from Malaya, North Borneo, Sarawak, Singapore, Thailand, Burma.

Pine Needles Source Of Drugs, Soviets Say

BUDAPEST (UP) — Important drugs and chemicals will be extracted from pine needles in the future, according to the newspaper Magyar Nemzet.

The newspaper said Soviet scientists had succeeded in finding that one ton of pine needles gives 100 kilos of good quality fiber material, 60 kilos of resin, two kilos of perfume oil, 150 kilos of tanning material, plus pectin, sugar and enough Vitamin C to cover the needs of 1,000 persons for 100 days.

Fancy Birthday Party for Dogs Gets Out of Hand

PEORIA, Ill. (AP)—A June bride started a fight with another guest who ripped off her clothes. Then she gaily cavorted au naturel. The guest of honor went home sick from over-indulgence.

A disgraceful party? Depends on the viewpoint.

It was Mike's birthday Sunday, and Mike, 10, is a cocker spaniel. He and his 25 guests were dogs who attended or had graduated from a training school where Mike's mistress, Mrs. E. M. Rosser, is an instructor.

The guests came in costume—a chihuahua as Tarzan, complete with leopard-skin a German shepherd as Little Red Riding Hood's grandmother others as a hula-hula girl—yes, a grass skirt a French chef, and a June bride.

Like all birthday parties, there were nuts, ice cream and cake to eat. The guests, at the bidding of their owners, played games.

And like most birthday parties, there was a row. The bride started it with a burly boxer. He ripped off all her clothes. She seemed happier without them.

Mike? He got a tummy ache from too much ice cream.

ACROSS THE COUNTER

"It's an ill wind that blows no man good," runs a familiar quotation. Or, in the words of Shakespeare, "Ill blows the wind that profits nobody." Perhaps the recent tornado in Waco, Texas was not an "ill wind" since many people right here in Marion can benefit by the warning.

Earl J. Andrews

In Waco the wind completely demolished the 5 story brick building of the R. T. Dennis Furniture Company and ruined the adjoining Joy Theater. You may remember seeing wirephotos of these ruins.

The Waco tornado furnishes a warning to commercial risks, especially, of the devastating force of such an occurrence and the importance of buying sufficient windstorm protection.

The Dennis organization, according to a national insurance newspaper, carried business interruption insurance but in the event of FIRE only. It probably felt—with severe consequences — that windstorm loss wouldn't be crippling.

If you own improved property or operate a business, you may profit by this example. One of our insurance companies will assume the risk of windstorm damage. You don't need to take the risk yourself!

May we discuss insurance protection with you?

Husband of Former Marion Woman Dies in Accident

Charles Scaffidi, 28, of near Barberton, husband of a former Marion woman, met death by accidental electrocution Thursday night as he was working on an addition to his home. His wife, Mrs. Mary Elizabeth Bowman Scaffidi, found him lying on the ground. A physician who was called pronounced him dead. He had been using an electric drill which apparently became shorted. Survivors include three children. Mr. Scaffidi was boiler room foreman at the Midwest Rubber Co. in Barberton.

Mrs. Bowman is a daughter of Charles Bowman of east of Marion and of Mrs. George Davids of north of Marion. Brothers are Charles Bowman Jr. of north of Marion and Paul Bowman of S. Prospect St. in Marion, and other members of the family here are uncles and aunt, W. C. Bowman of 265 Bellevue Ave., Joseph Bowman of E. Farming St., and Mrs. Hazel Shuster of 600 N. State St.

Surviving with the widow are the parents, Mr. and Mrs. Anthony Scaffidi of Dennison, O., and the children, Virginia Lynn, 4, Charlotte Ann, 3, and Diane Christine, 2, also a sister, Mrs. W. W. Eaton of Fairborne.

Funeral services will be conducted Monday at 10 a.m. in St. Francis de Sales Catholic Church in Coventry Township, near Barberton, and burial will be in Holy Cross Cemetery at Akron. Members of Mrs. Scaffidi's family from here will attend the services.

The goose is believed to be the most ancient of farm birds.

Seeing Spots? Maybe This Is the Answer

BURLINGTON, Vt. (UP) —Housewives here complained of seeing spots before their eyes and the University of Vermont experimented until it found the answer.

The women complained of seeing brown spots and holes in certain cotton garments containing zippers. It was discovered that an alloy of copper and aluminum, when used in zippers found in cotton garments, has a damaging effect on the material when the clothing is ironed damp. The alloy forms an acid when it comes in contact with water, the University reported.

The Ohio legislature in 1851 gave city councils the right to regulate the speed of a railroad locomotive through their cities, providing that the rate required be not less than four miles per hour.

Rule Couple Must Surrender Custody of Niece

Third District Court of Appeals judges, in an opinion filed Saturday with the Marion County Clerk of Courts office, held that a Marion County couple should surrender custody of a niece to her father, Eugene M. Longfellow of near LaRue.

This opinion was reached after the judges heard testimony May 15 in Marion in a writ of habeas corpus action filed by Longfellow in which he charged that Mr. and Mrs. Lenole Parish, also of near LaRue, were illegally detaining his daughter, Jean Ann Longfellow.

Judges hearing the case were Raymond A. Younger, Charles A. Guernsey and George S. Middleton. Counsel for Longfellow was the law firm of Roof and Roof of Kenton. Represetning Mr. and Mrs. Parish was the Marion firm of Donithen, Michel and Davis.

transferred to other railroads.

This is the only shop on the Erie line to be especially built for service to diesel engines. The other service center in Hornell, N. Y. is a remodeled round-house. The Marion shop was first built in 1944. Since that time, two additions have been built at the plant to meet the growing need of the expanded diesel operations.

—:—

IN THIS PLANT, more than $600,000 in repair equipment is stored for ready use. Parts taken from the locomotives are not repaired then placed back into the engine, but are replaced by other parts which are on hand, and then repaired in the shop. This enables workers at the shop to completely overhaul a diesel in four days, compared with the thirty days it took to overhaul the old steam engines.

The Marion Diesel Shop is the repair headquarters for 110 units of the Erie's 472 locomotives. These are the engines which run between Chicago and Hornell N. Y. Here, they are given periodic checks and at a set interval are completely overhauled.

—:—

THE DIESEL ENGINES used on freight trains are not used to pull passenger cars. There is a steam generator on each passenger engine but not on the freight locomotives. This generator operates the air conditioning system in the passenger cars giving the riders a comfortable ride, regardless of the temperature outside the train.

In addition to the numerous Erie freight trains which roll through Marion every day, there are six passenger trains which pass through here. Three are eastbound, going from Chicago to New York, and the other three are westbound.

Mayor Harold F. Robinson today proclaimed Tuesday "Erie Open House Day" in the city. He said the Erie plays an important part in the workings of the community and deserves the support of the citizens in its open house program.

Mayor Robinson pointed out that the Erie is a "vital link between Marion and other communities of this nation" and has been a potent force in municipal improvement and advancement.

He also stated that a large segment of the population here is employed by the Erie Railroad. He urged all citizens to attend and support the open house program to be held at the diesel shop.

—:—

YMCA Boys and Girls To Tour Diesel Shop

Boys and girls of the Marion YMCA will help the Erie Railroad mark its open house Tuesday when they make a "rubberneck" tour of the diesel shop. The boys and girls will meet at the Y at 9 a.m.

Tuesday following the trip the regular crafts work will be held at the Y. The crafts program also is scheduled for Thursday and Friday at 9 a.m. for both boys and girls.

Truce

Forces Commander Peng Teh Huai, both of whom signed the June 19 protest.

It was delivered after the U. N. commander sat in on Robertson's fourth conference with Rhee in his mission to persuade the aging, fiery President to accept a truce.

Also present were U. S. Ambassador to Korea Ellis O. Briggs, Clark's political adviser, Robert Murphy, and South Korea's prime minister, foreign minister and defense minister.

Rhee has demanded a U. S.-South Korean mutual security pact before a truce as his price for signing, but there was no indication whether he got one.

Although a South Korean government spokesman said Rhee and Assistant Secretary of State Robertson were near agreement on a pact, there have been no official statements of the conference results.

After the meeting Robertson visited the front briefly, and on his return to Seoul, told newsmen the "talks are proceeding."

In response to questions, he said he had seen Clark's letter to the Communists many times and replied, "yes," when asked if it meant the Allies were going ahead with signing a truce.

He said he was "still in conference" with Rhee and planned to meet with him again Tuesday.

Tribe Hands Yanks 7th Straight Loss; Dodgers Take Lead

Brooklyn Belts Braves, 11-1, To Move In Front

By JOE REICHLER
Associated Press Sportswriter

Moaning Milwaukee fans were crying in their beers today over the collapse of their beloved Braves but their gloom was shared by millions of New Yorkers who still cannot understand what has happened to their once high and mighty Yankees.

Seven straight defeats for the world champion Yankees, the same outfit that had rolled up 18 consecutive victories earlier this month to apparently make a shambles of the American League race. A week ago the Yankees led by 11½ games. Today, following their 4-1 defeat at the hands of Cleveland, the Yankees' seemingly insurmountable margin over the Indians has been whittled to six games. A loss to Detroit followed by three losses to Chicago and three to Cleveland did that.

Milwaukee's plight is even worse than the Yankees. The Braves, too, dropped their seventh in a row yesterday, suffering an 11-1 rout by Brooklyn to lose first place to the Dodgers. Just seven days ago, they were enjoying a comfortable three-game bulge. But a loss to New York followed by three beatings by Pittsburgh and three more by Brooklyn plummeted them out of the National League lead.

The two league races tighthened considerably following Sunday's results. The rampaging White Sox walloped Boston, 13-4, to climb within 6½ games of the Yankees. The third place White Sox now have won seven straight and 14 of their last 16.

Philadelphia's Phillies halted St. Louis' march with an 11-inning 4-3 triumph over the Cardinals to close within four games of the league-leading Dodgers. The Cardinals remained in third place, one game behind the Braves and two in back of Brooklyn.

New York's fifth place Giants thumped the Chicago Cubs, 12-2, to wind up their Western swing with nine victories in 13 games. Although still in fifth place, the resurging Giants are only 7½ games off the pace.

Cincinnati's improved Redlegs shellacked the Pittsburgh Pirates twice, 4-1 and 9-2. Two American League doubleheaders ended in splits. Philadelphia's Athletics nipped the Browns, 2-1 after St. Louis had won the opener, 4-1. Detroit whipped Washington, 5-1 after the Senators had copped the first game, 5-2.

Al Rosen's three-run homer and Early Wynn's three-hit pitching gave the Indians a sweep of their three-game series with the Yankees. New York had won its previous seven games with Cleveland. Rosen's homer followed singles by Dale Mitchell and Bobby Avila in the first inning when Cleveland knocked Whitey Ford out of the box. Wynn helped win his eighth game with a home run in the fourth.

The losing streak is the longest for the Yanks since the 1945 club dropped nine in a row under Joe McCarthy.

A five-run fourth inning climaxed by Minnie Minoso's three-run homer was all Virgil Trucks needed to post his second victory since he joined the White Sox two weeks ago. Chicago banged out 18 hits off loser Willard Nixon and three relievers.

The Dodgers really lowered the boom on the Braves. They backed up Russ Meyer's four-hit pitching with 16 hits that included five doubles, two triples and a home run.

Granny Hamner's 11th inning double followed by two infield outs produced the winning Philadelphia run over the Cardinals. Reliefer Hal White, who had allowed only one hit from the sixth to the 11th, was charged with the loss.

Pitcher Carl Scheib singled following catcher Joe Astroth's two-out triple in the ninth to give the A's their 2-1 triumph. Clint Courtney drove in three St. Louis run with a pair of singles and his first home run of the season to lead the Browns to their first game victory.

Middlecoff Wins Cleveland Event

CLEVELAND (AP) — His game razor sharp, and with $2,400 prize money in his pocket, Dr. Cary Middlecoff headed today for Birmingham, Mich., and a crack at the PGA championship.

The Memphis dentist tuned up for the big one by winning the Manakiki Open here Sunday in a star-spangled finish which saw him defeat Ted Kroll of New Hartford, N. Y. on the second hole of a sudden death playoff.

Kroll surrendered a two-stroke lead in the final round with a sub-par 71 as Middlecoff caught him with a 69.

They deadlocked at 275, or 13 under par for the 6551-yard course.

Kroll picked up $1,800 for second place, moving him into fifth place in the money-won list with $11,746.65 for the year. Middlecoff is fourth with $13,031.67.

Freddie Haas, former intercollegiate king from New Orleans, created a flurry when, after three rounds in which he failed to crack par, he finished with a startling 31-31—62 for the year's best competitive round, a fourth place tie and $925.

SHORT SPORTS

By John Short

Worst news to hit central Ohio sports fans recently is the report that we may soon lose the National Caddie Golf tournament, held annually at Columbus, alopg with its companion event, the Celebrities.

Nearly two weeks ago, Bob Husted Jr., vice president of the National Caddie Association, said the Caddie Tourney would probably be moved away from Columbus. That move also would mean the abandoning of the Celebrity event which has been sponsored to help raise funds for caddie college scholarships. Husted is currently waiting word from the wheels of the PGA to see what action and help they can give. His original statement said the tourney faced the move due to the fact that the Columbus location had proved to be to expensive and that it took too much effort to line up talent for the Celebrities.

SHORT

The spokesman has pointed out that present plans call for the continued operation of the twin events but on courses away from Columbus, probably Chicago or New York.

Apparently the one hope of retaining this section's top sports event rests with former Columbus mayor, Jim Rhodes. Rhodes, Ohio state auditor, is founder of the National Caddie Association and currently is serving as its president. Through Rhodes' effort the Caddie tourney and the Celebrities were started seven years ago. Since that time Ohio golf fans have supported its wholeheartedly.

We would hate to see the two events moved out of this area. For several years, we've found the Celebrities to be a spectacle worth driving several miles to watch. Last year's list included several leaders from the entertainment world such as Phil Harris, Phil Spitalny, Perry Como and the Fontaine sisters, and also some pretty well-known people from the world of sports, Julius Boros, Sam Snead, Dizzy Dean, Woody Hayes and Vic Janowicz.

As yet we haven't given up hope. Rhodes apparently has set his mind on making the two events tops in the golfing kingdom and probably won't give up until he reaches his goal. His present office would prevent his traveling to the various cities and the only other course of action would be to keep it at Columbus.

Betsy Rawls Wins Women's Crown

NEW YORK (AP)—By winning the first Women's Open Championship of the United States Golf Association, Betsy Rawls has just about proved that it is possible for a girl to have everything.

Three years ago she was graduated from the University of Texas with a Phi Beta Kappa key and a strong desire to become a top-flight golfer. Now she has the biggest title a woman golfer can win and a comfortable bankroll and good looks, too.

In addition, the feminine golfing brigade has a firmly established championship tournament—something that wasn't quite certain until the past few days.

When Miss Rawls beat Jackie Pung of Hawaii and Glasgow, Ky., 71-77 in yesterday's 18-hole title playoff after they had tied at 302 in a thrilling three-way finish Saturday, the continuation of the Women's Open as a USGA tournament was assured. It was the climax of a highly successful experiment.

LARSEN BEATS SWEDISH NET ACE. Art Larsen of San Leandro, Calif., puts everything he's got into his game as he defeats Torsten Johansson, Swedish net ace, in the fourth round of All-England tennis championship meet at Wimbledon. Larsen was eager to gain the victory because, in the first round last year, Johansson triumphed.

Kentucky Stars Down Ohio, 97-90

MIDDLETOWN, O. (AP) — Kentucky's high school basketball All-Stars waded through to a 97-90 victory over the Ohio All-Stars here Saturday night to gain a split in the annual two-game series.

Coach Ed Diddle's bluegrass boys led throughout the first quarter, but fell behind in the second period and trailed until the final stanza, when they scored 33 points to 29 for the losers.

Ronnie Clark, Henderson, and John Brewers, Louisville, led the victors with 24 points each. Fred Weinman, Hamilton, and Cliff Hafer, Middletown, paced the Ohioans with 15 and 14 points, respectively.

Brewers and Weinman were chosen as the game's most valuable players.

Marion Legion Nine Splits Pair of Games

Bow to Mansfield In Practice Tilt; Dump Cardington, 5-3

Marion's Junior American Legion baseball team split a pair of games over the week end. The locals dropped a 10-4 decision at Mansfield but downed Cardington, 5-3, Sunday at Lincoln Park. The tilt, a league game, was called after four and a half innings due to rain.

Mansfield sealed its win with a four-run fifth inning in the practice game Saturday. The locals scored once in the second, twice in the third and once more in the fourth but were held scoreless the remaining five innings. Mansfield tallied twice in the second, added three runs in the fourth, its four in the fifth, and one more in the sixth.

The winners collected eight hits and Marion banged out seven safeties. Baughman was the losing Marion pitcher.

The locals erupted for two runs in the third and three more in the fourth to down Cardington. Baughman held the losers to single runs in the first, third and fifth innings. Each team collected three hits.

Armstrong, Stouffer and Baughman punched out the Marion safeties. Healea, Curl and Riggs hit safely for Cardington. Larcom was the Cardington pitcher.

On July 4, the locals travel to Marysville for a double-header. Another is carded with Utica there July 5. Both are sixth District games.

Bumstead Signs Cincy Contract

BUCYRUS — Dan Bumstead ace baseball and basketball star for the past three seasons at Bucyrus High School, is expected to report this week to the Fitzgerald, Ga., baseball team, a Class D farm of the Cincinnati Redlegs.

Bumstead last week returned his signed contract to the Cincinnati management.

A southpaw pitcher, young Bumstead was the guest of the Redlegs recently at Crosley field prior to a game and worked out for the Redlegs' brass.

The contract calls for Bumstead to remain with the club until the fall semester starts at Kenyon College at Gambier, O. Bumstead, who is 18, recently received a four-year scholarship to Kenyon.

The son of Dr. and Mrs. A. D. Bumstead, he also pitched the past three seasons for the Bucyrus American Legion junior baseball team. In 1952, he set a new all-time individual basketball scoring record at Bucyrus High School.

Rosen and Wynn Star As Indians Complete Sweep

CLEVELAND (AP)—All in all, the Cleveland Indians had a pretty happy hunting trip in the east. They finished it with three Yankee scalps.

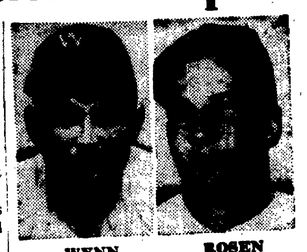
Sunday's 4-1 win in Yankee Stadium was the Tribe's 10th victory in 15 games since the start of its eastern campaign June 16. The Indians left here 10½ games behind first place New York and returned only six games out.

Al Rosen and Early Wynn were the heroes. Rosen hit a three-run homer in the first inning. Wynn held the Yanks to three hits and poked out a homer himself in the fourth frame to round out the Cleveland score.

Rosen's clout, following singles by Dale Mitchell and Bob Avila, gave him the American League lead in runs-batted-in at 53, one ahead of Yankee Mickey Mantle. Wynn hit his second homer of the season off reliefer Tom Gorman.

Notching his seventh victory against five defeats, Wynn held the Yankees to one hit in the first 6 1-3 innings. Yogi Berra got the first New York hit, a single in the second, and drove in the sole Yankee run with another single in the seventh, following a walk to Mantle and a double by Johnny Mize.

The Yankees will be without their slumping slugger, Mantle, for a few days. He pulled a leg muscle running out an infield grounder.



WYNN ROSEN

Cleveland Manager Al Lopez got kicked off the field just before Rosen poled his homer. Plate Umpire Eddie Rommel ejected him

DAVIS SHATTERS WORLD HIGH JUMP RECORD. Walt Davis, six-foot, eight-inch giant from Houston, Tex., soars to a new world record in the high jump at Dayton, O., with a leap of 6 feet, 11½ inches at the 65th annual National AAU Track and Field meet. Davis went half an inch over the mark set in 1941 by Les Steers at Los Angeles. The tall Texan cleared the bar cleanly in his third and final try.

Gus Bell Leads Redlegs To Twin Wins

Outfielder Smacks Pair of Homers Against Former Team

CINCINNATI (AP) — Gus Bell almost outdid himself in Sunday's doubleheader against the Pittsburgh Pirates, banging in three of Cincinnati's runs in the 4-1 opening game triumph and four of its tallies as the Redlegs took the nightcap, 9-2.

General Manager Branch Rickey sent the 24-year-old outfielder to the Redlegs in exchange for catcher Joe Rossi and outfielders Cal Abrams and Gail Henley in 1952.

Bell has 60 runs batted in so far this season, second in the National League, and one more than he garnered in 131 games with the Pirates last year.

A rookie lefthander, Fred Baczewski, and a veteran lefthander, Ken Raffensberger, started for the Redlegs and each went the distance while giving up only five and four hits, respectively. Home runs robbed them both of shutouts.

Bell started right in against his former club by whacking a two-run double with two out in the third, and the Redlegs added another run in the fourth on consecutive singles by Bob Borkowski, Hobie Landrith and Roy McMillan.

Carlos Bernier touched Baczewski, recently acquired from Chicago, for a homer in the fifth. Bell made up for that run, however, by blasting his 18th homer deep into the rightfield bleachers in the eighth.

Almost everybody got into the Redleg scoring act in the nightcap—although none so much as Bell—with even Raffensberger connecting with a two-run double in the seventh for the Rhinelanders' eighth and ninth runs.

Eddie Pellagrini, a former Redleg, clouted a homer over the leftfield fence following a walk to Bernier in the ninth to ruin Raffy's shutout attempt.

The Redlegs scored an unearned run in the first frame and got two more when Bell hit a double to leftfield after McMillan and Adams walked. They added another in the third and scored three more in the sixth, the first on a single and Adams' pop-fly double and the other two on Bell's 19th homer and second of the day.

Wrestling Moves To Thursday Night

Three one-fall matches and a six-man tag team event will be on the weekly wrestling card at the armory, Promoter Les Fishbaugh announced today. Fishbaugh also announced the bouts would be moved back to the regular Thursday night spot.

Don Arnold and Moose Cholak will open the card with Whitey Walber and Hercules McIntre pitted in the second 30-minute affair. Ted Lewin will meet Frank Marconi in the third.

The winners of the 30-minute matches will be matched against the loser in the 60-minute tag team event. That bout will be for two out of three falls.

Texas Star Sets Record At Dayton

Davis Hits Mark In High Jump; Santee Misses

DAYTON, O. (AP)—It paid off with a world track record for sky-scraping Walt (Buddy) Davis, former Texas A & M basketball star, to remain an amateur.

The six-foot, 8-inch Davis, now owner of the world high jump mark of 6 feet 11⅛ inches, declined a pro basketball bid after his graduation last year. Davis, 23, set his new record in the National AAU track championship, which ended Saturday with nine new meet marks and two records tied.

There is strong suspicion Davis can clear the magic 7-foot mark, akin to the phanton 4-minute mile in track lore. He barely missed at 7-¼ in an anti-climatic effort after his new record Saturday.

Speaking of the 4-minute mile, Wes Santee of Kansas was far behind it in his 4:07.6 winning effort for a new AAU meet record. Santee's start was slow in a cluttered 15-man field and he got no competition when he did open the throttle, winning by 30 yards.

Although he failed to nick the record book, hurdler Jack Davis of Southern California was the only double winner, duplicating his low and high timber triumph in the NCAA.

In addition to Buddy Davis' world record, perhaps the most noteworthy new AAU mark was the 183 foot, 9½-inch discus toss by Fortune Gordien, who beat the claimant to a recent new world mark of 190-⅞ths, Southern California's Sim Iness.

Columbus, Toledo Divide Twinbill

By The Associated Press

The league-leading Indianapolis Indians had to settle for a split with lowly Charleston Sunday but maintained their two-game edge in the American Association as contending Toledo and Kansas City also divided doubleheaders.

Seventh-place Charleston beat the Indians 4-1 in a seven-inning opener as Gus Keriazakos hurled a five-hitter. In the second game, cut to eight innings to enable both teams to make train schedules, Indianapolis handed out a 12-4 shellacking.

Toledo, the Association's runner-up club, continued two games off the Indian pace, losing 4-1 to Columbus, then winning 9-5 in a contest enlivened by a post-game controversy over the score.

Rain halted play in the seventh inning with Columbus at bat, three runs in, the bases full, two out and Toledo ahead 9-5. Umpire Mike Briscese ruled the game ended after the sixth and stipulated the final score was 9-2.

Sportswriter Lew Bryrer, official scorer, disagreed. He said the score was 9-5. In an official ruling, League President Bruce Dudley sided with Bryrer.

Kansas City took a 15-5 shellacking from Minneapolis in their opener and the Blues won the second game 7-2.

Louisville was the only team to register a doubleheader sweep. The Colonels took over fourth place from St. Paul by beating the Saints 8-2 and 6-3.

FINISH SILO JOB

TOLEDO, O. (AP)—A crew of 300 college boys and farmers have finished the job of pouring 20 concrete silos in 13 days, two days past their goal.

The silos are located at a truck terminal near Maumee. The owner Harold Anderson, said he hired the inexperienced workers because he felt he could not get enough union labor.

Sweep Should Be a Big Help, Says Lopez

By JACK HAND

NEW YORK (AP) — Manager Al Lopez acted like a man who had expected his Cleveland Indians to sweep three from the slumping New York Yankees, he wasn't overly excited. It was as though it happened all the time.

One week ago his Tribe was struggling, 11½ games back. People were talking about a split season and a Shaughnessy playoff. Now they were only six games away and coming strong:

"The end is too far away," he said in the Clubhouse after Early Wynn's three-hitter sank the Yanks with their seventh straight defeat. "We've got close to 90 games to go (to be exact, 88 games). This should be a great help to us but we still have a long way to go.

"Like I said when they were winning those 18 straight, they aren't any super club. They were hotter than a pistol. Now their batters are not getting the hits and their fielding is not as good as it was. But I don't see any signs of any crackup."

Lopez recalled that last year his Indians once were 7½ back but came back in the stretch.

Somebody tried to get him to say, they could forget that talk about the split season now, but he wouldn't go for it.

"I don't want to get them mad," he said with a grin.

Tony Cuccinello, one of his coaches, wasn't quite as particular.

"What does Casey (Manager Casey Stengel) have to say now?" he asked. "When they beat us in Cleveland he said they were over the hump. What does he say now?"

Over in the Yankee Clubhouse, Stengel didn't have much to say. "We're not hitting, pitching and fielding," he commented. Later he was closeted with co-owner Del Webb.

The Yankees were inclined to be Philosophical about it.

Eddie Lopat summed it up: "It could be a lot worse. We could be second—or even third."

Vernon Takes Lead in Poll

CHICAGO (AP)—Mickey Vernon of the Washington Senators has replaced the New York Yankees' Mickey Mantle as the top individual votegetter in the annual All-Star baseball poll.

Vernon took over as ballot leader today with a total of 436,278 for the American League's starting first base position in the annual game with National Leaguers July 14 in Cincinnati.

Clark Metal, VFW Win in Pony Loop

VFW eded Clark Metal Products, 9-8, and Alloy Cast Steel dumped G and G Builders, 5-1, in Saturday night's two Pony League contests.

VFW drew blood first when Gene Remmy opened with a single, moved on around when Jones went to first on an error by the first baseman and stole second. Don Luke walked and came home on an error by the catcher. VFW scored three more in the third on two singles, a double and a walk.

In the fourth Clark Metal found the range and rallied for four runs. A passed ball, a fielder's choice and an error by the third baseman enabled the first three men to reach base. Dick Penry then came up with a double driving in three and came home on a single by Larry Corbin.

Both teams managed to score four more giving VFW the one-run edge. Dick Wilson was the winning pitcher.

The second game was a game of strikeouts with Harris for the Alloy getting 15 and Lister of G and G fanning 11 in seven innings. Alloy got its hits when they counted and took advantage of every mistake made by G and G. Two triples in the first enabled Alloy to score two and gave them the game. They scored one in the second and two more in the fourth to stand off a rally by the Builders.

There will be no Pony League game this week due to the July 4 week end but the Little League will carry its regular schedule.

Girls' Benefit Tilt Stopped by Rain

Sunday's benefit doubleheader for the Marion Girls' Softball League was rained out after four innings of the opening tilt had been played.

A league spokesman said this morning plans already were under way to reschedule the games, possibly this week. Tickets sold for the Sunday event will be honored, he said.

The team made up of girls from Arro Expansion Bolt and the Marion Power Shovel held a 6-4 edge over the team from Marion Engineer Depot and the Telephone Company. Marion Industries, winners of the first round, were scheduled to play Delaware in the nightcap.

Only one game is on tap this week in the league. That will send Arro Expansion against the Depot at the Depot diamond Tuesday night. The remainder of the league will be idle. The spokesman said the game was being played to enable the Bolt team to get in the regular game before closing next week for vacations.

Softball Schedule

Second round of play starts for all leagues. Second team listed on the schedule is home team and responsible for proper disposition of bases, balls, and scorebook.

May Form New Cabinet

ROME (AP) — Premier Alcide de Gasperi handed his government's resignation to President Luigi Einaudi today and Einaudi began consultations expected to end in his asking De Gasperi to form his eighth Italian Cabinet aligned with the Western Allies.

The Premier's action was a formality necessitated by Italy's election of a new Parliament in June.

In that voting, the center bloc dominated by the 72-year-old Premier's Christian Democrats won a majority of 16 seats in the 590-member Chamber of Deputies and seven seats in the 243-member Senate.

Einaudi planned a round of conferences with the nation's political leaders before asking one of them to form a new cabinet. First on his list of callers was Sen. Enrico de Nicola, 76-year-old elder statesman who was Italy's first provisional president after establishment of the republic at the end of World War II.

Though most observers anticipated De Gasperi eventually would be asked to form the government, there was some speculation he might prefer a younger member of his party to take over the Cabinet reins. In that event, De Gasperi probably would continue as foreign minister, a post he has held with the premiership.

TO STORE WHEAT SAFELY AT HOME FOR GOVERNMENT LOAN FOLLOW THESE STEPS

1. Clean and spray bins and surrounding building surfaces NOW.
2. We will custom dry your wheat if it is over 12% moisture when combined. Damp wheat will get weavily in a hurry. Should be 12% or lower for safe storage. High moisture content is the principal reason for farm stored wheat getting out of condition.
3. Use sheet metal, hardware cloth or other materials to make bin rodent proof.
4. Be sure windows and other openings are in good repair to prevent entry of birds.
5. Fumigate promptly within two to three weeks after grain is stored.
6. Observe condition of wheat often during storage period.
